## AMERICAN INCOME LIFE INSURANCE COMPANY – FINANCIAL STATEMENTS FOR FILING UNDER THE FINANCIAL MARKETS CONDUCT ACT 2013

- Please find **enclosed** for registration under the Financial Markets Conduct Act 2013 for American Income Life Insurance Company (*AILIC*) for the year ended 31 December 2021:
  - 1.1 AILIC New Zealand Branch Financial Statements and Audit Report, prepared in accordance with New Zealand Generally Accepted Accounting Practice;
  - 1.2 AILIC Group Financial Statements and Audit report, prepared in accordance with Statutory Accounting Principles issued by the National Association of Insurance Commissioners (*US SAP*); and
  - 1.3 the Appointed Actuary's reports prepared in accordance with section 78 of the Insurance (Prudential Supervision) Act 2010 in relation to the Group and Branch Financial Statements above.
- AILIC gives **notice** to the Registrar of Companies of its reliance on the **enclosed** Financial Markets Conduct (Overseas Registered Banks and Licensed Insurers) Exemption Notice 2021, which exempts AILIC from:
  - 2.1 sections 455(1)(c), 461B, 461D, and 461G of the FMCA; and
  - 2.2 sections 460 and 461 of the FMCA to the extent that those sections require the exempt issuer to ensure that its financial statements, or group financial statements, comply with generally accepted accounting practice,

provided that *inter alia*, it files Group Financial Statements that have been prepared and audited in accordance with US SAP.

- We understand that American Income Life is an overseas licensed insurer. These Group Financial Statements have been prepared in accordance with the financial reporting requirements in the home jurisdiction of American Income Life. Those requirements—
  - (a) are not equivalent to International Financial Reporting Standards (IFRS); and

(b) as such, are materially different to financial reporting requirements in New Zealand.

As a result, these financial statements may not be comparable in all material respects to financial statements prepared by a licensed insurer in accordance with New Zealand law.

- Please charge the registration fee for the financial statements to our account (number 1001971). The reference number you should use is 041422045.
- We would be grateful if you would confirm registration of these documents as soon as possible.

Yours faithfully

P Breen

Statement of Movements in the Home Office Account	14
Balance Sheet	15
Statement of Cash Flows	16
Notes to the Financial Statements	17 - 27

## Independent Auditor's Report to the Shareholder of American Income Life Insurance Company – New Zealand Branch

#### Opinion

We have audited the financial statements of American Income Life Insurance Company – New Zealand Branch (the "Branch") which comprise the balance sheet as at 31 December 2021, and the statement of comprehensive income, the statement of movements in the home office account and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the Branch's financial position as at 31 December 2021 and its financial performance and its cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Branch in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards)(IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Other than in our capacity as auditor, we have no relationship with or interests in the Branch, except that partners and employees of our firm may deal with the Branch on normal terms within the ordinary course of trading activities of the business of the Branch.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of Matter – New Zealand Branch

The New Zealand branch is part of American Income Life Insurance Company ('the Company'). As described in Note 16, the assets of the Branch, other than those held in custodial fund, are legally available for the satisfaction of debts of the entire Company, not solely those appearing on the accompanying balance sheet and its debts may result in claims against assets not appearing thereon. Our opinion is not qualified in respect of this matter.

## **Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Deloitte.

#### **Key Audit Matter**

Valuation of liability for future policy benefits

As at 31 December 2021 valuation of outstanding claims totalled NZ\$25,741 (in thousands).

The net reserve for future policy benefits relating to life insurance contract liabilities is a key audit matter because of the judgement required in making the estimate. Specific actuarial experience is required to evaluate complex and judgemental actuarial methodologies and assumptions.

As described in Note 15 to the financial statements, management sets assumptions for mortality, morbidity, rates of discontinuance, in (1) estimating a liability for insurance contracts that will be incurred in the future ("policy liabilities") and (2) determining the discount rate used to calculate the present value of future policy benefits payable.

Assumptions are determined based upon published information, studies and analysis of Branch specific experience, adjusted for changes in exposure and other relevant factors.

Given the inherent uncertainty for future assumptions, the development of such assumptions involve especially subjective judgement.

The estimate of the liability for future policy benefits is a key input into the branch's solvency calculation for measuring compliance with its license conditions and is sensitive to changes in interest rates.

This was a key audit matter due to the size of the balance (being 83.5% of total liabilities), and the specific audit and actuarial expertise required to evaluate the judgemental actuarial methodologies and assumptions.

## How the scope of our audit responded to the Key Audit Matter

Our audit procedures related to management's judgements regarding the assumptions used in the development of the liability for future policy benefits included, but were not limited to:

- Testing the design and implementation of relevant controls put in place by the management over the valuation of the liability for future policy benefits;
- Testing the completeness and accuracy of the underlying data used in the development of the assumptions as well as in the determination of the liability for future policy benefits;
- Assessing the appropriateness of estimates and judgements, valuation methodologies, processes and models with respect to actuarial and relevant accounting standards;
- Assessing whether the assumptions used were consistent with evidence obtained in other areas of the audit;
- Assessing with the assistance of our actuarial specialists, management's judgements regarding the assumptions used in the development of future policy benefits payable including the appropriateness of the valuation methodology;
- Assessing the appropriateness of the disclosures in the notes to the financial statements.

## Other Information

The Board of Directors, on behalf of the Company, are responsible for the other information. The other information may include the Chairman and CEO report, Summary Financials, Director Appointments and Statutory Disclosures, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors for the Financial Statements

The Board of Directors of the Company are responsible on behalf of the Branch for the preparation and fair presentation of the financial statements in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS), International Financial Reporting Standards (IFRS), and for such internal control as the Board of Directors determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible on behalf of the Branch for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (NZ), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
  error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
  sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
  misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion,
  forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
  of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

## Deloitte.

Evaluate the overall presentation, structure and content of the financial statements, including the
disclosures, and whether the financial statements represent the underlying transactions and events in a
manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The auditor also provides those charged with governance with a statement that the auditor has complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on the auditor's independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, the auditor determines those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. The auditor describes these matters in the auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, the auditor determines that a matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Stuart Alexander.

## STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES For the Year Ended 31 December 2021

#### 1. GENERAL ACCOUNTING POLICIES

**General Information** - The reporting entity is American Income Life Insurance Company - New Zealand Branch (the "Branch"). American Income Life Insurance Company (the "Company") is registered under the Companies Act 1993.

Effective 31 July 2013, the Company established a statutory fund in accordance with the Insurance (Prudential Supervision) Act 2010 ("IPSA-2010"). Note 16 to the financial statements provides further information in relation to the Statutory Fund. The Company was granted a full license by the Reserve Bank of New Zealand (RBNZ) under IPSA-2010 on 23 August 2013. The life insurance operations of the Branch are conducted as required by the IPSA - 2010 and are reported in aggregate in the statement of comprehensive income, balance sheet, statement of cash flows, and statement of movements in the home office account of the Branch. The life insurance operations of the Branch comprise the selling and administration of life insurance contracts. All contracts are non-investment linked business. All business written by the Branch is non-participating and all profits and losses are allocated to the statutory fund.

Life insurance contracts involve the acceptance of significant insurance risk. Insurance contracts include those where the insured benefit is payable on the occurrence of a specified event such as death, injury or disability caused by accident or illness.

The principal place of business is American Income Life Insurance Company, 1200 Wooded Acres, Waco, Texas, United States of America. The contact address for the Branch is c/o AlL New Zealand Ltd. (an independently owned company and independent contractor), AlL House, 2165 Great North Road, Avondale, Auckland, New Zealand.

The effects of the COVID-19 pandemic, and international responses, are wide-ranging, costly, disruptive and rapidly changing. The global COVID-19 pandemic has resulted in and is expected to continue to result in significant disruption in economic activity and financial markets. Despite these challenges, the Branch continues to effectively conduct business operations as it monitors the impact of the pandemic on underwriting results, solvency requirements, agency force and policyholders.

Basis of Preparation - The financial statements presented are those solely for the Branch and are prepared on the basis of historical costs except for certain assets and liabilities as noted. The financial statements comprise statements of the following: significant accounting policies, statement of comprehensive income, statement of movements in the home office account, balance sheet, statement of cash flows, as well as notes to these statements contained on pages 6 to 25. As stated in Note 16, the assets held in the Custodial Fund are only available to meet the liabilities of American Income Life Insurance Company - New Zealand Branch. Assets held in Other Account are legally available for the satisfaction of debts of the American Income Life Insurance Company, not solely those appearing on the balance sheet of the Branch and its debts may result in claims against assets not appearing thereon.

**Statement of Compliance** - The Branch is a profit-oriented entity and has applied all applicable standards for profit-oriented entities.

The Branch is an FMC reporting entity under the Financial Markets Conduct Act 2013. These financial statements have been prepared in accordance with the requirements of the Financial Markets Conduct Act 2013.

The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand (NZ GAAP). They comply with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS) and other applicable Financial Reporting Standards as appropriate for profit-oriented entities. The financial statements comply with International Financial Reporting Standards.

**Presentation and Functional Currency of the Branch** - These financial statements have been prepared in New Zealand dollars, which is the functional currency of the Branch.

**Overview of Insurance Risk** - The financial assets and liabilities are subject to market and insurance risk and other changes of experience assumptions that may have a material effect on NZ IFRS basis profit or loss and equity. Market risk is the risk that the fair value or future cash flows of a financial instrument, or liability of insurance contracts will vary because of changes in market prices. Market risk involves four types of risk:

Credit Risk - is the risk that a counter-party will default on its contractual agreement exposing the Branch to potential financial loss. The Branch manages this risk in accordance with its investment management policies.

Currency Risk - is the risk of loss resulting from changes in exchange rate when applied to assets and liabilities or future transactions denominated in a currency that is not the Branch's functional currency. The Branch sets limits for the management of currency risk arising from the Branch's investments based on prudent international asset management practice.

Interest Rate Risk - is the risk that the value or future value of cash flows of a financial instrument will fluctuate because of changes in interest rates. The Branch manages interest rate risk arising from its interest bearing investments in accordance with Branch policies.

Other Price Risk - is the risk of loss resulting from the decline in prices of equity securities or other assets. The price risk is managed by diversification of the investment portfolio.

Policyholder liabilities and reserves are subject to the effects of changes in experience, or expected future experience, such as for mortality and rates of discontinuance.

Standards and Interpretations Not Yet Effective - NZ IFRS 17 "Insurance Contracts" is effective for balance dates beginning 1 January 2023. The standard replaces NZ IFRS 4 "Insurance Contracts". NZ IFRS 17 requires entities to identify portfolios of insurance contracts which are subject to similar risk and managed together. Each portfolio, at minimum shall be divided into three groups, a group of contracts that are onerous at initial recognition, a group of contracts that at initial recognition have no significant possibility of becoming onerous, and a group of the remaining contracts in the portfolio. The standard measures insurance contracts either under the general model or a simplified version of this called the Premium Allocation Approach. An entity shall apply the standard retrospectively unless impracticable, in which case entities have the option of using either the modified retrospective approach or the fair value approach. Management has conducted a preliminary analysis regarding the application of this new standard to the products in its branch operations, considering items such as application of the general model and the expected likelihood of any onerous contracts at initial recognition. This effort is ongoing. Due to the nature of the standard, the impact to the financial statements is expected to be significant.

**Adoption of New and Revised Standards and Interpretations** - No new material standards were adopted during the year ended 31 December 2021.

#### 2. PARTICULAR ACCOUNTING POLICIES

a) Recognition of Premium Income and Policy Expenses - Premiums on life and accident and health policies are recognised as revenues when received and due.

Policy acquisition costs are the fixed and variable costs of acquiring new business, including commission. Policy maintenance costs include all operating and management costs other than acquisition and investment management costs.

All expenses that are not directly attributable to the acquisition of life insurance contracts are classified as maintenance expenses.

b) Investments - The government and other debt securities are stated at fair values, which were obtained from third party pricing services, with any resultant gain or loss recognised in profit or loss.

c) Taxation - Income tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax - The tax currently payable is calculated on the basis that the Branch is a non-resident with no fixed establishment in New Zealand. As such, the Branch is subject to income tax as a non-resident life insurer; general insurance premiums are subject to the non-resident insurer regime; and interest income is subject to non-resident withholding tax or Approved Issuer Levy. Taxable profit differs from profit reported in profit or loss because it excludes items of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. Further, different tax rates apply under the non-resident insurer regime and to interest income for non-residents. The Branch's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred Tax - Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

**d) Financial Instruments** - Assets and liabilities of the Branch are primarily financial instruments and are recognised in the Balance Sheet.

The Branch has determined that cash and bonds in the custodial account are the assets held in relation to insurance contracts for backing insurance contract liabilities. The Branch has provided additional protection for its New Zealand policy holders by ring-fencing a significant proportion of its financial assets in a trust structure, sufficient to cover its solvency liabilities in New Zealand.

The accounting policies applying to financial assets held to back life insurance activities are:

Financial assets are stated at fair value, with any resulting gain or loss recognised in profit or loss. All purchases or sales of financial assets carried at fair value through profit or loss that require delivery within the timeframe established by regulation or market convention ("regular way" purchase and sales) are recognised at trade date, which is the date the Company commits to purchase or sell the assets.

Loan and deposits are recognised at settlement date, which is the date that the assets are delivered or received.

Short term deposits and cash and cash equivalents are carried at amortised cost and are recorded using the effective interest method, with revenue recognised on an effective yield basis. The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is that rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount of the financial asset.

Accrued investment income and receivables from affiliates that do not back insurance contract liabilities are measured at amortised cost, less any allowance for expected credit losses (ECL). Interest income is recognised by applying the effective interest rate. Receivables from affiliates primarily represent claw back commission, advances to agents and interest accrued on these amounts.

- e) Trade and Other Liabilities Trade payables and other liabilities are recognised when the entity becomes obliged to make future payments resulting from the purchase of goods and services and are measured at amortized cost.
- f) Statement of Cash Flows The statement of cash flows has been prepared using the direct approach disclosed below.

Operating activities are the principal revenue producing activities of the Branch and other activities that are not investing or financing activities.

Investing activities are the acquisition and disposal of long-term assets and other investments not included in cash and cash equivalents.

Financing activities are activities that result in changes in the size and composition of the contributed equity and borrowings of the Branch.

Cash and cash equivalents reflect the balance of cash and liquid assets used in the day-to-day cash management.

g) Impairment of Financial Assets - Assets measured at fair value through profit or loss are not subject to impairment testing.

The amount of ECLs for financial assets, other than those at fair value through profit or loss, is updated at each reporting date to reflect changes in credit risk since initial recognition.

The Branch applies a simplified approach in calculating ECLs for receivables from affiliates. Therefore, the Branch does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting dates. Where considered necessary, an ECL has been established and the asset is written down to its estimated recoverable amount.

The Branch applies a general approach in calculating ECLs for accrued investment income. Using the general approach, if the credit risk on a financial instrument has not increased significantly since initial recognition, the Branch is required to measure the loss allowance for that financial instrument at an amount equal to twelve months of ECL.

- h) Policy Liabilities Policy liabilities consist of life insurance contract liabilities.
- i) Life Insurance Contract Liabilities The value of life insurance contract liabilities is calculated using the Margin on Services (MoS) methodology in accordance with New Zealand Society of Actuaries Professional Standard 20, Determination of Life Insurance Policy Liabilities (PS20). Under this methodology, planned profit margins and an estimate of future liabilities are calculated separately for each related product group using best estimate assumptions at each reporting date, and acquisition costs are deferred over the life of the contract. Profit margins are released over each reporting period in line with the services that have been provided. The balance of the planned profits is deferred by including them in the value of policy liabilities. Further details of the actuarial assumptions used in these calculations are set out in Note 15.

MoS profit can be analysed into the following categories:

- (i) Planned Margins of Revenues over Expenses At the time of writing a policy and at each balance date, best estimate assumptions are used to determine all expected future payments and premiums. Where actual experience replicates best estimate assumptions, the expected profit margin will be released to profit over the life of the policy.
- (ii) The Difference Between Actual and Assumed Experience Experience profits/(losses) are realized where actual experience differs from best estimate assumptions. Instances giving rise to experience profits/(losses) include variations in claims, expenses, mortality, discontinuance and investment returns. For example, an experience profit will emerge when the expenses of maintaining all inforce business in a year are lower than the best estimate assumption in respect of those expenses.
- (iii) Changes to Underlying Assumptions The financial statement effect of all changes to underlying assumptions used for measuring policy liabilities are reviewed each year. Where the review leads to a change in assumptions, the change is deemed to have occurred from the end of the year, except for changes in discount rates which are recognised in the year that the rates are changed. The financial effect of all other changes to the assumptions underlying the measurement of policy liabilities made during the reporting period is recognised in profit or loss over the future reporting periods during which services are provided to policyholders.

- (iv) Loss Recognition on Groups of Related Products If based on best estimate assumptions, written business for a group of related products is expected to be unprofitable, the total expected loss for that related product group is recognised in profit or loss immediately. When loss-making business becomes profitable, it is necessary to reverse previously recognised losses.
- (v) Investment Earnings on Assets in Excess of Policy Liabilities Profits are generated from investment assets, which are in excess of those required to meet policy liabilities. Investment earnings are directly influenced by market conditions and as such this component of MoS profit will vary from year to year.

#### 3. SIGNIFICANT JUDGMENTS, ESTIMATES, AND ASSUMPTIONS

In the application of NZ IFRS management is required to make judgments, estimates and assumptions about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis of making the judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Significant judgments, estimates and assumptions made by management in the preparation of these financial statements are outlined below:

a) Estimation of Insurance Contract Liabilities - Insurance contract liabilities for life insurance contracts are computed using statistical or mathematical methods. The computations are made by suitably qualified personnel on the basis of recognised actuarial methods, with due regard to relevant actuarial principles. The methodology takes into account the risks and uncertainties of the particular classes of life insurance business written. Deferred policy acquisition costs are connected with the measurement basis of life insurance liabilities and are equally sensitive to the factors that are considered in the liability measurement.

The key factors that affect the estimation of these liabilities and related assets are:

- Mortality and morbidity experience on life insurance products, including enhancements to policyholder benefits;
- Discontinuance experience, which affects the Branch's ability to recover the cost of acquiring new business over the lives of the contracts;
- The cost of providing benefits and administering these insurance contracts;
- The discount rate applied to calculate the present value of future benefits;

In addition, factors such as regulation, inflation, interest rates, taxes, investment market conditions and general economic conditions affect the level of these liabilities. Refer to Note 15 for disclosure of assumptions.

b) Policy and Contract Claims - Policy and contract claims include provisions for reported claims and claims incurred but not reported. The provision for claims incurred but not reported is estimated based on the Branch's experience.

Since this liability is based on estimates, the ultimate settlement of losses may vary from the amounts included in the financial statements. Although it is not possible to measure the degree of variability inherent in such estimates, the Branch believes the liability for claims is reasonable.

## STATEMENT OF COMPREHENSIVE INCOME

	Accident and health - Renewal		498,012	452,507
		\$	6,058,422 \$	7,179,490

## 5. MANAGEMENT EXPENSES

	2021	2020
Home office charges:		
General expenses	\$ 1,418,657 \$	1,475,680
Salaries	1,395,528	1,922,001
General office expenses	1,017,085	1,514,396
Remuneration for services provided:		
Audit and assurance fees paid to Deloitte	280,267	262,054
Taxation Services - Other firms	37,012	65,191
Other expenses	634,405	671,751
Investment expenses	 22,065	23,508
	\$ 4,805,019 \$	5,934,581

## 6. PROFIT AFTER TAX

The profit for the year has arisen as follows:

	2021	2020
Planned margins	\$ 3,040,679 \$	3,277,240
Actual less assumed experience	2,307,704	4,405,770
Basis change*	7,556,965	(2,012,164)
Investment earnings on assets in excess of policy liabilities	 (9,173,915)	3,900,116
		_
	\$ 3,731,433 \$	9,570,962

<sup>\*</sup> The basis change is the impact of changes to the discount rates used in valuation of policy liabilities.

## 7. CAPITAL COMMITMENTS

There are no commitments for capital expenditure entered into at 31 December 2021 and 2020.

#### 8. INVESTMENTS

	2021	2020
Bonds		
Governments	\$ 78,790,500	\$ 73,520,913
Corporates	 55,556,687	61,591,264
		_
Total Bonds	\$ 134,347,187	\$ 135,112,177

These securities mature from 2022 to 2050 and carry an effective yield of approximately 2.91% (2020 - 2.87%).

#### 9. RELATED PARTY TRANSACTIONS TO DISCLOSE CONTRIBUTIONS RECEIVED

American Income Life Insurance Company incurs expenses for the Branch at the Home Office in Waco, Texas. Those expenses, as well as additional start-up costs and contributions from Home Office to comply with regulatory solvency capital requirements are shown as advances from the Home Office to the Branch. Additionally, there are no members of management located at the Branch in New Zealand, therefore the Home Office bears the cost of management. The advance payable to the Home Office as at 31 December 2021 was \$75,283,682 (2020: \$82,119,022). The total value of these expenses for the year were \$2,814,185 (2020: \$3,397,681) and general advances were received (paid) during the year of \$(9,649,525) (2020: \$26,386,544).

#### 10. LOANS TO DIRECTORS OR EMPLOYEES

None (2020: None)

#### 11. FINANCIAL INSTRUMENTS

The financial condition and operating results of the Branch are affected by a number of financial and non-financial risks. Financial risks include interest rate risk, credit risk, and liquidity risk. Non-financial risks include insurance risks.

The Branch's objective is to prudently manage these risks.

Financial risks are managed via a conservative investment management strategy, with assets concentrated in liquid, investment grade bonds. The asset mix includes medium-term investments in government securities, aimed at immunizing the policy liabilities against interest rate fluctuations.

Insurance risks are managed via prudent underwriting of new business applications from prospective policyholders and via thorough selection of appropriate sales staff to act as the Branch's intermediaries.

Insurance Risks - Terms and conditions that affect the timing of cash-flows are as follows:

The Branch's products are predominantly long-term policies providing death and disablement benefits. The policy liabilities are calculated on the basis that the assumed rate of investment returns are able to be realized on policy reserves and on net cash-flows in future. If these returns are not achieved then the projected surpluses will be lower than expected.

The Branch's products provide death and disablement benefits that are significantly in excess of the policy liabilities. Consequently if claim levels are higher than expected then the projected surpluses will be lower than expected.

The Branch's products provide surrender values on product cancellation, and if more clients surrender than expected then the projected cash outflows will be accelerated.

The policy liabilities are based on the assumption that policies are able to be maintained for a certain level of administration costs. If these costs are exceeded there will be a resulting reduction in emerging profits.

The Branch does not write any group business, where there could be concentrations of lives insured in one work-place.

The total individual Life and Accident and Hospital claims paid in 2021 for claims incurred before 2021 is \$1,105,007 which is lower by \$363,591 compared to claim liabilities estimate of \$1,468,598 provided in 2020.

Insurance risk can be quantified by showing the sensitivity of policy liabilities and future profit margins to changes in the main assumptions that affect insurance business risks. The table below shows the impact of variations to assumptions concerning discount rates, the major types of claims, policy discontinuances and administration costs.

	Life	Life (Accident & Hospital Indemnity)		
	Policy		Policy	
Assumption variation	Liabilities	Margins Increase (De	<b>Liabilities</b> crease)	Margins
Discount rate 1% higher	\$ (13,293,546) \$	(1,826,449) \$	(1,080,869) \$	(128,815)

Deaths and disablements 10% lower			7,032,534		2,334,321
Annual surrenders 10% higher			1,976,856		95,246
Annual surrenders 10% lower			(2,383,813)		(162,603)
Administration costs 10% higher			(2,352,970)		(440,096)
Administration costs 10% lower			2,352,970		440,096

Interest Rate Risk - Invested assets are subject to the customary risks of defaults, downgrades, and changes in market values. Factors that may affect these risks include interest rate levels, financial market performance, and general economic conditions. Significant increases in interest rates could cause a material temporary decline in the fair value of the fixed investment portfolio, reflecting unrealized fair value losses. This risk is mitigated by the Branch's operating strategy to generally hold investments to maturity recognizing the long-term nature of the life policy reserve liabilities supported by investments. The high credit quality of investments held, which are all NZ Government direct obligations and bonds of NZ agencies, municipals and corporates (refer to Note 8), greatly diminishes the need to liquidate investments prior to maturity.

The following table illustrates the market risk sensitivity of our interest-rate sensitive fixed-maturity portfolio at 31 December 2021 and 2020. This table measures the effect of a change in interest rates on the profit or loss and equity of the Branch. The data measures the effect on profit or loss and equity arising from an immediate and sustained change in interest rates in increments of 100 basis points.

	Profit and Equity  For the Year		
		2021	2020
Change in interest rate (bps):			
-200	\$	20,514,146 \$	19,052,639
-100		9,438,680	8,931,236
0			
+100		(8,130,532)	(7,938,313)
+200		(15,205,408)	(15,040,589)

Ingrasas (Dagrasas) in

**Credit Risk** - The Branch's major categories of asset comprise the following:

Investments in government securities, corporate bonds, and cash and cash equivalents total \$146.1 million as of 31 December 2021 (2020 - \$150.5 million).

Receivables from affiliates of \$4.7 million (2020 - \$6.2 million) represent unexpensed agent commissions, which have been purchased by an affiliated party and have not been settled. The recoverability of unexpensed commissions depends on the continuation of the policies on which the commissions have been accrued. The recoverability of clawback amounts will be affected by whether the agent continues to write new business with the Branch, and whether the agent has assets that are able to contribute to any commission recovery.

Outstanding premiums and receivables from affiliates are relatively illiquid assets and are subject to a degree of credit risk. The risk is monitored by management for collectability and an expected credit loss is established as necessary.

Accrued investment income of \$1.4 million (2020 - \$1.3 million) represents interest income earned on the investment portfolio but not yet received as of the balance sheet date. This asset category is subject to a degree of credit risk. In assessing whether the credit risk has increased significantly since initial recognition, the Branch continually monitors the economic and credit status of each of its bond holdings and analyzes each issuer's ability to continue meeting its contractual debt obligations. Factors taken into consideration include:

- An actual or expected significant deterioration in the issuer's credit rating
- Existing or projected changes to the business, economic, financial, or regulatory environment under which
  the issuer operates that could adversely impact its ability to meet its debt obligations
- Actual or projected deterioration in operating results that could significantly impact the issuer's cash flows and thus, its ability to meet debt obligations
- · Changes to, or removal of, financial guarantees from a third-party guarantor
- Actual or projected deterioration in any underlying collateral
- News and information, either released by the issuer or otherwise reported by the media or securities
  analysts who monitor the issuer, that indicate the issuer is unlikely to pay its creditors on time or in full

When, based upon the assessments above, it is determined that a contractual interest payment will not be received or is not expected to be received, the accrued interest receivable will be reversed. Since all of the bonds held by the Branch are obligated to pay interest either semi-annually or quarterly, the collectability of such interest is determinable at regular intervals throughout the year.

The Branch does not have any significant credit risk exposure to any single counter-party or any group of counter-parties having similar characteristics.

**Liquidity Risk** - The Branch maintains adequate cash and short-term investments on an ongoing basis to meet anticipated liquidity needs. Long term securities are NZ government and corporate securities which are readily marketable in the event of unforeseen extraordinary liquidity needs.

The Branch's government long-term securities mature from 2022 through 2050.

The average term of the Branch's liabilities for notified and unnotified claims, unearned premiums, premium taxes, and trade liabilities, totalling \$3.2 million, is less than 12 months.

The average term of the Branch's policy liabilities is in excess of five years. Annual claim payments are expected to exceed \$1 million per year, however these claims are expected to be met out of projected future net cash-flows, and policy liabilities are projected to increase rather than reduce over the next five years.

**Fair Values** - The Branch measures the fair value of its financial assets based on a hierarchy of three levels that indicate the quality of the fair value measurements as described below:

- Level 1 fair values are based on quoted prices in active markets for identical assets or liabilities that the Branch has the ability to access as of the measurement date.
- Level 2 fair values are based on inputs other than quoted prices included in Level 1 that are observable for
  the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or
  liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not
  active, inputs other than quoted prices that are observable for the asset or liability, or inputs that can
  otherwise be corroborated by observable market data.
- Level 3 fair values are based on inputs that are considered unobservable where there is little, if any,
  market activity for the asset or liability as of the measurement date. In this circumstance, the Branch has to
  rely on values derived by independent brokers or internally-developed assumptions. Unobservable inputs
  are developed based on the best information available to the Company which may include the Branch's
  own data or bid and ask prices in the dealer market.

All of the fair values reported at 31 December 2021 were determined using data provided by third-party pricing services. Prices provided by third-party services are not binding offers but are estimated exit values. They are based on observable market data inputs which can vary by security type. Such inputs include benchmark yields, available trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers and other market data.

As part of the Branch's controls over pricing, management reviews and analyzes all prices obtained to insure the reasonableness of the values, taking all available information into account. One very important control is the corroboration of prices obtained from third-party sources against other independent sources. When corroborated prices produce small variations, the close correlation indicates observable inputs, and the median value of the available prices is used as the Branch's final valuation. When corroborated prices present greater variations, additional analysis is required to determine which value is the most appropriate. When one price is available, management evaluates observable inputs and performs additional analysis to confirm that the price is appropriate. All fair value measurements based on prices determined with observable market data are reported as Level 1 or Level 2 measurements. As of 31 December 2021 and 2020, all securities were classified as Level 2.

Fair value measurements at 31 December 2021:

## 12. RECONCILIATION OF NET CASH FLOW FROM OPERATING ACTIVITIES TO OPERATING SURPLUS AFTER TAXATION

	2021	2020
Operating surplus after taxation	\$ 3,731,433 \$	9,570,962
Add (less) non cash items:		
Change in reserve for future policy benefits	(4,012,083)	2,537,931
Expenses and general advances paid on behalf of the Branch	3,164,657	4,096,456
Unrealized fair value change	11,964,396	(1,826,797)
Change in current and deferred taxes	1,634,754	217,427
Change in bond amortization	 1,206,186	1,022,161
Total non cash items	 13,957,910	6,047,178
	 17,689,343	15,618,140
Movements in working capital:		
Change in receivables from affiliates	1,472,834	1,664,535
Change in accrued investment income	(112,026)	(254,910)
Change in policy loans	(160,967)	(325,420)
Change in outstanding premiums	(26,869)	16,813
Change in prepayments	37	39
Change in policy claims and unearned premiums	(31,042)	(89,023)
Change in other liabilities	187,739	285,767
Change in current tax liability	 (231,915)	(210,286)
	1,097,791	1,087,515
Net cash provided by operating activities	\$ 18,787,134 \$	16,705,655

#### 13. INCOME TAXES

	2021	2020
Income taxes:		
Current tax expense/(benefit)	\$ 223,641 \$	217,427
Deferred tax expense/(benefit)	1,411,113	
Total expense	\$ 1,634,754 \$	217,427

The income tax expense on pre-tax accounting profit from operations reconciles to the income tax expense in the financial statements as follows:

the infancial statements as follows.	2021	2020
Profit before taxation	\$ 5,366,187 \$	9,788,389
Income tax expense calculated at 28% in 2021 and 2020	\$ 1,502,532 \$	2,740,748
Effect of life insurance business - shareholder gain on savings business Effect of non-life insurance business - non-deductible claims and	2,812,100	(141,585)
commissions and other non-taxable items	(621,405)	(550,505)
Current year losses utilized against policyholder base	337,088	(206,640)
Schedular income permanent differences	(880,140)	(721,131)
Tax rate difference on schedular income	(294,797)	(268,517)
Unused losses not recognised as deferred tax assets	_	1,220,605
Utilisation of previously unrecognized tax losses	(1,220,624)	(1,855,548)
Income tax expense	\$ 1,634,754 \$	217,427
	2021	2020
Deferred tax balances:		
Deferred tax asset comprise — tax losses	\$ 14,860,788 \$	13,983,113
Deferred tax liability comprise — net reserve for future policy benefits	(16,459,621)	(14,115,724)
Other	 187,720	132,611
Net deferred tax balance	\$ (1,411,113) \$	

**Unrecognised Deferred Tax Balances** - Deferred tax assets for tax losses available to be carried forward have only been recognised to the extent of the deferred tax liability balance, as it is reasonable to expect that those tax losses will be utilised in the future against the deferred tax liabilities. However, due to the uncertainty of future income from life insurance, the remaining deferred tax balance from tax losses has not been recognised.

	2021		2020
Shareholder base:			
Losses	\$	— \$	4,359,303
Tax effect at 28%		_	1,220,605

The availability of the income tax losses is subject to minimum shareholder continuity or business continuity requirements being met.

Income Tax Payable		2021	2020
Opening balance	\$	(405,114) \$	(397,973)

Total income tax payable for the year	\$	(396,840) \$	(405,114)

## 14. CONTROLLING ENTITIES

The controlling entity of American Income Life Insurance Company is Globe Life Inc. (formerly Torchmark Corporation), a Company incorporated in the U.S.A.

#### 15. ACTUARY'S STATEMENT

The effective date of the actuarial report on policy liabilities and reserves is 31 December 2021. The actuarial policy liabilities and reserves were calculated by Mr. John O. Norton, FSA, of American Income Life Insurance Company.

Mr. Peter Davies of Davies Financial and Actuarial Services, a Fellow of the New Zealand Society of Actuaries, has certified that the amount of policy liabilities has been determined in accordance with Professional Standard No. 20 of the New Zealand Society of Actuaries. The actuarial report was prepared by Mr. Peter Davies.

The actuary is satisfied as to the accuracy of the data from which the policy liabilities have been determined.

		2021	2020
Policy liabilities:			
Balance at beginning of year	\$	29,753,143 \$	27,215,212
Movement in current year		(4,012,083)	2,537,931
Net reserve for future policy benefits	\$	25,741,060 \$	29,753,143
Policy liabilities comprises the following:		2021	2020
Value of future claims	\$ 1	75,193,990 \$	164,558,374
Value of future expenses		46,145,433	51,924,765
Value of future profit margins		20,682,518	26,401,910
Less value of future premiums	(2	216,280,881)	(213,131,906)
Net reserve for future policy benefits	\$	25,741,060 \$	29,753,143

The actuary has performed a liability adequacy test in accordance with NZ IFRS 4 and is satisfied as to the accuracy of the data using the assumptions below.

**Disclosure of Assumptions** - Policy liabilities were computed using a projection approach. Two separate projections were created for the Life business, Life plans and Accident and Hospital Indemnity plans.

Discount Rate - The 2021 discount rates are based on the Table of Risk-free Discount Rates at 31 December 2021 for Accounting Valuation Purposes published 6 January 2022 by the New Zealand Treasury. The 2020 discount rates are based on the Table of Risk-free Discount Rates at 31 December 2020 for Accounting Valuation Purposes published 7 January 2021 by the New Zealand Treasury. The 2021 rates range from 1.30% to 4.30% (2020: range from 0.24% to 4.30%).

*Profit Carrier* - The premium payable under each contract is the profit carrier. Future profits equal approximately 11.3% of the value of future premiums for Life plans and 2.8% of the value of future premiums for Accident & Hospital Indemnity plans.

*Initial Expenses* - For Life plans, 65% of issued premium plus 20% of first year commission. For Accident & Hospital Indemnity plans, 65% of premium.

Management Expenses - For Life plans, \$31 per policy per annum plus 3% of premium. For Accident & Hospital Indemnity plans, \$10 per policy per annum plus 13% of premium. These expenses are inclusive of maintenance, other and investment management expenses presented in Note 5. The rate of inflation is assumed to be 2%, applied to per policy expense.

All calculations have been computed gross of tax, with a deferred tax liability held in respect of the difference between published policy liabilities and policy tax reserves.

Mortality Rates - The mortality rates are based on the 2001 Valuation Basic Table with applicable factors.

*Morbidity* - The morbidity rates for 2009 issues and below have multiple factors ranging from 105% to 140%. The morbidity rates for issues 2010 and after are updated based on recent experience studies.

Rates of Discontinuance - Variable scales per expected portfolio experience. The Life plans and Accident & Hospital plans discontinuance rates were updated based on recent experience study.

Surrender Values - All Whole Life plans except "Permanent Life" plans have surrender values which are guaranteed upon issue and expressed in terms of unit of coverage. The surrender values are tabular and were calculated upon issue based on certain non-forfeiture interest rates, non-forfeiture factors and mortality tables.

The impact of change in discount rate on future profit margin is a decrease of \$2.7 million. The impact of change in demographic and expense assumptions on future profit margin is a decrease of \$3.7 million.

Sensitivity analyses for other assumptions were performed (refer to Note 11).

2021

#### 16. SOLVENCY

The solvency position has been calculated in accordance with the RBNZ Solvency Standard for Life Insurance Business 2014, issued under the Insurance (Prudential Supervision) Act 2010, effective up to and including 31 December 2021.

2020

		2021			2020	
	Custodial Fund	Other	Total Statutory Fund	Custodial Fund	Other	Total Statutory Fund
Actual Solvency Capital	\$ 110,637,000	\$ 15,227,000	\$ 125,864,000	\$106,138,000 \$	22,830,000	\$ 128,968,000
Minimum Solvency Capital	44,530,000	4,723,000	49,253,000	28,794,000	6,227,000	35,021,000
Solvency Margin	\$ 66,107,000	\$ 10,504,000	\$ 76,611,000	\$ 77,344,000 \$	16,603,000	\$ 93,947,000
Solvency Ratio	248 %	322 %	256 %	369 %	367 %	368 %

Assets held in the Custodial Fund are only available to meet the liabilities of American Income Life Insurance Company - New Zealand Branch. Assets held in the Other Account are legally available for the satisfaction of debts of the American Income Life Insurance Company, not solely those appearing on the balance sheet of the Branch and its debts may result in claims against assets not appearing thereon.

#### 17. CONTINGENT LIABILITIES

There are no contingent liabilities at 31 December 2021 and 2020.

## 18. NEW ZEALAND CUSTODY ACCOUNT

Assets (Cash and Securities) in the amount of \$141.5 million (2020 - \$139.4 million) are held in the Public Trust Custody account. This balance is sufficient to meet the solvency requirements set forth in ISPA 2010.

## 19. CREDIT RATING

American Income Life Insurance Company has an A credit rating from AM Best.

#### **20. SUBSEQUENT EVENTS**

The Company is not aware of any events occurring subsequent to the close of the books for this statement that may have a material effect on its financial condition.

#### **INDEPENDENT AUDITOR'S REPORT**

To the Governing Board of American Income Life Insurance Company

#### **Opinions**

We have audited the statutory-basis financial statements of American Income Life Insurance Company (the "Company"), which comprise the statutory-basis statements of admitted assets, liabilities, and capital and surplus as of December 31, 2021 and 2020, and the related statutory-basis statements of operations, changes in capital and surplus, and cash flows for the years then ended, and the related notes to the statutory-basis financial statements (collectively referred to as the "statutory-basis financial statements").

#### **Unmodified Opinion on Statutory-Basis of Accounting**

In our opinion, the accompanying statutory-basis financial statements present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended, in accordance with the accounting practices prescribed or permitted by the Indiana Department of Insurance described in Note 1.

## Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

In our opinion, because of the significance of the matter described in the Basis for Adverse Opinion on Accounting Principles Generally Accepted in the United States of America section of our report, the statutory-basis financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Company as of December 31, 2021 and 2020, or the results of its operations or its cash flows for the years then ended.

#### **Basis for Opinions**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Statutory-Basis Financial Statements section of our report. We are required to be independent of the Company, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Basis for Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

As described in Note 1 to the statutory-basis financial statements, the statutory-basis financial statements are prepared by the Company using the accounting practices prescribed or permitted by the Indiana Department of Insurance, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the Indiana Department of Insurance. The effects on the statutory-basis financial statements of the variances between the statutory-basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

#### Responsibilities of Management for the Statutory-Basis Financial Statements

Management is responsible for the preparation and fair presentation of the statutory-basis financial statements in accordance with the accounting practices prescribed or permitted by the Indiana Department of Insurance. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of statutory-basis financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the statutory-basis financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the statutory-basis financial statements are issued.

#### Auditor's Responsibilities for the Audit of the Statutory-Basis Financial Statements

Our objectives are to obtain reasonable assurance about whether the statutory-basis financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the statutory-basis financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the statutory-basis financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the statutory-basis financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of
  the statutory-basis financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

#### **Report on Supplemental Schedules**

Our 2021 audit was conducted for the purpose of forming an opinion on the 2021 statutory-basis financial statements as a whole. The supplemental schedule of investment risk interrogatories, the supplemental summary investment schedule, the supplemental schedule of selected financial data and the supplemental schedule of Reinsurance Contracts with Risk-Limiting Features as of and for the year ended December 31, 2021, are presented for purposes of additional analysis and are not a required part of the 2021 statutory-basis financial statements. These schedules are the responsibility of the

Company's management and were derived from and relate directly to the underlying accounting and other records used to prepare the statutory-basis financial statements. Such schedules have been subjected to the auditing procedures applied in our audit of the 2021 statutory-basis financial statements and certain additional procedures, including comparing and reconciling such schedules directly to the underlying accounting and other records used to prepare the statutory-basis financial statements or to the statutory-basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedules are fairly stated in all material respects in relation to the 2021 statutory-basis financial statements as a whole.

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020
(Dollar amounts in thousands, except share and per share data)

#### 1. SUMMARY OF SIGNIFICANT STATUTORY ACCOUNTING POLICIES

American Income Life Insurance Company (the "Company" or "American Income"), an insurance company domiciled in the State of Indiana, is a wholly-owned subsidiary of Globe Life Inc. (the "Parent Company"). The Company owns 100% of National Income Life Insurance Company, domiciled in the State of New York.

The Company is a life and accident and health insurer licensed in 49 states and the District of Columbia. The Company is also licensed to sell insurance in Canada and New Zealand. The Company is subject to state insurance regulations and periodic examinations by state insurance departments.

The following states represent the largest concentrations of premiums:

	2021
California	11 %
Ohio	7 %
Texas	6 %
Florida	6 %
Pennsylvania	5 %
Illinois	4 %

No other states represent greater than 3% of total premiums. Canada represents 9% of premiums.

**Basis of Presentation**—The accompanying statutory-basis financial statements have been prepared in accordance with accounting practices prescribed or permitted by Indiana Department of Insurance (the "Department"). The State of Indiana has adopted the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual, which includes all Statements of Statutory Accounting Principles ("SSAP") as the basis of its statutory accounting principles. There are no significant differences between the NAIC SSAP and the accounting practices prescribed for life and health insurance companies by the Department that are applicable to the Company.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

NAIC statutory accounting principles vary in some respects from accounting principles generally accepted in the United States of America (GAAP). The primary differences between GAAP-basis and statutory-basis of accounting include:

Item	Description	GAAP Treatment	Statutory Treatment
Policy acquisition costs	Costs associated with the successful acquisition of an insurance policy.	Deferred and amortized over the life of the policy, if recoverable from policy revenues.	Charged to operations as incurred.
Future policy benefit reserves	Excess of future policy claims over future premiums.	Based on the Company's estimates of mortality, morbidity, interest, persistency, and withdrawals.	Based on statutory mortality, morbidity, and interest and withdrawal requirements and reported net of the effects of indemnity reinsurance transactions.
Interest maintenance reserve	Statutory-basis only investment reserve used to account for interest-rate related realized gains and losses.	Capital gains and losses recognized as incurred.	Deferred recognition of realized capital gains and losses resulting from changes in the general level of interest rates; amortized into income over the expected remaining life of the investments sold.
Asset valuation reserve	Statutory-basis only investment reserve used to account for default and equity risks.	Not applicable.	Required to offset potential credit- related investment losses; changes in the reserve charged to surplus.
Deferred premiums	Portion of premium not currently due.	Offset to reserves.	Recognized as an asset on the balance sheet.
Nonadmitted assets	Assets unable to be easily converted to cash.	All assets are recorded on the balance sheet.	Recognition on the balance sheet disallowed; charged to surplus.
Investment in subsidiaries	Entity that is directly or indirectly owned and controlled by a reporting entity.	Consolidated.	Recorded under the equity method of accounting.
Investment in Partnerships, Joint Ventures, and LLCs	Investments that provide partnership interests to the Company.	Recorded under the equity method of accounting, or fair value through net income.	Recorded under the equity method of accounting.
Low-Income housing tax credits	Investments in federal and certain state sponsored flow-through entities for tax purposes.	Accounted for under the proportional amortized cost method, excluding guaranteed partnerships entered into prior to 2015, which are accounted for under the effective yield method.	Accounted for under the proportional amortization method.
Bonds and short- term investments	Fixed-income investments with purpose of collecting interest.	Generally carried at fair value.	Generally carried at amortized cost.
Deferred taxes	An asset or liability on the Company's balance sheet due to temporary differences.	A provision is made for deferred income taxes on temporary differences between the financial reporting and the tax bases of assets and liabilities.	NAIC SAP requires an amount to be recorded for deferred taxes. The amount of deferred income tax assets may not be fully recognized as admitted assets.
OCI statement	Statement of revenues, expenses, gains and losses that have not yet been realized.	Required presentation.	Not applicable.
Cash and cash equivalents	Cash or assets that can be readily converted into cash.	Negative balances are reported as a liability.	Negative balances are reported within cash.
Investment in Surplus Notes	Fixed-income instrument with debt and equity characteristics.	Generally carried at fair value.	Generally carried at amortized cost.
Surplus notes (issued)	Fixed-income instrument with debt and equity characteristics.	Reported as long-term debt.	Reported as capital and surplus.
Loss Contingencies	An existing condition or situation involving uncertainty as to possible loss that will ultimately be resolved when one or more future event(s) occur or fail to occur.	If a loss is probable, estimable and only a range of loss can be estimated, the minimum of the range is required to be recorded.	If a loss is probable, estimable and only a range of loss can be estimated, the mid-point of the range is required to be recorded.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Significant accounting practices used in the preparation of the accompanying statutory-basis financial statements are as follows:

**Revenue and Policy Acquisition Cost Recognition**—Premiums are recognized over the premium-paying period of the policies. Unearned premiums on accident and health policies are calculated on a prorata basis. Consideration received on deposit-type contracts, which do not contain any life contingencies, is recorded directly to the related liability. Policy acquisition costs, such as commissions and other costs related to successfully acquiring new business, are charged to current operations as incurred.

**Future Policy Benefits**—Aggregate reserves for future policy benefits for individual life and health insurance policies have been provided on either the net level premium method, the commissioner's reserve valuation method, or the two-year preliminary term method. Accordingly, the reserves are calculated based on estimates of mortality, morbidity, and interest and withdrawal requirements, as prescribed by state insurance regulatory agencies. Interest rate assumptions range from 2.25% to 6.0%. For life insurance policies, mortality rates are primarily obtained from the following statutory mortality tables: 1941 C.S.O., 1958 C.S.O., 1980 C.S.O., 2001 C.S.O., and 2017 C.S.O. Tables. For business issued in 2018 and later, the PBR reserve method has been used. For health insurance policies, morbidity rates are based primarily on the 1985 NAIC Cancer Claim Cost Tables. Future policy benefit reserves for annuity contracts are based on either the commissioner's annuity reserve valuation method, with appropriate statutory interest and mortality assumptions, or the accumulated contract value. Annuity reserve interest rate assumptions range from 2.5% to 6.0%. Reserves for deposit-type funds are equal to deposits received and interest credited to the benefit of contract holders, less withdrawals that represent a return to the contract holder.

**Policy and Contract Claims**—Policy and contract claims include a provision for reported claims and claims incurred but not reported. The provision for claims incurred but not reported is estimated based on Company experience.

**Federal Income Taxes**—The provision for federal income taxes on operations is based upon taxes that are currently payable. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement book values and tax bases of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are reduced by valuation allowances when it is determined that it is more likely than not the deferred tax asset will not be fully realized. Realizable deferred tax assets are further subject to admissibility tests performed pursuant to SSAP No. 101, *Income Taxes*. Admitted deferred tax assets and liabilities are reflected as a component of capital and surplus.

**Nonadmitted Assets**—Nonadmitted assets (principally a portion of deferred income tax assets, certain furniture and equipment, agents' debit balances, prepaid expenses, and other amounts receivable) have been charged directly to unassigned surplus.

Interest Maintenance Reserve (IMR) and Asset Valuation Reserve (AVR)—The IMR is maintained as prescribed by the NAIC for the purpose of deferring realized gains and losses on the disposal of bonds resulting from changes in the overall level of interest rates. Such realized gains and losses are amortized into income over the approximate remaining life of bonds sold. An AVR is maintained as prescribed by the NAIC for the purpose of providing for default and equity risks related to the Company's invested assets. Changes in the AVR are charged directly to surplus.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

**Investments**—Bonds and stock are recorded in accordance with rules promulgated by the NAIC. Bonds eligible for amortization under such rules are reported at amortized cost using the interest method, except for those bonds with a NAIC designation of 6, which are reported at the lower of amortized cost or fair value. Preferred stock is reported at fair value begining in 2021. In 2020, Prefered stock was reported at amortized cost, except for preferred stock with a NAIC designation of 4-6, which was reported at the lower of amortized cost or fair value. Common stock of nonaffiliates is stated at estimated fair value. Common stock of affiliates is stated at their underlying statutory-basis capital and surplus. Contract loans are carried at unpaid principal balance of the loan.

Loan-backed securities are reported at amortized cost, except for those with an NAIC designation of 6, which shall be reported at the lower of amortized cost or fair value. Premiums and discounts on loan-backed bonds and structured securities are amortized using the retrospective method based on anticipated prepayments at the date of purchase. Prepayment assumptions are obtained from broker/dealer survey values or internal estimates. Changes in estimated cash flows from the original assumptions are accounted for using the retrospective method. The Company uses original cost as the basis for applying the retrospective method.

Commercial Mortgage loans participations ("Commercial Mortgage Loans" or "Mortgage Loans") are reported at unpaid principal balances, net of any unamortized discount or premium and allowance for loan losses. The loans are secured by the underlying real estate.

The accounting for investments in limited partnerships that provide low-income housing tax credits is outlined in the *Low-Income Housing Tax Credit Interests* section below. Investments in other limited partnerships are accounted for under rules set forth by the NAIC, and are recorded based on the underlying audited U.S. GAAP equity of the investee.

Investments in surplus notes are accounted for under rules set forth by the NAIC. Surplus notes rated NAIC 1-2 are reported at amortized cost, and surplus notes rated NAIC 3-6 are reported at the lower of amortized cost and fair value.

The Company's membership in the Federal Home Loan Bank ("FHLB") is accounted for under rules set forth by the NAIC. Accordingly, the carrying value of the capital stock required for membership is recorded at cost, which approximates fair value.

Fair Value Measurements, Investments in Securities—The investments carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100, Fair Value Measurements. The hierarchy consists of three levels to indicate the quality of the fair value measurements as described below:

Level 1—Fair values are based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2—Fair values are based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, or inputs that can otherwise be corroborated by observable market data.

Level 3—Fair values are based on inputs that are considered unobservable where there is little, if any, market activity for the asset or liability as of the measurement date. In this circumstance, the Company has to rely on values derived by independent brokers or internally-developed assumptions. Unobservable inputs are developed based on the best information available to the Company which may include the Company's own data or bid and ask prices in the dealer market.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The great majority of the Company's bonds are not actively traded and direct quotes are not generally available. Management therefore determines the fair values of these securities after consideration of data provided by third-party pricing services, independent broker/dealers, and other resources.

Approximately 98% of the fair value reported at December 31, 2021 is determined using data provided by third-party pricing services. Prices provided by these services are not binding offers, but are estimated exit values. Third-party pricing services use proprietary pricing models to determine security values by discounting cash flows using a market-adjusted spread to a benchmark yield. For all asset classes within the Company's significant security types, third-party services use a common valuation technique to model the price of the investments using observable market data. The foundation for these models consists of developing yield spreads based on multiple observable market data inputs, including but not limited to: benchmark yield curves, actual trading activity, new issue yields, broker-dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, sector-specific data, economic data, and other inputs that are corroborated in the market. Pricing vendors monitor and review their pricing data continuously with current market and economic data feeds, augmented by ongoing communication within the dealer community.

Using the observable market inputs described above, spreads to an appropriate benchmark yield are further developed by the vendors for each security based on security-specific and/or sector-specific risk factors, such as a security's terms and conditions (coupon, maturity, and call features), credit rating, sector, liquidity, collateral or other cash flow options, and other factors that could impact the risk of the security. Embedded repayment options, such as call and redemption features, are also taken into account in the pricing models. When the spread is determined, it is added to the security's benchmark yield. The security's expected cash flows are discounted using this spread-adjusted yield, and the resulting present value of the discounted cash flows is the evaluated price.

When third-party vendor prices are not available, the Company attempts to obtain valuations from other sources, including but not limited to broker/dealers, broker quotes, and prices on comparable securities.

When valuations have been obtained for all securities in the portfolio, management reviews and analyzes the prices to ensure their reasonableness, taking into account available observable information. When two or more valuations are available for a security and the variance between the prices is 10% or less, the close correlation suggests similar observable inputs were used in deriving the price, and the mean of the prices is used. Securities valued in this manner are classified as Level 2. When the variance between two or more valuations for a security exceeds 10%, additional analysis is performed to determine the most appropriate value for that security, using resources such as broker quotes, prices on comparable securities, recent trades, and any other observable market data. Further review is performed on the available valuations to determine if they can be corroborated within reasonable tolerance to any other observable evidence. If one of the valuations or the mean of the available valuations for a security can be corroborated with other observable evidence, then the corroborated value is used and reported as Level 2. The Company uses information and analytical techniques deemed appropriate for determining the point within the range of reasonable fair value estimates that is most representative of fair value under current market conditions. Valuations that cannot be corroborated within a reasonable tolerance are classified as Level 3.

The Company invests in a portfolio of private placement bonds which are not actively traded. This portfolio is managed by third-parties. The portfolio managers provide valuations for the bonds based on a pricing matrix utilizing observable inputs, such as the benchmark treasury rate and published sector indices, and unobservable inputs such as an internally-developed credit rating. If observable inputs cannot be corroborated, the fair values are classified as Level 3.

NAIC SAP requires certain investments to be measured and reported at fair value. These include common stock, bonds rated NAIC 6 and preferred stock rated NAIC 4-6 whose fair values are less than amortized cost, and surplus notes rated NAIC 3-6 whose fair values are less than amortized cost.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Transfers between fair value levels are recognized as of the end of the reporting period in which they occur.

Fair Value Measurements, Other Financial Instruments—Fair value of cash, cash equivalents, and short-term investments approximates carrying value. The Parent Company's preferred stock is continuously callable at par value, therefore the fair value approximates par value. Contract loans are an integral part of the life insurance policies which the Company has in force and, in the Company's opinion, cannot be valued separately. Fair values of mortgage loans are determined based upon expected cash flows discounted at an appropriate risk-adjusted rate. The fair value of investments in limited partnerships that provide low-income housing tax credits is based on discounted projected cash flows. The fair value of limited partnerships in low income housing is considered Level 3. Investments in other limited partnerships recorded under the equity method of accounting are excluded from the fair value hierarchy. The Company's FHLB membership stock is only redeemable at cost, and thus the fair value approximates cost.

Other policy holder funds include interest-bearing, deposit-type accounts representing amounts payable on demand. The fair value of such deposit-type accounts is equal to the amount payable on demand and considered Level 2.

Although management is not aware of any factors that would significantly affect the estimated fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since December 31, 2021, and therefore, current estimates of fair value may differ significantly from the amounts presented herein.

Impairment of Investments—The Company's portfolio of bonds fluctuates in value due to changes in interest rates in the financial markets as well as other factors. Fluctuations caused by market rate changes have little bearing on whether or not the investment will be ultimately recoverable. Therefore, the Company considers declines in value resulting from changes in market interest rates to be temporary. In certain circumstances, however, the Company determines that the decline in value of a security is other-than-temporary and writes the book value of the security down to fair value, realizing an investment loss. The determination that an impairment is other-than-temporary is highly subjective and involves the careful consideration of many factors.

Among the factors considered are:

- The length of time and extent to which the security has been impaired
- The reason(s) for the impairment
- The financial condition of the issuer and near-term prospects for recovery in fair value of the security
- The Company's ability and intent to hold the security until anticipated recovery
- Expected future cash flows

The relative weight given to each of these factors can change over time as facts and circumstances change. In many cases, management believes it is appropriate to give relatively more weight to prospective factors than to retrospective factors. Prospective factors that are given more weight include prospects for recovery, the Company's ability and intent to hold the security until anticipated recovery, and expected future cash flows.

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Among the facts and information considered in the process are:

- Financial statements of the issuer
- · Changes in credit ratings of the issuer
- The value of the underlying collateral
- · News and information included in press releases issued by the issuer
- News and information reported in the media concerning the issuer
- News and information published or otherwise provided by credit analysts
- The nature and amount of recent and expected future sources and uses of cash
- Default on a required payment
- · Issuer bankruptcy filings

While all available information is taken into account, it is difficult to predict the ultimately recoverable amount of a distressed or impaired security.

For asset-backed securities, additional information is gathered and analysis performed on the individual underlying collateral and estimates of potential future collateral performance. Multiple cash flow scenarios are calculated based on various loss rate assumptions and used to assess the likelihood of future possible impairment.

Mortgage loans are considered impaired when it is probable, based upon current information and events, that the Company will be unable to collect all contractual amounts due. Impairment is measured based on the excess of the loan balance over the fair value of the collateral, as determined by a current appraisal, and is recorded as an unrealized loss through a valuation allowance. If an impairment is deemed to be other than temporary, then a direct write-down is recorded as a realized loss, thus establishing a new cost basis equal to the fair value of the collateral less the cost estimated to obtain and sell the property.

The Company's commercial mortgage loan portfolio is managed by an unaffiliated third-party manager. As part of its credit-monitoring process, the third-party manager evaluates several risk criteria for each loan. These include quantitative measures, such as the underlying collateral value, loan-to-value ratio, and debt-service coverage ratio; as well as qualitative risk parameters, such as borrower experience, specific property fundamentals, local real estate market conditions, financial and business condition of the borrower, and ease of liquidation. After consideration of the third-party manager's credit analysis, the Company decides if a loan loss allowance should be established.

Investment Income—Investment income consists primarily of interest and dividends. Interest is recognized on an accrual basis and dividends are recorded as earned. Interest income on mortgagebacked securities and asset-backed securities is determined on the effective yield method based on estimated principal repayments. Prepayment penalty and acceleration fees on callable bonds are recognized in investment income, as received. Interest earned on contract loans is charged in arrears and recognized ratably. The Company accrues interest income on impaired loans to the extent it is deemed collectible (delinquent less than 90 days) and the loan continues to perform under its original or restructured contractual terms. Interest income on non-performing loans is generally recognized on a cash basis. Interest income on mortgage loans is accrued and recorded net of servicing fees. Interest that is 180 days past due and that is still deemed collectible is accrued, but nonadmitted. Any interest deemed uncollectible is written off as a charge against investment income. Dividends and distributions from limited partnerships are recognized as investment income to the extent that they are not in excess of undistributed accumulated earnings. Dividends and distributions in excess of undistributed earnings are recorded as a reduction to the carrying value of the investment. The Company's share of undistributed earnings and losses included in net unrealized capital gains (losses) are credited or charged directly to surplus.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Realized gains and losses on the sale of investments are determined on a specific identification method. Realized gains and losses on debt securities and preferred stock resulting from an overall change in market interest rates are deferred through the IMR and amortized into income over the remaining expected life of the disposed investment. Credit-related gains and losses on debt securities and preferred stock as well as realized gains and losses on unaffiliated common stock are recorded in the AVR and included in the accompanying statutory-basis statement of operations. Unrealized gains and losses on unaffiliated common stock are also reflected in the AVR. The change in the AVR is reflected as an increase or decrease in surplus. Unrealized gains and losses on affiliated common stock are reflected directly in surplus through the change in unrealized capital gains and losses. The Company's share of undistributed earnings and losses included in net unrealized capital gains (losses) are credited or charged directly to surplus.

Cash, Cash Equivalents, and Short-Term Investments—Cash includes cash on hand and amounts due from banks. The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Cash equivalents include money market mutual funds which are stated at fair value. The Company considers all investments with remaining maturities of one year or less at the time of acquisition (excluding those investments classified as cash equivalents) to be short-term investments, which are stated at amortized cost.

**Reinsurance**—The Company cedes and assumes insurance risks with other companies. Aggregate reserves for future policy benefits, premiums, and expenses are reported after deduction of amounts relating to reinsurance ceded and addition of amounts relating to reinsurance assumed. The Company remains obligated for amounts ceded in the event that the reinsurers do not meet their obligations. Please refer to Note 4 for further discussion.

**Stock Options**—Certain employees of the Company have been granted options to buy shares of Globe Life Inc. stock at market value on the grant date under the provisions set forth as part of the Globe Life Inc. stock option plans. The Company has no legal obligation under the plans; however, an expense is allocated to the Company based upon the options granted to its employees under the plans, and it is recorded within the General expenses and insurance taxes, licenses, and fees line item within the accompanying statutory-basis financial statements. Excess tax benefits related to the exercise of stock options are recorded as a component of federal income tax expense. The allocated expense for stock compensation recorded during 2021 and 2020 totaled \$7,514 and \$9,920, respectively.

Low-Income Housing Tax Credit Interests—The Company has invested in flow-through entities that provide low-income housing tax credits (LIHTC) and other related federal income tax and state premium tax benefits to the Company. The return on a portion of the Company's investments has been guaranteed by unrelated third parties. The investments are accounted for using the proportional amortized-cost method. The federal income tax benefits accrued during the year are recorded in income tax expense. The premium tax benefits (expenses), net of related amortization, are recorded in net investment income. The amount of LIHTC and other tax benefits (expenses) recognized were \$17,622 and \$18,717 during 2021 and 2020, respectively.

As of December 31, 2021 and 2020, the LIHTC investment balances were \$59,666 and \$60,310, respectively. The amounts recorded within other invested assets are presented net of encumbrances for unpaid contributions. As of December 31, 2021 and 2020, unpaid contributions were \$25,194 and \$39,376, respectively. All of the remaining unpaid contributions are expected to be paid by 2031.

Currently, the LIHTC properties are not subject to any regulatory reviews. The Company's involvement is restricted to its limited partnership interest in the LIHTC entities. The Company has not provided any other financial support to the entities beyond its commitments to fund its limited partnership interests, and there are no arrangements or agreements with any of the interests to provide other financial support. The maximum loss exposure relative to these interests is limited to their carrying value.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

As of December 31, 2021, there are 12 years of remaining unexpired tax credits for low-income housing tax credit investments with a required holding period of 17 years, compared to 13 years of remaining unexpired tax credits for low-income housing tax credit investments with a required holding period of 18 years as of December 31, 2020.

**Foreign Currency Translation**—The Company records assets, liabilities, and operations of foreign branches based upon the functional currency of each entity. The determination of the functional currency is made based on the appropriate economic indicators. Assets and liabilities of the foreign branches and subsidiaries are translated from the functional currency to US dollars at the exchange rates in effect at each year-end; and income and expense accounts are translated at the weighted-average exchange rates during the year.

**Risk-Based Capital**—The Department has adopted risk-based capital (RBC) requirements for life insurance companies, as promulgated by the NAIC, and these requirements are applicable to the Company. The RBC calculation serves as a benchmark for the regulation of life insurance companies by state insurance regulators. RBC provides for surplus formulas similar to target surplus formulas used by commercial rating agencies. The formulas specify various weighted factors that are applied to statutory-basis financial balances or various levels of activity based on the perceived degree of risk, and are set forth in the RBC requirements. The resulting figure is the authorized control level capital (ACL).

The RBC guidelines define specific capital levels based on a company's ACL that are determined by the ratio of a company's total adjusted capital (TAC) to its ACL. TAC is equal to statutory capital, plus the AVR and any voluntary investment reserves, 50% of dividend liability, and certain other specified adjustments. Companies where TAC is less than or equal to 2.0 times ACL are subject to certain corrective actions as set forth in RBC requirements.

As of December 31, 2021 and 2020, the statutory TAC of the Company exceeded the level requiring corrective action.

**Use of Estimates**—The preparation of the financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the statutory-basis financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The estimates susceptible to significant change are those used in determining the liability for aggregate reserves for future policy benefits, losses, and claims. Although some variability is inherent in these estimates, management believes the amounts provided are adequate.

**Allocation of Expenses**—The Company operates within a group under Globe Life Inc. where personnel and facilities are shared. Under terms of the management contract, the subsidiaries of Globe Life Inc. are allocated general and administrative expenses based on total premium. The allocated amount is in proportion to the Company incurring the expense as if the expense had been paid solely by the Company.

**COVID-19**—The effects of the COVID-19 pandemic, and U.S. and international responses, are wideranging, costly, disruptive and rapidly changing. Despite these challenges, the Company continues to effectively conduct business operations as it monitors the impact of the pandemic on the Company's underwriting results, employees, and policyholders.

**Going Concern**—Each reporting period, the Company evaluates whether there is substantial doubt about an entity's ability to continue as a going concern. Management was not aware of any conditions or events that could raise substantial doubts concerning the entity's ability to continue as a going concern as of December 31, 2021.

Subsequent Events—The Company evaluates events occurring subsequent to the balance sheet date to determine whether recognition or disclosure in the financial statements is required. If conditions of a

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

subsequent event were to exist as of the balance sheet date, depending on materiality, the effects may be required to be recognized and disclosed in the financial statements. If conditions of a subsequent event arose after the balance sheet date, the effects are not required to be recognized in the financial statements; however, they may need to be disclosed in the financial statements depending on materiality.

Accordingly, we have evaluated the effects of events subsequent to the balance sheet date of December 31, 2021, and through April 22, 2022, which is the date the statutory basis financial statements were available to be issued. We noted no events or transactions that would require recognition or disclosure in the statutory basis financial statements.

#### **Accounting Pronouncements Adopted in the Current Year**

Amended Standard	Description	Effective date	Effect on the statutory-basis financial statements
SSAP No. 32R— Preferred Stock	In July 2020, the NAIC amended this standard to update the definitions, measurement and impairment guidance for preferred stock pursuant to the investment classification project.	This standard became effective for the Company on January 1, 2021.	The adoption of this standard did not have a material impact on the statutory-basis financial statements.

The amortized cost of bonds at December 31, 2021 and 2020 includes adjustments for those securities that are other-than-temporarily impaired, if any. The book/adjusted carrying value includes additional adjustments for lower rated securities stated at the lower of amortized cost or fair value. At December 31, 2021 and 2020, the Company did not have any bonds with nonadmitted amounts.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

**Bonds by Contractual Maturity**—The book/adjusted carrying value and fair value of bonds at December 31, 2021, by contractual maturity, are shown below. Expected and actual maturities will differ from contractual maturities because the issuers of such bonds may have the right to call or prepay obligations without call or prepayment penalties.

	Book/Adj Carrying Value	Fair Value
Due in one year or less	\$ 14,466	\$ 14,601
Due after one year through five years	215,468	232,654
Due after five years through ten years	420,607	491,581
Due after ten years	3,188,663	3,784,924
Total	\$ 3,839,204	\$ 4,523,760

**Other-than-temporary impairments**—During 2021, the Company did not write down any individual security holdings to fair value as a result of other-than-temporary impairment. During 2020, the Company wrote down two corporate bonds, with a combined book value of \$10,450 to fair value due to an other-than-temporary impairment, which resulted in a realized loss of \$9,318.

*Unrealized loss analysis*—The following tables disclose unrealized investment losses by class of investment at December 31, 2021 and 2020. The Company considers these investments to be only temporarily impaired.

**Pledged Assets**—The Company had cash and bonds with book/adjusted carrying values of \$539,209 and \$472,560 on deposit with various state insurance and governmental regulatory agencies as required by law at December 31, 2021 and 2020, respectively.

**Commercial mortgage loans**—The Company invests in commercial mortgage loan participations. The portfolio consists of participations in transitional real estate loans with three to five year maturities that are originated and serviced by a third-party manager who also performs credit monitoring and impairment analysis of the loans. The Company does not have any significant credit risk exposure to any individual borrower. During 2021, the Company continued to invest in existing loans, but did not invest in any new commercial mortgage loans.

#### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The commercial mortgage loan portfolio is invested in a variety of commercial property types located in the United States. As of December 31, 2021 and 2020, the distribution of the portfolio by property type and geographic location was as follows:

		202	21		20:	20
		Carrying Value	% of Total		Carrying Value	% of Total
Property type:						
Office	\$	4,892	18 %	\$	5,070	17 %

		202	21		20	20
		Carrying Value	% of Total	(	Carrying Value	% of Total
Geographic location:						_
Pacific	\$	4,316	15 %	\$	4,278	14 %
West South Central		3,151	11 %		3,127	11 %
East South Central		5,102	18 %		4,707	16 %
South Atlantic		7,958	29 %		12,089	41 %

The following table contains the risk categories of the loan portfolio. Loans are rated from CM1 (highest quality) to CM7 (in process of foreclosure). The factors that contribute to the CM category include the sector type, the loan to value ratio (LTV), the debt service coverage ratio (DSC), whether the loan is a construction loan, and if the loan has cash reserves. These loans, originated in 2018 to 2019, are transitional or under construction, and may not yet be income producing.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The Company did not write down any loans in 2021 as a result of an other-than-temporary impairment. During 2020, the Company had two commercial mortgage loans with an other-than-temporary impairment resulting in a realized loss of \$1,278. The carrying value of these loans at December 31, 2020 was \$7,899. An analysis of the impaired loans as of December 31, 2021 and 2020 is as follows:

				2021					2020		
	Carrying Value		Realized Loss		Number of Loans		Carrying Value	Realized Loss		Number of Loans	
Other-than-temporary impairment											
In process of foreclosure	\$	_	\$	_	_	\$	3,621	\$	(1,002)	1

Interest income recognized		_	241
Recorded investment on nonaccrual status		4,316	7,899
Amount of interest income recognized on a cash-basis		_	241

During 2021, the property from a foreclosed mortgage with a carrying value of \$3,621 and a market value of \$3,733 was transferred into a multi-member LLC. As of December 31, 2020, the Company had one mortgage loan with a carrying value of \$3,621 that was over 180 days past due and in process of foreclosure. The Company did not have any additional mortgage loans past due as of December 31, 2021 or any mortgage loans past due as of December 31, 2020. The Company did not have any taxes, assessments, or advances that were not included in the mortgage loan total.

The Company reduced the interest rate on its restructured mortgage loan from 4.36% and 4.41% to 0% in 2021 and 2020, respectively.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Other Invested Assets—Other invested assets include surplus notes with an amortized cost of \$77,497 and \$75,261 and a fair value of \$90,250 and \$86,875 as of December 31, 2021 and 2020, respectively. All of the Company's surplus notes were rated NAIC 1-2 during each period. For this reason, the notes were reported at amortized cost, resulting in no related unrealized losses as of December 31, 2021 and 2020, respectively. Additionally, the Company has other limited partnerships, which are presented in the following table:

		s of	Decemb	er 3	1,					
	Carryir	ıg Va	alue		Unfunded mmitments					
Investment Category	2021	2020		2020 2021 Redemption Term/N				2021		Redemption Term/Notice
Commercial mortgage loans	\$ 101,706	\$	54,492	\$	65,131	Fully redeemable and non-redeemable with varying terms.				
Opportunistic credit	27,150		23,988		_	Initial 2 year lock on each new investment/semi-annual withdrawals thereafter/full redemption within 36 month period.				
Other	9,613		120		55,526	Fully redeemable with varying terms and non-redeemable.				
Total	\$ 138,469	\$	78,600	\$	120,657					

Affiliated Investments—As of December 31, 2021 and 2020, the Company had the following subsidiaries:

	Ownership	Carrying	g Value <sup>(1)</sup>		Subsidiary Assets					Subsid Inco	iary Net ome		
	%	2021		2020		2021	202	20		2021		2020	
National Income Life Insurance Company (National Income)	100%	\$ 41,677	\$	39,129	\$3	390,637	\$343	962	\$	12,689	\$	14,871	
American Income Marketing Services (AIMS)	100%	\$ 1,203	\$	1,203	\$	_	\$	_	\$	_	\$	_	

<sup>(1)</sup> The Company's carrying value is presented as the following: National Income at statutory-basis equity and AIMS at its GAAP-basis equity. The carrying value in AIMS is a non-admitted asset in the statutory-basis financial statements.

National Income declared and paid dividends on its common stock to the Company in the amount of \$11,739 and \$13,737 during 2021 and 2020, respectively. The Company recorded these amounts in net investment income.

**FHLB Membership**—During 2021, the Company became a member of the Federal Home Loan Bank (FHLB) of Dallas. Membership provides the Company with access to various low cost collateralized borrowings and funding agreements. Membership requires the purchase of a minimum amount of FHLB common stock based on a percentage of admitted assets. Additional common stock purchases are required based on the amount of funds borrowed from the FHLB. As of December 31, 2021, the Company owned \$1,936 of Class B membership stock which is not eligible for redemption.

As of December 31, 2021, the Company had no outstanding borrowings or funding agreements with the FHLB. As of December 31, 2021, the Company did not have any pledged securities as collateral.

**Concentrations of Credit Risk**—The financial instruments that subject the Company to concentrations of potential credit risk are primarily bonds, equity securities, short-term investments, and cash on deposit. Such instruments include investments in commercial paper of companies with high credit ratings, investments in money market securities, and investments in securities backed by the United States

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Government. The Company limits the amount of credit exposure with any one financial issuer or institution and believes that no significant concentration of credit risk exists with respect to the portfolio.

The Company maintains a diversified investment portfolio with limited concentration in any one issuer. The following table presents the distribution of the portfolio as of December 31, 2021, based on admitted value:

	Admitted Value
Investment-grade corporate securities	71 %
Municipal bonds	8 %
Other invested assets	6 %
Contract loans	5 %
Below-investment grade securities	4 %
Affiliated stock	2 %
Other governments	1 %
Cash, cash equivalents, and short-term investments	1 %
Mortgage loans	1 %
Loan-backed and other structured securities, other bonds, real estate and non-affiliated equities	1 %
Total	100 %

Excluding investments in affiliates, the Company's largest exposure to a single issuer of debt and equity securities was Telus Corp, which represented 1.5% of cash and invested assets.

Municipal bond investments are made in various states with 21% of the municipal bonds invested in the state of Texas. Corporate debt and equity investments are made in a wide range of industries. At December 31, 2021, the top ten industry concentrations, based on admitted value, were as follows:

	Admitted Value
Insurance	14 %
Electric utilities	10 %
Telecommunications	6 %
Banks	6 %
Pipelines	6 %
Chemicals	4 %
Energy exploration and production	4 %
Real estate investment trusts	4 %
Transportation	4 %
Food	4 %

At December 31, 2021, 4% of cash and invested assets were represented by bonds rated below investment grade by the NAIC (NAIC designations 3–6). Par value of these investments was \$188,498, book/adjusted carrying value (or admitted value) was \$194,044, and fair value was \$214,523. Included in these said investments are below investment grade loan-backed and other structured securities with a book/adjusted carrying value of \$2,691. While these investments could be subject to additional credit risk, such risk should generally be reflected in fair value.

<sup>(1)</sup> Contract loans cannot be valued separately from their associated insurance liabilities, thus making the determination of fair value not practicable.

<sup>(2)</sup> The Company invests in mortgage loans with 1 month floating rates. For this reason, the fair value approximates book value.

<sup>(1)</sup> Contract loans cannot be valued separately from their associated insurance liabilities, thus making the determination of fair value not practicable.

The Company invests in a portfolio of private placement bonds that is managed by a third party. Amortized cost of these bonds was \$91,044 and \$108,801 as of December 31, 2021 and 2020, respectively. The fair value of those classified as Level 2 was \$11,210 and \$10,266 and those classified as Level 3 was \$89,365 and \$110,823 at December 31, 2021 and 2020, respectively.

<sup>(2)</sup>The Company invests in mortgage loans with 1 month floating rates. For this reason, the fair value approximates book value.

#### 4. FUTURE POLICY BENEFITS AND REINSURANCE

#### Reserves for Life Contracts and Deposit-Type Contracts

- The Company waives deduction of deferred fractional premiums upon death of the insured and returns any modal premium paid beyond the date of death. Surrender values are not promised in excess of the legally computed reserves.
- Extra premiums are charges for substandard lives plus the gross premium for a rate age or plus
  the gross premium for the true age. Mean reserves are determined by computing the regular
  mean reserve for the plan and in addition, one-half for the extra premium charge for the year for
  traditional products.
- At December 31, 2021 and 2020, the Company had insurance in force of \$403,665 and \$417,698, for which a premium deficiency reserve of \$3,562 and \$3,576, respectively, was recorded.
- The tabular interest, tabular less actual reserves released, and tabular costs have been determined by formula as prescribed in the NAIC Annual Statement Instructions.
- For the determination of tabular interest on funds not involving life contingencies for each valuation rate of interest, the tabular interest is calculated as one hundredth of the product of such valuation rate of interest multiplied by the mean of the amount of funds subject to such valuation rate of interest held at the beginning and end of the year of valuation.

Analysis of Annuity Actuarial Reserves and Deposit Liabilities by Withdrawal Characteristics—The amount of annuity actuarial reserves and deposit-type contract funds and other liabilities without life or disability contingencies as of December 31, 2021 and 2020, were as follows:

Individual Annuities:	2021	2020		
Subject to discretionary withdrawal:				
At book value less current surrender charge of 5% or more	\$ 63	\$	209	
At book value without adjustment	218,702		226,377	
Total subject to discretionary withdrawal	218,765		226,586	
Not subject to discretionary withdrawal	581		568	
Total gross	219,346		227,154	
Reinsurance ceded			_

Total	\$	3,600,901	\$ 3,502,545

**Change in Incurred Losses and Loss Adjustment Expenses**—The activity in the liability for policy and contract claims for accident and health policies for the year ended December 31, 2021 and 2020, is summarized as follows:

	 2021	 2020		
Balance at January 1—net of reinsurance recoverables	\$ 17,829	\$ 16,767		
Incurred related to:				
Current year	26,579	26,305		
Prior years	 (2,877)	 (3,309)		
Total incurred	23,702	 22,996		
Paid related to:				
Current year	13,274	12,702		
Prior years	 9,643	 9,232		
Total paid	22,917	 21,934		
Balance at December 31—net of reinsurance recoverables	\$ 18,614	\$ 17,829		

At the end of each year, the liability for unpaid health claims includes an estimate of claims incurred but not yet reported to the Company. Such estimates are updated regularly based upon the Company's most recent claims data with recognition of emerging experience trends. Due to the nature of the Company's health business, the payment lags are relatively short and most claims are fully paid within a year from the time incurred. Fluctuations in claims experience can lead to either over or under estimation of the liability for any given year.

The balance in the liability for unpaid accident and health claim adjustment expenses as of December 31, 2021 and December 31, 2020 was \$453 and \$445, respectively.

**Reinsurance Assumed and Ceded**—The Company reinsures the portion of insurance risk in excess of its retention limits to both affiliated and unaffiliated companies. The Company also assumes certain insurance risks of both affiliated and unaffiliated companies. The aggregate reserves for future policy benefits, unearned premiums, policy and contract claims, premiums, and benefits are reported after adding or deducting amounts related to reinsurance assumed or ceded.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The Company has reinsured portions of certain life insurance policies that it underwrites to limit certain risks. The Company retains varying amounts of individual insurance up to a maximum retention, and this retention limit may have changed in the past as these limits are not static over long periods of time. The Company is not relieved of its primary obligations to the policyholders and is therefore contingently liable in the event that assuming reinsurers are unable to meet their obligations.

During 2021, the Company executed a combined coinsurance with funds withheld and yearly renewable term ("YRT") reinsurance treaty with an unaffiliated entity, with an effective date of October 1, 2021. At treaty inception, the Company ceded an existing block of life business and recorded an initial premium transfer to the reinsurer, which was equal to the initial ceded reserves. The Company also recorded an initial ceding commission from the reinsurer within current year earnings, which was reflected as a credit to surplus, net of tax.

The amounts related to reinsurance assumed and ceded as of and for the years ended December 31, 2021 and 2020, are shown below:

		2021	2020				
	Affiliated	Unaffiliated	Affiliated	Unaffiliated			
Assumed:							
Aggregate reserves for future policy benefits	\$ 219,162	<u>\$</u>	\$ 226,948	<u>\$</u>			
Policy and contract claims unpaid	\$ 5,054	<u>\$</u>	\$ 5,219	<u>\$</u>			
Premiums	\$ 6,475	<u>\$</u>	\$ 6,263	<u>\$</u>			
Incurred benefits	\$ 21,129	<u>\$</u>	\$ 22,294	<u>\$</u>			
Commissions and reinsurance expense allowances	. \$ 148	<u>\$</u>	\$ 148	<u>\$</u>			
Reserve adjustment	s <u> </u>	<u>\$</u>	<u>\$</u>	<u>\$</u>			
Ceded:							
Aggregate reserves for future policy benefits	\$ 462,481	\$ 121,478	\$ 353,708	\$ 107			
Premiums	\$ 425,356	\$ 127,850	\$ 359,308	\$ 126			
Reserve adjustments	\$ 4,569	<u>\$</u>	\$ 5,017	<u>\$</u>			
Incurred benefits	\$ 60,849	\$ 6,832	\$ 45,236	<u> </u>			
Premium taxes	\$ 9,590	\$	\$ 8,142	\$ <u> </u>			
Commissions and reinsurance expense allowances	\$ 246,145	\$ 25,138	\$ 219,484	<u>\$</u>			

A contingent liability exists with respect to deductions from the aggregate reserves for future policy benefits, policy and contract claims, and unearned premiums, which would become a liability in the event that such reinsurance companies are unable to meet their obligations under the existing reinsurance agreements.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

#### Ceded Reinsurance Report

#### Section 1—General Interrogatories

 Are any of the reinsurers, listed in Schedule S as nonaffiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?

Yes ( ) No (X)

 Have any of the policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) which is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or an insured or any other person not primarily engaged in insurance business?

Yes () No (X)

#### Section 2—Ceded Reinsurance Report—Part A

 Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?

Yes ( ) No (X)

 Does the Company have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in payment to the reinsurer of amounts which, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

Yes ( ) No (X)

#### Section 3—Ceded Reinsurance Report—Part B

What is the estimated amount of the aggregate reduction in surplus, for agreements, not reflected
in Section 2 above, of termination of all reinsurance agreements, by either party, as of the date of
this statement? Where necessary, the Company may consider the current or anticipated
experience of the business reinsured in making the estimate.

\$173,982

 Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies and contracts which were in-force or which had existing reserves established by the Company as of the effective date of the agreement?

Yes (X) No ()

### F. Federal Taxes

- 1. As of December 31, 2021 and 2020, the Company has no net operating loss or tax credit carryforwards.
- 2. The amount of Federal income taxes incurred that are available for recoupment in the event of future net losses are as follows:

2021	\$ 2,046
2020	\$ _
2019	\$ 303

3. The aggregate amount of deposits admitted under Section 6603 of the Internal Revenue Code is \$0 and \$0 at December 31, 2021 and 2020, respectively.

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued)
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020
(Dollar amounts in thousands except for shares)

#### G. Consolidated Federal Income Tax Return

The Company's federal income tax return is consolidated with its ultimate parent, Globe Life Inc., as well as its affiliated subsidiaries including: Liberty National Life Insurance Company, Globe Life Insurance Company of New York, Family Heritage Life Insurance Company of America, Globe Life And Accident Insurance Company, United American Insurance Company, National Income Life Insurance Company, TMK Buildings Corporation, Brown Service Funeral Homes Company, Inc., Torchmark Insurance Agency, Inc., Specialized Advertising Group, Inc., Globe Marketing Services, Inc., AILIC Receivables Corporation, American Income Marketing Services, Inc., Liberty National Auto Club, Inc., Globe Life Insurance Agency, Inc., American Life and Health Group, Inc., and TMK Re, Ltd.

Each company pays a share of the total tax liability determined as if computed separately. Companies that would report a loss are reimbursed to the extent that their losses are utilized by affiliates with taxable income. The calculation is made pursuant to Federal Income Tax Regulation 1.1552-1(a)(2) and 1.1502-33(d)(3)(ii).

The Company's income tax returns are routinely audited by the Internal Revenue Service (IRS). The statute of limitation for the assessment of additional tax is closed for all tax years prior to 2018. Management believes that adequate provision has been made in the statutory-basis financial statements for any potential assessments that may result from the completed examinations, future tax examinations, and other tax-related matters for all open tax years.

The Company currently does not have any tax contingencies that are required to be recognized in accordance with SSAP No. 5R, Liabilities, Contingencies and Impairments of Assets.

### H. Repatriation Transition Tax (RTT)

The Company does not owe RTT for the year.

### I. Alternative Minimum Tax (AMT) Credit

The Company had no AMT credit carryforwards as of the beginning of the year. As a result, no AMT credits were recovered during the year or exist as of the end of the year.

### J. Tax Penalties

The Company's continuing practice is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company did not recognize any interest income and/or expense related to income taxes in its statutory-basis Statement of Operations for 2021 and 2020. The Company also did not recognize any Federal tax penalties in its statutory-basis Statement of Operations for 2021 and 2020. The Company does not have any accrued interest receivables and/or payables relating to prior year IRS examination settlements as of December 31, 2021 and 2020. The Company had no accrued penalties as of December 31, 2021 and 2020.

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued)
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020
(Dollar amounts in thousands except for shares)

#### 7. EMPLOYEE BENEFIT PLANS

**Defined Benefit Pension Plans**—The Company has a funded noncontributory defined benefit plan for all hourly employees who have completed one year of service with the Company. Certain assets of the Company in the form of a guaranteed investment contract in the amount of \$34,743 and \$30,119 were allocated in 2021 and 2020, respectively, to pay future benefits. The benefits are set as a monthly amount for each year of service with the Company. Cost for the plan has been calculated on the projected unit credit actuarial cost method. Contributions are made periodically to fund plan obligations. All plan measurements are as of December 31 of the respective year.

The information about the Company's defined benefit pension plan as of December 31, 2021 and 2020, is as follows:

					2021	2020
Accumulated benefit obligation					\$ 54,926	\$ 49,628
Projected benefit obligation					54,926	49,628
Fair V	alue Meas	urement	s at			
С	ecember :	31, 2021				
Description for each class of plan assets	Le	vel 1		Level 2	Level 3	Total
Unallocated insurance contract	\$	_	\$	34,743	\$ _	\$ 34,743
Fair V	alue Meas	urement	ts at			
	ecember :	31, 2020				
Description for each class of plan assets	Le	vel 1		Level 2	Level 3	Total
Unallocated insurance contract	\$		\$	30 110	\$ 	\$ 30 110

The following table discloses the assumptions used to determine the Company's pension liabilities and costs for the appropriate periods. The discount rate is used to determine projected benefit obligations and pension expense. The discount rate is determined based on the expected duration of plan liabilities. A yield is then derived based on the current market yield of a hypothetical portfolio of higher-quality corporate bonds which match the liability duration. Differences between assumptions and actual experience are included in actuarial gain or loss.

Weighted Average Pension Plan Assumptions	2021	2020
For benefit obligations — December 31 — discount rate	3.29 %	3.10 %
For periodic benefit cost for the year:		
Discount rate	3.10	3.61
Expect long-term rate of return	6.25	6.25
Rate of compensation increase <sup>(1)</sup>	N/A	N/A
Interest crediting rates for cash balance plans and other plans with promised interest crediting rates	4.30	4.32

<sup>(1)</sup> The Company does not project a benefit obligation since the benefit formula for the plan does not contain a salary component.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The following table presents the components of net periodic pension cost as of December 31, 2021 and 2020, for the defined benefit pension plan:

	2021	2020
Service cost	\$ 2,409	\$ 1,972
Interest cost	1,524	1,510
Expected return on assets	(1,885)	(1,768)
Amortization of prior service cost	631	631
Amortization of net loss	876	554
Net periodic benefit cost	\$ 3,555	\$ 2,899

The following table presents a reconciliation at December 31, 2021 and 2020, from the beginning to the end of the year of the accumulated benefit obligation of the defined benefit pension plan:

	2021	2020
Changes in benefit obligation:		
Obligation—balance at January 1	\$ 49,628	\$ 42,231
Service cost	2,409	1,972
Interest cost	1,524	1,510
Actuarial (gain) loss	(2,423)	4,611
Benefits paid	(777)	(696)
Obligation—balance at December 31	54,926	49,628
Changes in plan assets:		
Plan assets—fair value at January 1	30,119	28,278
Return on assets	1,001	967
Contributions	4,400	1,570
Benefits paid	(777)	 (696)
Plan assets—fair value at December 31	34,743	 30,119
Funded status at December 31	\$ (20,183)	\$ (19,509)

The portion of unassigned surplus that is expected to be reflected in pension expense in 2022 is as follows:

	D	Defined
	Ber	nefit Plan
Amortization of prior service cost	\$	1,078
Amortization of net loss		837
Total	\$	1 915

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The following table illustrates the estimated pension benefit payments, which reflect the expected future service that is projected to be paid:

	D	efined
	Ben	efit Plan
2022	\$	1,044
2023		1,206
2024		1,386
2025		1,565
2026		1,752
2027-2031		11,231

Cost for the defined benefit pension plan has been calculated on the projected unit credit actuarial cost method. All plan measurements for the defined benefit plan are as of December 31 of the respective year. The defined benefit pension plan covering the hourly employees is funded. Contributions are made to fund the plan subject to minimums required by regulations and maximums allowed for tax purposes. Defined benefit plan contributions were \$4,400 in 2021 and \$1,570 in 2020. The Company does not have any regulatory contribution requirements for 2021, and the Company currently intends to make voluntary contributions of approximately \$9,500 in 2022. The actual amount of the contribution may be different from this estimate.

In addition, the Company has a SERP, which provides an additional supplemental defined pension benefit to a limited number of executives. The supplemental benefit is based on the participant's qualified plan benefit without consideration to the regulatory limits on compensation and benefit payments applicable to qualified plans, except that eligible compensation is capped at \$1 million.

The Company's liability to this plan was \$2,522 and \$2,448 at December 31, 2021 and 2020, respectively. Pension cost is determined in the same manner as the defined benefit plan. Expense recognized for the plan was \$182 and \$138 for the years ended December 31, 2021 and 2020, respectively.

**Defined Contribution Plans**—In addition to the defined benefit plans, the Company has a qualified 401(k) and profit sharing plan for its exempt employees. The Company makes annual contributions to the plan of six percent of each employee's compensation, subject to limitation. All Company contributions are subject to a vesting schedule based on the employee's years of service. For the years ended December 31, 2021 and 2020, Company contributions totaled \$712 and \$747, respectively.

**Postretirement Benefit Plans Other Than Pensions**—The Company does not provide postretirement employment benefits to its employees other than those described above, except certain executive officers are covered by a post-retirement life insurance plan sponsored by the Parent Company. The Company was allocated \$0 and \$183 for 2021 and 2020, respectively, for its annual share of the plan.

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued)
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020
(Dollar amounts in thousands except for shares)

### 8. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AND AFFILIATES

**Summary of Transactions**—A summary of transactions between the Company, its parent, subsidiaries and affiliates as of and for the years ended December 31, 2021 and 2020, are as follows:

The Company has an investment management agreement with the Parent Company wherein the Company is charged a fee based on the total value of the securities managed. Total investment management fees incurred were \$6,324 and \$5,880 for the years ended December 31, 2021 and 2020, respectively.

The Company has a separate service agreement with the Parent Company to provide a wide variety of services, resulting in allocated expense to the Company of \$13,992 and \$17,088 in 2021 and 2020, respectively. The Parent Company agreement is a master service agreement with the Company and the other insurance affiliates and was approved by the Department. The fee is based on the ratio of certain expenses at the affiliate level to comparable Parent Company consolidated expenses, which is then applied to the Parent Company's total operating expenses for the prior year.

The Company is a party to a service agreement by and between Liberty National, Family Heritage, Globe Life, and United American. The agreement establishes that all parties may, from time to time, act to furnish a particular service or services becoming a "Service Provider" or receive a particular service or services as a "Service Beneficiary" and provides for allocation of salary expense and other costs of providing such services to the appropriate Service Beneficiary. Allocated expense related to this agreement for 2021 and 2020 was \$37,453 and \$34,002, respectively.

The Company has agreed to provide National Income, a subsidiary of the Company, certain legal, actuarial, marketing and other services with respect to National Income's life and accident and health businesses. In 2021 and 2020, the Company charged a fee of \$9,193 and \$7,938, respectively, for these services. The Company also services the agent balance receivables on behalf of another of its affiliates, American Income Life Insurance Company Receivables Corp (AILRC). In 2021 and 2020, the Company charged AILRC \$1,922 and \$1,779, respectively, for these services.

During 2021 and 2020, the Company sold agent balances totaling \$461,212 and \$410,680, respectively, to its affiliate, AILRC. The agent balances were sold to AILRC at a discount and amortized through investment expense, a component of investment income, evenly over the life of the agent balances. Amortization expense of \$20,606 and \$17,958 was recorded in 2021 and 2020, respectively.

Capital—The Company owned 19,169 shares of the Parent Company's 7.15% Cumulative Preferred Stock, Series A, and 20,000 shares of the Parent Company's 6.5% Cumulative Preferred Stock, Series A, as of December 31, 2021 and 2020, respectively. The carrying value of the stock was \$39,169 as of December 31, 2021 and 2020. The Company received cash dividends of \$1,300 for the 6.5% Cumulative Preferred Stock and \$1,371 for the 7.15% Cumulative Preferred Stock during 2021 and 2020. The Department limits the Company's carrying value of investment in affiliated preferred stock to 2% of prior year total admitted assets. No amounts were required to be nonadmitted as of December 31, 2021 or 2020.

During 2012, the Company applied for and obtained approval from the Department to issue surplus notes in the aggregate of \$50,000. The Company issued a \$25,000 par value surplus note to the Parent Company on December 31, 2012. The surplus note was issued with an interest rate of 5.25% and a maturity date of December 31, 2042. The carrying value of the surplus note was \$25,000, at December 31, 2021 and 2020. Semi-annual interest payments are due in April and October. The surplus note has the following repayment conditions and restrictions: 1) payments of principal and interest can only be made from the issuer's available surplus when the amount of surplus over all liabilities is equal to or greater than the surplus existing immediately after the issuance of the surplus note; and 2) payments can only be made with the prior approval of the Indiana Insurance Commissioner.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

The surplus notes are direct, unsecured obligations of the Company. In the event of liquidation, the notes are subordinate to holders of policy claims, other indebtedness, and other creditor claims. The surplus notes were issued pursuant to rule 144A under the securities act of 1933. All proceeds were received in cash. Interest expense as of both December 31, 2021 and 2020 was \$1,312 and \$1,312, respectively. Total interest paid since inception of the note is \$11,539.

In 2017, the Parent Company sold the \$25,000 surplus notes to Globe Life And Accident Insurance Company, an affiliate.

Affiliate Transactions for Current and Prior Years—In addition to the balances and transactions with affiliates summarized in the section above, the Company also entered into a variety of reinsurance transactions that have been disclosed in Note 4 and borrowing transactions with affiliates that are described below:

The Company borrowed \$5,000 at an interest rate of 3.25% on September 16, 2021 from Globe Life And Accident Insurance Company. The borrowings were repaid in full on September 21, 2021. The Company incurred interest expense of \$2 on the borrowings in 2021. The Company did not have any borrowings from Globe Life And Accident Insurance Company in 2020.

The Company borrowed \$20,000 at an interest rate of 3.25% on December 18, 2020 from Liberty National. The borrowing was repaid in full on June 18, 2021. The Company incurred interest expense of \$23 on the borrowings in 2020. The Company borrowed \$20,000 at an interest rate of 3.25% on June 18, 2021 from Liberty National. The borrowing was repaid in full on October 7, 2021. The Company incurred interest expense of \$497 on the borrowings in 2021.

The Company borrowed \$11,000 at an interest rate of 3.25% on June 1, 2021 from United American Insurance Company. The borrowings were repaid in full on July 22, 2021. The Company incurred interest expense of \$51 on the borrowings in 2021. The Company did not have any borrowings from United American Insurance Company in 2020.

The Company borrowed \$55,413, \$20,447, \$15,000, \$30,000, \$10,000, \$70,696, \$25,857, \$20,000, \$1,651, \$15,696 and \$25,000 at an interest rate of 0.00%, 0.00%, 3.25%, 3.25%, 3.25%, 0.00%, 0.00%, 3.25%, 0.00%, 3.25% and 0.00% on March 23, March 26, April 3, April 28, May 6, June 1, June 22, August 24, September 11, November 30, and December 16, 2020 from the Parent Company, respectively. The borrowings were repaid in full on March 23, March 26, July 21, September 11, September 11, November 30, and December 17, 2020, February 4, 2021, September 11, December 21, and December 23, 2020, respectively. The Company incurred interest expense of \$797 on the borrowings in 2020.

In addition, the Company borrowed \$50,281, \$20,447, \$70,696, \$25,857, \$7,000, \$1,651, and \$30,000 at an interest rate of 0.00%, 0.00%, 0.00%, 0.00%, 3.25%, 0.00%, and 3.25% on March 23, March 26, June 1, June 22, August 12, September 13, and October 26, 2021 from the Parent Company, respectively. The borrowings were repaid in full on March 23, May 24, August 5, September 1, December 17, September 13, and December 17, 2021, respectively. The Company incurred interest expense of \$261 on the borrowings in 2021.

American Income Marketing Services Inc., a subsidiary of the Company, borrowed \$2,500, \$2,500, and \$2,000 at an interest rate of 5.50%, 4.75%, and 3.25% from the Company on July 24, 2019, January 22, and July 22, 2020, respectively. The borrowings were repaid in full on January 22, July 22, and December 22, 2020, respectively. American Income Marketing Services Inc. did not have any borrowings from the Company in 2021.

Globe Life And Accident Insurance Company borrowed \$10,000 at an interest rate of 4.75% from the Company on February 12, 2020. The borrowings were repaid in full on March 2, 2020. Globe Life And Accident Insurance Company did not have any borrowings from the Company in 2021.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

Liberty National borrowed \$10,000 at an interest rate of 4.75% from the Company on February 12, 2020. The borrowing was repaid in full on March 9, 2020. Liberty National borrowed \$5,000 at an interest rate of 3.25% from the Company on December 1, 2021. The borrowing was repaid in full on December 7, 2021.

National Income borrowed \$11,555 and \$2,182 at an interest rate of 0.00% and 0.00% from the Company on June 25 and July 16, 2020, respectively. The borrowings were repaid in full on June 25 and July 16, 2020, respectively. National Income did not have any borrowings from the Company in 2021.

United American borrowed \$10,000, \$5,000, \$7,000, \$5,000, and \$10,000 at an interest rate of 5.25%, 4.75%, 4.75%, 4.75%, and 3.25% from the Company on September 24 and December 24, 2019, February 5, March 2, and March 31, 2020, respectively. The borrowings were repaid in full on January 30, January 30, July 21, July 21, and August 17, 2020, respectively. United American borrowed \$5,000 at an interest rate of 3.25% from the Company on December 21, 2021. The borrowing was repaid in full on February 8, 2022. United American borrowed \$5,000 at an interest rate of 3.25% from the Company on December 23, 2021. The borrowing was repaid in full on February 8, 2022.

The Parent Company borrowed \$25,000 and \$15,000 at an interest rate of 4.25% and 4.25% from the Company on March 9 and March 13, 2020, respectively. The borrowings were repaid in full on March 23 and March 23, 2020, respectively. The Parent Company did not have any borrowings from the Company in 2021.

Non Insurance Investments in Subsidiary, Controlled, and Affiliated Entities (SCA)—The following tables list SCA for the year ended December 31, 2021:

### 9. CAPITAL AND SURPLUS AND SHAREHOLDER'S DIVIDEND RESTRICTIONS

The Company has 23,360,214 common shares authorized and 11,680,107 common shares issued outstanding. All shares are Class A shares. The common stock of the Company is wholly-owned by the Parent Company.

**Dividends**—The Company declared and paid \$193,932 and \$199,064 in dividends to the Parent Company during the year ended December 31, 2021 and 2020, respectively. No extraordinary dividends were paid in 2021 or 2020.

Statutory regulations in the State of Indiana limit the payment of dividends by stock life insurance companies in any one year to an amount equal to the greater of statutory net gain from operations from the previous year or 10% of surplus reported for the previous year. Dividends in excess of these limitations are not available without special approval of the regulatory authorities. The maximum dividend the Company can make without prior approval in 2022 is \$176,003.

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

**Surplus Notes**—The Company had \$25,000 in surplus notes outstanding at December 31, 2021 and 2020. Interest expense of \$1,312 in both 2021 and 2020 related to these notes is included in the accompanying statutory-basis financial statements. Payments of principal and interest can only be made from the Company's available surplus when the amount of surplus over all liabilities is double that of the amount of principal and interest then being paid. Payments can only be made with the prior approval of the Department. The note is a direct, unsecured obligation of the Company. In the event of liquidation, the note is subordinate to holders of policy claims, other indebtedness and other creditor claims. The entire amount of the note is held by the Company's affiliate, Globe Life And Accident and Insurance Company.

**Unassigned Surplus**—The portion of unassigned surplus increased or (reduced) by each item below is as follows as of December 31:

	 2021	2020
Nonadmitted asset values	\$ (49,613)	\$ (45,319)
Asset valuation reserve	(48,110)	(38,668)
Net unrealized gains (losses)—net of tax	(15,166)	(17,569)

The 2021 and 2020 net unrealized loss as presented above differs from the amount disclosed in the Company's annual statement within note 13.J. The difference is due to net unrealized foreign exchange capital gain, net of tax of \$34,297 and \$37,019, respectively and less prior year's adjustment of tax on repatriation of \$467. The change in net unrealized foreign exchange capital gains is presented on the Statutory-Basis Statement of Changes in Capital and Surplus.

#### 10. COMMITMENTS AND CONTINGENCIES

Leases—Future minimum rental commitments required under operating leases having remaining noncancelable lease terms in excess of one year at December 31, 2021 were as follows:

	Year Ending December 31,											
	2	2022		2023		2024	2025		2026		Total	
Operating lease commitments	\$	562	\$	437	\$	411	\$	55	\$	11	\$	1,476

Lease expense included in general expenses was \$476 and \$477 for the years ended December 31, 2021 and 2020, respectively. The Company has the option to renew most of its leases at the end of the lease term at the fair value for a period of five to ten years.

**Unfunded Investment Commitments**—The Company has unfunded commitments to limited partnerships and commercial mortgage loans. As of December 31, 2021, the Company committed \$120,657 to fund investments related to limited partnerships. Additionally, as of December 31, 2021, the Company committed up to \$6,503 to purchase commercial mortgage loans.

Litigation—American Income and its subsidiary, in common with the insurance industry in general, are subject to litigation, including putative class action litigation, alleged breaches of contract, torts, including bad faith and fraud claims based on alleged wrongful or fraudulent acts of agents of American Income and its subsidiary, employment discrimination, and miscellaneous other causes of action. Based upon information presently available, and in light of legal and other factual defenses available to American Income and its subsidiary, management does not believe that it is reasonably possible that such litigation will have a material adverse effect on American Income's financial condition, future operating results or liquidity; however, assessing the eventual outcome of litigation necessarily involves forward-looking speculation as to judgments to be made by judges, juries and appellate courts in the future. This bespeaks caution, particularly in states with reputations for high punitive damage verdicts. American Income's management recognizes that large punitive damage awards bearing little or no relation to actual

### NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued) AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

(Dollar amounts in thousands except for shares)

damages continue to be awarded by juries in jurisdictions in which American Income and its subsidiary have substantial business, creating the potential for unpredictable material adverse judgments in any given punitive damage suit.

During 2021, the Company paid \$2 to settle one claim related to extra contractual obligations or bad faith claims stemming from lawsuits. During 2020, the Company paid \$2,904 to settle five claims related to extra contractual obligations or bad faith claims stemming from lawsuits.

On August 5, 2020, putative class and collective action litigation was filed against American Income and National Income Life Insurance Company ("National Income") in United States District Court for the Central District of California (Natalie Bell, Gisele Mobley, Ashly Rai, and John Turner v. American Income Life Insurance Company and National Income Life Insurance Company, Case No. 2:20-cv-07046). On December 18, 2020, the plaintiffs voluntarily dismissed Mr. Turner's claims and all claims against defendant National Income. Following the dismissal, the complaint alleges that insurance agent trainees should have been classified as employees, and after contracting should have been classified as employees instead of independent contractors. Plaintiff Bell is a former California trainee and plaintiff Rai is a former California agent. They assert claims under California law on behalf of a putative California class for the four years prior to February 13, 2020 through case conclusion. They make claims under (a) the California Labor Code for alleged meal and rest break violations, overtime, minimum wage, alleged failure to pay wages at the time of termination, expense reimbursement, and alleged failure to provide accurate wage statements; and (b) the California Business and Professions Code for alleged unfair business practices. They also seek liquidated damages, penalties and attorney's fees under California law. Plaintiff Mobley is a former Florida agent who asserts a claim under Florida law on behalf of a putative Florida class for the five years prior to February 13, 2020 through case conclusion. She makes a claim under the Florida General Labor Regulations, including the Florida Minimum Wage Act, for alleged failure to pay all wages owed. The plaintiffs also assert a national collective action on behalf of all "similarly situated" individuals for minimum wage, overtime, liquidated damages, penalties, an accounting and attorney's fees and costs under the Fair Labor Standards Act for the three years prior to February 13, 2020 through case conclusion. American Income responded to the complaint with a motion to compel the named plaintiffs to arbitrate their individual claims and other procedural challenges. On April 6, 2021, the court granted American Income's motion to compel arbitration as to plaintiffs Mobley and Rai, and denied the motion without prejudice as to plaintiff Bell. American Income subsequently renewed its motion to compel arbitration as to plaintiff Bell. On November 30, 2021, the court granted American Income's motion to compel arbitration as to plaintiff Bell.

With respect to the aforementioned litigation, at this time, management believes that the possibility of a material judgment adverse to the Company is remote.

**Unclaimed Property Audits**—The Globe Life Inc. insurance subsidiaries are currently the subject of audits regarding the identification, reporting and escheatment of unclaimed property arising from life insurance policies and a limited number of annuity contracts. These audits are being conducted by private entities that have contracted with forty-seven states through their respective Departments of Revenue, and have not resulted in any financial assessment from any state nor indicated any liability. The audits are wide-ranging and seek large amounts of data regarding claims handling, procedures, and payments of contract benefits arising from unreported death claims. No estimate of range can be made at this time for loss contingencies related to possible administrative penalties or amounts that could be payable to the states for the escheatment of abandoned property.

NOTES TO STATUTORY-BASIS FINANCIAL STATEMENTS (continued)
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020
(Dollar amounts in thousands except for shares)

### 11. ELECTRONIC DATA PROCESSING EQUIPMENT

Electronic data processing equipment (EDP) and operating and non-operating software at December 31, 2021 and 2020, consisted of the following:

	2021	2020
Electronic data processing equipment—net	\$ 2,001	\$ 2,403
System software—net	20,903	12,259
Balance—net	22,904	14,662
Total nonadmitted	 20,903	 12,259
Total admitted	\$ 2,001	\$ 2,403

Depreciation expense related to EDP and software totaled \$6,556 and \$4,528, for the years ended December 31, 2021 and 2020, respectively. The Company recorded total depreciation of \$6,810 and \$4,724, in 2021 and 2020, respectively. Total accumulated depreciation for 2021 and 2020 was \$3,081 and \$2,438, respectively.

### 12. FOREIGN EXCHANGE ADJUSTMENT

The Company is licensed to sell insurance in Canada and New Zealand. Invested assets held in Canada and New Zealand were \$561,628 and \$507,235 (U.S. dollars) at December 31, 2021 and 2020, respectively. The net foreign exchange adjustment resulting from the translation of assets denominated in foreign currencies was approximately \$34,297 and \$37,019, at December 31, 2021 and 2020, respectively. The change in this foreign exchange adjustment, net of tax, of \$(2,722) and \$6,415 for the years ended December 31, 2021 and 2020, respectively, is included in the accompanying statutory-basis statements of changes in capital and surplus.

#### 13. PARTICIPATING POLICIES

The Company does not currently write any participating business. The Company accounts for its policyholder dividends on an accrual basis consistent with SSAP No. 51, *Life Contracts* and SSAP No. 54, *Individual and Group Accident and Health Contracts*. The Company incurred dividends in the amount of \$4 and \$10 to life and annuity policyholders in 2021 and 2020, respectively, and did not allocate any additional income to such policyholders.

SUPPLEMENTAL SCHEDULE OF REINSURANCE RISKS AS OF DECEMBER 31, 2021

(Dollar amounts in thousands)

#### Reinsurance Credit

1. Reinsurance contracts subject to Appendix A-791, Life and Health Reinsurance Agreements of the NAIC Accounting Practices and Procedures Manual:

We have entered into, renewed or amended no reinsurance contracts on or after January 1, 1996, which include risk limiting features, as described in SSAP No. 61R, *Life, Deposit-Type and Accident and Health Reinsurance* (SSAP No. 61R). Deposit accounting, as described in SSAP No. 61R was not applied for any reinsurance contracts, which include risk limiting features.

2. Reinsurance contracts NOT subject to Appendix A-791, Life and Health Reinsurance Agreements of the NAIC Accounting Practices and Procedures Manual:

We have applied reinsurance accounting, as described in SSAP No. 61R, to no reinsurance contract entered into, renewed or amended on or after January 1, 1996, which include risk limiting features, as described in SSAP No. 61R because we have no such reinsurance contracts. Thus, there are no related or applicable reinsurance reserve credits, as described in SSAP No. 61R.

3. Payments to reinsurers (excluding reinsurance contracts with a federal or state facility)

We have not entered into, renewed or amended reinsurance contracts on or after January 1, 1996, which contain provisions which allow (1) the reporting of losses or settlements with the reinsurer to occur less frequently than quarterly or (2) payments due from the reinsurer to not be made in cash within ninety days of the settlement date unless there is no activity during the period.

We have not entered into, renewed or amended reinsurance contracts on or after January 1, 1996, which contain a payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

4. Reinsurance contracts NOT subject to Appendix A-791, *Life and Health Reinsurance Agreements of the NAIC Accounting Practices and Procedures Manual* and NOT yearly-renewable term that meet the risk transfer requirements under SSAP No. 61R:

We have not reflected reinsurance reserve for any reinsurance contracts entered into, renewed or amended on or after January 1, 1996 for the following:

- a. Assumption Reinsurance for which there are no such reinsurance contracts;
- b. Non-proportional reinsurance, which does not result in significant surplus relief for which there are no such reinsurance contracts.

Supplemental Schedules YEAR ENDED DECEMBER 31, 2021 Dollar amounts in thousands

- 5. Reinsurance contracts NOT subject to Appendix A-791, Life and Health Reinsurance Agreements of the NAIC Accounting Practices and Procedures Manual and NOT yearly-renewable term, under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement:
  - AlL entered into a reinsurance agreement in 2021 which does not qualify for risk transfer under U.S. GAAP accounting rules; however, the treaty does satisfy the accounting rules for risk transfer under statutory accounting principles. As such, this agreement is accounted as reinsurance under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP").
- 6. If affirmative disclosure is required for (5) above, explain why the contract(s) is treated differently for GAAP and SSAP:

Due to the design of the treaty noted in Note 5, this treaty does not qualify for risk transfer under U.S. GAAP accounting rules; however, the treaty does satisfy the accounting rules for risk transfer under statutory accounting principles.

Re: American Income Life Insurance Company - New Zealand Branch: Report as at 31st December 2021 under Sections 77 and 78 of the Insurance (Prudential Supervision) Act 2010

You have asked me to prepare this report in terms of the above sections of the Act, and I would like to comment further as follows:

- I have reviewed the actuarial information included in the audited accounts for 1. American Income Life Insurance Company - New Zealand Branch as at 31st December 2021. "Actuarial information" includes the following:
  - policy liabilities;
  - solvency calculations in terms of the RBNZ Solvency Standard;
  - balance sheet and other information allowed for in the calculation of the company's solvency position; and
  - disclosures regarding the methodology and assumptions used for calculating policy liabilities, and other disclosures.
- 2. No limitations have been placed on my work.

- 3. I am independent with respect to American Income Life Insurance Company as defined under professional standard ISA (NZ) 620 of the External Reporting Board.
- 4. I have been provided with all information that I have requested in order to carry out this review.
- 5. In my view the actuarial information contained in the financial statements has been appropriately included, and the actuarial information used in the preparation of the financial statements has been appropriately used.
- 6. During 2013, the Company set up a Statutory Fund in terms of the Insurance (Prudential Supervision) Act. It also established a Custodial account within the Statutory Fund, under a local trustee structure, holding investment assets for the preferential benefit of New Zealand policyholders. The assets of the Custodial account have to be sufficient to meet the RBNZ's solvency requirements in respect of New Zealand policyholders.

The Branch's solvency positions under the RBNZ Standard for Life Insurers as at 31st December were as follows:

	December 2020		December 2021			
	Custodial Fund	Other	Total Statutory Fund	Custodial Fund	Other	Total Statutory Fund
Actual Solvency Capital	106,138,191	22,829,693	128,967,884	110,637,320	15,226,656	125,863,976
Minimum Solvency Capital	28,794,358	6,226,504	35,020,862	44,529,922	4,723,140	49,253,062
Solvency Margin	77,343,833	16,603,189	93,947,022	66,107,398	10,503,516	76,610,914
Solvency Ratio	368.6%	366.7%	368.3%	248.5%	322.4%	255.5%

Assuming the Branch is able to achieve its business plans, the Branch is expected to meet the RBNZ solvency requirement at all times over the next four years.

I would be very happy to answer any queries concerning this report.

Yours sincerely

Peter Davies B.Bus.Sc., FIA, FNZSA Appointed Actuary

Re: American Income Life Insurance Company: Report as at 31<sup>st</sup> December 2021 under Sections 77 and 78 of the Insurance (Prudential Supervision) Act 2010

You have asked me to prepare this report in terms of the above sections of the Act, and I would like to comment further as follows:

1. The American Income Life Insurance Company is a USA-based company registered in the State of Indiana.

The Company operates a branch in New Zealand, for which I am the Appointed Actuary.

I have provided a separate Section 78 report in respect of the branch.

2. The Company is required to lodge its own accounts with the New Zealand Companies Office, and these accounts are required to be accompanied by a Section 78 report.

3. I note that the company's actuarial valuation has been carried out by Ms. Yongjing Lin, Appointed Actuary, and a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries.

I have been provided with a set of the Company's accounts, and with Ms. Lin's actuarial memorandum in relation to his valuation as at 31<sup>st</sup> December 2021.

I note that the Company's accounts include the following information (2020 figures shown in brackets):

Statutory Balance sheet Capital:	US\$408,127,835	(\$338,854,599)
NAIC RBC* Capital calculation:	US\$458,520,668	(\$379,480,364)
Risk Based capital Requirement:	US\$ 65,360,128	(\$ 60,646,991)

Solvency coverage ratio: 702% (626%)

- 4. I have reviewed the actuarial information included in the audited accounts for American Income Life Insurance Company as at 31<sup>st</sup> December 2021. "Actuarial information" includes the following:
  - policy liabilities;
  - balance sheet and other information allowed for in the calculation of the company's solvency position; and
  - disclosures regarding the methodology and assumptions used for calculating policy liabilities, and other disclosures.
- 5. No limitations have been placed on my work.
- 6. I am independent with respect to American Income Life Insurance Company as defined under professional standard ISA (NZ) 620 of the External Reporting Board.
- 7. I have been provided with all information that I have requested in order to carry out this review.

<sup>\*</sup> National Association of Insurance Commissioners Risk Based Capital

- 8. In my view the actuarial information contained in the financial statements has been appropriately included, and the actuarial information used in the preparation of the financial statements has been appropriately used.
- 9. In 2013, the Company established a Statutory Fund in New Zealand in terms of the Insurance (Prudential Supervision) Act, and set up a Custodial account within this Fund, under a local trustee arrangement, holding investment assets for the preferential benefit of New Zealand policyholders.
- 10. Technically, the Company's license requires the Company itself to demonstrate its solvency in terms of the Insurance (Prudential Supervision) Act 2010. This calculation has not been carried out, although clearly the Company is in a strong financial position as assessed by the regulators in the USA.

I would anticipate however that the New Zealand regulators will still maintain an ongoing active interest in the financial position of the Company, as assessed by the Insurance Commissioner of Indiana.

I would be very happy to answer any queries concerning this report.

Yours sincerely

Peter Davies B.Bus.Sc., FIA, FNZSA
