DIRECTORS' REPORT (continued)

Principal activities

The principal activity of the branch is reinsurance underwriting

There has been no significant change in the nature of this activity during the year

Review of operations

Operating Results
The net profit of the branch for the year, after provision for income tax, amounted to $10,249,000 compared with the 2020 net profit of $13,373,000

State of affairs

General Reinsurance Australia Limited - New Zealand Branch is committed to the New Zealand market and continues to support our clients' long term success We have and will leverage our balance sheet strength through a disciplined approach to business opportunities New Zealand continue to be impacted by the COVID-19 event, and we continue to implement our strategy to selectively participate in the market with that disciplined approach

Events subsequent to balance date

There has not arisen in the interval between the end of the financial year and the date of this report any other item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the branch, to affect significantly the operations of the branch, the results of those operations, or the state of affairs of the branch in subsequent financial years

Indemnification of officers and auditors

The Board of General Re Corporation (incorporated in the USA) has, by resolution, provided indemnification to each of the Directors of the company, as per the By-Laws of General Re Corporation

The company has not otherwise during or since the end of the financial year, except to the extent permitted by law and noted above, indemnified or agreed to indemnify, an officer or auditor of the company or of any state body corporate against liability incurred as such an officer or auditor

Likely developments

There are no future developments in the normal operations of the branch that require comment in this report other than the comments made under the Review of Operations The directors do not consider there are any likely developments which will impact the operations of the branch

Environmental regulation

This branch is not subject to significant environmental regulation as the branch operates solely in the financial services sector

Disclosures

No disclosure has been made in respect of s211(1)(a) and (e) to (j) of the Companies Act 1993 following a unanimous decision by the shareholders in accordance with s211(3) of the Act

Acknowledgements

The Directors wish to place on record their appreciation of the support given to our branch by clients In addition, the Directors take this opportunity to formally thank management and staff for their efforts throughout the year

Approval
Signed in accordance with the resolution of Directors made pursuant to section 211(1)(k) of the Companies Act 1993

On behalf of the Directors

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

1 SUMMARY OF ACCOUNTING POLICIES

Statement of compliance

These general purpose financial statements cover General Reinsurance Australia Ltd – New Zealand Branch (the branch) The branch is domiciled in New Zealand, registered address at 55 Shortland Street, Auckland The branch is a FMC reporting entity under the Financial Markets Conduct Act 2013, and its financial statements comply with this Act and the Companies Act 1993

On 22 May 2013 the branch became an issuer as required by the Insurance (Prudential Supervision) Act 2010

The annual financial statements have been prepared in accordance with the Generally Accepted Accounting Practice in New Zealand ('NZ GAAP') They fully comply with the New Zealand Equivalents of International Financial Reporting Standards and other applicable Financial Reporting Standards as appropriate for profit-oriented entities ('NZ IFRS'). The financial statements also comply with International Financial Reporting Standards ('IFRS')

The accounting policies below have been applied in preparing the financial statements for the financial year ended 31 December 2021 and comparative information presented in these financial statements for the financial year ended 31 December 2020

The preparation of financial statements in conformity with NZ IFRS requires the use of certain critical accounting estimates It also requires management to exercise its judgement in the process of applying the branch's accounting policies The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements have been disclosed in Note 2

These financial statements are presented in New Zealand Dollars ($), which is the branch's functional currency All financial information presented in New Zealand Dollars has been rounded to the nearest thousands, except where otherwise indicated

The New Zealand Branch is part of General Reinsurance Australia Ltd (the company) which is incorporated in Australia The assets of the branch are legally available for the satisfaction of debts of the entire company, not solely those appearing on the accompanying Statement of Financial Position Its debts may result in claims against assets not appearing thereon

The financial statements were authorised for issue by the Directors on 25 March 2022

Basis of preparation

The financial report has been prepared in accordance with the historical cost convention, except for assets backing insurance liabilities which are stated at fair value and provisions for outstanding claims and related reinsurance recoveries which have been inflation adjusted and discounted as required by NZ IFRS 4 "Insurance Contracts"

Summary of significant accounting policies

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported There have been no significant changes to accounting policies during the financial year The following significant accounting policies have been adopted in the preparation and presentation of the financial report

(a) Outstanding claims

Provision is made for the estimated cost of all unsettled claims The provision includes an estimate, based on past experience, of the cost of unreported claims and their expected settlement costs The provision also includes a claims handling expense of 1% of the gross outstanding claims liabilities which is supported by analysis of the current level of the branch's Claims department expenses

The outstanding claims liability includes a margin that relates to the inherent uncertainty in the central estimate The margin has been actuarially determined based on past experience and industry practice to ensure realistic provisioning for outstanding claims

The outstanding claims liability includes the effect of inflation on the ultimate claim amount and is discounted using a risk free rate The details of discount rates applied is included in Note 3

(b) Outwards reinsurance

Premiums ceded to reinsurers are recognised as an expense in accordance with the recognition (or earning) pattern of reinsurance services rendered Accordingly, a portion of outward reinsurance premiums is treated as a prepayment at balance date, where appropriate

(c) Reinsurance and other recoveries receivable

Reinsurance and other recoveries receivable on paid and outstanding claims are recognised as revenue Recoveries are measured as the present value of the expected future receipts, calculated on the same basis as for the outstanding claims liability The company retrocession program currently retrocedes 20% of all risks written, plus an additional 1) 80% of Non Proportional Natural Catastrophe contracts, 2) 80% of Property Facultative policies where the company's exposure exceeds 25 million Australian Dollars, and 3) 30% Treaty Proportional Property contracts

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

1 SUMMARY OF ACCOUNTING POLICIES (continued)

(d) Premiums

Inward reinsurance premiums comprise amounts charged to the ceding company, excluding amounts collected on behalf of third parties The earned portion of premiums received and receivable is recognised as revenue in the Statement of Profit or Loss and Other Comprehensive Income over the period of indemnity Premiums in relation to unclosed business have been brought to account and are based on historical data

(e) Unearned premiums

Unearned premiums represents the portion of premiums that relate to the unexpired terms of contracts The unearned portion of premium is recognised as an unearned premium liability in the Statement of Financial Position

(f) Liability adequacy

At each reporting date, a liability adequacy test is performed on unearned premium reserves less related deferred acquisition costs to ensure that the carrying value is adequate, using current estimates of future cash flows, taking into account the relevant investment returns If that assessment shows that the carrying amount of the liabilities is inadequate, any deficiency is immediately recognised in profit or loss Related intangible assets and then deferred acquisition costs must be written down before recognising the deficiency as an unexpired risk liability The provision for unexpired risks is assessed in aggregate for business classes which are managed together

(g) Investments

Financial assets are classified at fair value through Profit or Loss Initial recognition and subsequent measurement is at fair value Unrealised gains and losses on subsequent measurement to fair value are recognised in the Statement of Profit or Loss and Other Comprehensive Income Fair value is determined as follows

Cash and cash equivalents are carried at face value of the amounts deposited or drawn The carrying amounts of cash and cash equivalents approximate to their fair value For the purposes of the Statement of Cash Flows, cash and cash equivalents include cash on hand

Fixed interest securities are carried at fair value represented by the quoted market value at balance date

(h) Assets backing insurance liabilities

The branch has determined that all assets are held to back general insurance liabilities on the basis that all assets of the branch are available for the settlement of claims if required

(i) Deferred acquisition costs

The branch adopts the practice of deferring to the following accounting period, expenses and levies directly related to premium income, in the same manner as unearned premium is calculated These are measured at the lower of cost and recoverable amount

(j) Foreign currency

Foreign currency transactions are translated to New Zealand currency at the rates of exchange ruling at the date of the transactions Amounts receivable and payable in foreign currencies are translated at the rates of exchange ruling at balance date Exchange differences relating to amounts payable and receivable in foreign currencies are brought to account in the Profit or Loss in the financial year in which the exchange rates change, as exchange gains or losses

(k) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period It is calculated using tax rates and tax laws that have been enacted or substantively enacted by balance date Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable)

Deferred tax

Deferred tax is accounted for using the comprehensive liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items In principle, deferred tax liabilities are recognised for all taxable temporary differences

Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities which affects neither taxable income nor accounting profit

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

1 SUMMARY OF ACCOUNTING POLICIES (continued)

(l) Receivables and revenue recognition

Receivables are recognised as follows

- Reinsurance premium receivables are recognised in accordance with NZ IFRS 4 "Insurance Contracts"
- Income receivable on financing and investment activities is accrued using the effective interest method
- The branch has adopted and applied the simplified model for expected credit losses ('ECLs') on receivables which are not recognised in accordance with NZ IFRS 4 "Insurance Contracts", by considering historically observed default rates and adjusting for forward-looking estimates
- Collectability of receivables is reviewed on an ongoing basis Debts which are known to be uncollectible are written off

(m) Accounts payable

These amounts represent liabilities for goods and services provided to the branch prior to the end of the financial year and which are unpaid The amounts are unsecured and are usually paid within thirty days of recognition

(n) Impairment of financial assets

All financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at each balance date The branch estimates and accounts for expected credit losses for all relevant financial assets not at fair value through profit and loss For financial assets carried at amortised cost, the impairment is calculated as a provision for ECLs The provision for ECLs is based on the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the original effective interest rate

Examples of evidence that may indicate a review of collectability are bankruptcy of counterparties, disputes with counterparties or non-collection for over 180 days

(o) Provision for employment entitlements

Provisions are recognised when the branch has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at balance date, taking into account the risks and uncertainties surrounding the obligation Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows They are discounted to their present value using a market-determined, risk-adjusted discount rate

Salaries and annual leave

Liabilities for salaries and annual leave are recognised, and are measured, as the net present value of expected future cash flows in respect of employees' services up to balance date

(p) Superannuation

The branch makes contributions on behalf of employees to their accumulation superannuation funds The contributions are recognised as an expense over the period of services provided by the employees

(q) Goods and services tax

Revenues, expenses, assets and liabilities are recognised net of the amount of applicable goods and services tax (GST), except

(i) where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the acquisition cost of an asset or as part of an item of expense, or

(ii) for receivables and payables which are recognised inclusive of GST

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables Cash flows are included in the Statement of Cash Flows on a gross basis The GST component of cash flows arising from investing and financing activities which is recoverable from or payable to the taxation authorities is classified as operating cash flows

(r) Leases

Branch as a lessee

The branch applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets The branch recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets

Right-of-use assets

The branch recognises right-of-use assets at the commencement date of the lease (i e , the date the underlying asset is available for use) Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

1 SUMMARY OF ACCOUNTING POLICIES (continued)

(r) Leases (continued)

Properties	Lesser of 10 years or term of lease

If ownership of the leased asset transfers to the branch at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset

The right-of-use assets are also subject to impairment

Lease liabilities

At the commencement date of the lease, the branch recognises lease liabilities measured at the present value of lease payments to be made over the lease term The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the branch and payments of penalties for terminating the lease, if the lease term reflects the branch exercising the option to terminate Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs

In calculating the present value of lease payments, the branch uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e g , changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset

Short-term leases and leases of low-value assets

The branch applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i e , those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option) It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term

(s) Accounting standards and interpretations issued but not yet effective

At the date of authorisation of the financial report, the following Standards and Interpretations, including those Standards or Interpretations issued by the IASB/IFRIC where an equivalent New Zealand Standard or Interpretation has not been approved, were on issue but not yet effective, and have not been applied in preparing the branch's financial statements Assessment of the impact of the initial application of these Standards is still to be completed and may have an impact on disclosures

Standard	*Effective for annual reporting periods beginning on or after*	*Expected to be initially applied in the financial year ending*
NZ IFRS 17 'Insurance Contracts'	1 January 2023	31 December 2023
Annual Improvement to NZ IFRS 2018-2020	1 January 2022	31 December 2022
Amendments to NZ IAS 1 and IFRS Practice Statement 2	1 January 2023	31 December 2023
Amendments to NZ IAS 8 - Definition of Accounting Estimates	1 January 2023	31 December 2023
Amendments to NZ IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 January 2023	31 December 2023

NZ IFRS 17 'Insurance Contracts'

In August 2017, the NZA SB issued NZ IFRS 17 Insurance Contracts (NZ IFRS 17), a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure Once effective, NZ IFRS 17 will replace NZ IFRS 4 that was issued in 2012 NZ IFRS 17 applies to all types of insurance contracts (i e , life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features A few scope exceptions will apply The overall objective of NZ IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers The core of NZ IFRS 17 is the general model, supplemented by

- A specific adaptation for contracts with direct participation features (the variable fee approach), which will not be used by the company
- A simplified approach (the premium allocation approach) mainly for short-duration contracts, generally less than 12 months

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

1 SUMMARY OF ACCOUNTING POLICIES (continued)

(s) Accounting standards and interpretations issued but not yet effective (continued)

Since the standard was issued, various implementation matters have been raised by stakeholders and the International Accounting Standards Board (IASB) The External Reporting Board issued amendments to the standard during August 2020 aimed to ease the implementation burden and is effective for reporting periods beginning on or after 1 January 2023, with comparative figures required Early application is permitted, provided the entity also applies NZ IFRS 9 on or before the date it first applies NZ IFRS 17 The company is currently determining the transition approach which will be applied for NZ IFRS 17, and the ongoing impact of adopting this standard is being assessed

Implementation progress

An implementation project has been established globally to which local involvement is focused on items relevant to the Australian and New Zealand markets Specific accounting policies determined and implemented into the data transition, calculation engines, and reporting tools have been selected The Company is responding to all requests for information from regulators as required

Financial impact

While the change in accounting standards will significantly impact the disclosures and layout of the financial statements, the current communication from regulators is generally that capital adequacy and risk based capital calculations will be recalibrated to result in the same overall capital requirements

While many of the impacts expected from the change in accounting standards are known and understood in principle, final communication from regulators, industry bodies, and taxation authorities is required to quantify their impact The company is currently working through such assessments as information is received, any identified risk areas will be addressed prior to implementation Therefore, the financial impact of NZ IFRS17 cannot be reasonably estimated at this time

Annual Improvement to NZ IFRS 2018-2020

Amends numerous Standards to effect a number of minor changes, as set out below The amendments apply to annual reporting periods beginning on or after 1 January 2022

- NZ IFRS 9 *Financial Instruments* to clarify that in applying the '10 per cent' test to assess whether to derecognise a financial liability, and entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf
- NZ IFRS 16 *Leases* to amend Illustrative Example 13 to remove the illustration of the reimbursement of leasehold improvement by the lessor

It is expected that these amendments will not have any material impact on the financial statements

Amendments to NZ IAS 1 and IFRS Practice Statement 2

The amendments include

- NZ IAS 1 *Presentation of Financial Statements,* to require entities to disclose their material accounting policy information rather than their significant accounting policies
- *IFRS Practice Statement 2 Making Materiality Judgements*, to provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures

Except for the amendments to IFRS Practice Statement 2, the amendments are effective for annual periods beginning on or after 1 January 2023 It is expected that these amendments will not have any material impact on the financial statements

Amendments to NZ IAS 8 - Definition of Accounting Estimates

The amendment to NZ IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* clarifies how entities should distinguish changes in accounting policies and changes in accounting estimates The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period

It is expected that this amendment will not have any material impact on the presentation of the financial statements

Amendments to NZ IAS 12 - Deferred Tax related to Assets and Liabilities arising from a Single Transaction

Amends NZ IAS 12 Income Taxes to specify how companies should account for deferred tax on transactions such as leases The amendment applies to annual reporting periods beginning on or after 1 January 2023

In specified circumstances, companies are exempt from recognising deferred tax when they recognise assets or liabilities for the first time The amendment clarifies that the initial recognition exception does not apply to transactions where both the asset and liability are recognised in a single transaction Accordingly, deferred tax is required to be recognised on such transactions

On application of the amendments, deferred tax amounts will be recognised in respect if each separate part of the overall transaction, e g in respect of each of the right-of-use asset and lease liability The assessment of the impact of this change in accounting policy has not been finalised, be it is expected the total impact on net assets will not be material

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

2 CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES

The branch makes estimates and assumptions in respect of certain key assets and liabilities Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances The key areas in which critical estimates are applied are described below

The ultimate liability arising from claims made under insurance contracts

Provision is made at the year-end for the estimated cost of claims incurred but not settled at the balance date, including the cost of claims incurred but not yet reported ('IBNR') to the branch

The estimated cost of claims includes direct expenses to be incurred in settling the claims gross of the expected value of salvage and other recoveries The branch takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different from the original liability established

The estimation of IBNR is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the branch, where more information about the claim event is generally available IBNR claims may often not be apparent to the insured until many years after the events giving rise to the claims have happened Allowance is made, however, for changes or uncertainties which may create distortions in the underlying statistics or which might cause the cost of unsettled claims to increase or reduce when compared with the cost of previously settled claims including

- Changes in branch processes which might accelerate or slow down the development and/or recording of paid or incurred claims, compared with the statistics from previous periods
- Changes in the legal environment
- The effects of inflation
- Changes in the mix of business
- The impact of large losses
- Movements in industry benchmarks
- Medical and technological developments

A component of these estimation techniques is usually the estimation of the cost of notified but unpaid claims In estimating the cost of these, the branch has regard to the claim circumstance as reported, and information about the cost of settling claims with similar characteristics in previous periods

Large claims impacting each relevant business class are generally assessed separately, being measured on a case by case basis or projected separately in order to allow for the possible distortive effect of the development and incidence of these large claims

Provisions are calculated gross of any reinsurance recoveries A separate estimate is made of the amounts that will be recoverable from reinsurers based upon the gross provisions Details of the specific assumptions used in deriving the liability for outstanding claims liability at year end are detailed in Note 3

Assets from reinsurance contracts

Assets arising from reinsurance contracts are also computed using the above methods In addition, the recoverability of these assets is assessed on a periodic basis to ensure the balance is reflective of the amounts that will ultimately be recovered All reinsurance contracts are with the parent company and the recoverability of such assets is not considered to be impaired by any counterparty or credit risk

Determining the lease term of contracts with renewal and termination options

The branch determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised

The branch's lease contract includes extension and termination options The branch applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination After the commencement date, the branch reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate

Leases - Estimating the incremental borrowing rate

The branch cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities The IBR is the rate of interest that the branch would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment The IBR therefore reflects what the branch 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease The branch estimates the IBR using observable inputs when available and is required to make certain entity-specific estimates

Recoverability of deferred tax assets

Determining whether deferred tax assets are recognised requires an estimation of future taxable profits against which the assets can be released This estimation process is based on relevant available information pertaining to the business and the exercise of management judgement

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

2 CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

Recognition therefore involves judgements and estimations regarding the future financial performance of the company and reflects a prudent regard, where considered appropriate, for the inherent uncertainties associated with making such estimations and judgements in relation to deferred tax assets

3 ACTUARIAL ASSUMPTIONS AND METHODS

The branch writes Facultative and Treaty (both proportional and non-proportional) reinsurance covers for Property and Casualty lines of business, and Treaty Marine business

The Appointed Actuary is Nina Xiao, a Fellow of the Institute of Actuaries of Australia The Appointed Actuary is satisfied as to the nature, sufficiency and accuracy of the data upon which policy liabilities have been determined

Weighted average reporting time

This is not a reserving assumption, but it does provide an indication of the speed at which claims are assumed to be reported For the branch's major categories of business, weighted by expected ultimate premiums for the underwriting year, these were (in years)

	2021	2020
Proportional, Property & Marine	1 22	1 19
Proportional, Casualty	3 92	3 92
Non-proportional, Property & Marine	0 95	0 96
Non-proportional, Casualty	4 88	4 95

Run-off loss ratios

These were selected having regard to emerging experience for older underwriting years and to the pricing levels and conditions achieved in more recent underwriting years (where experience to date may not yet be sufficiently reliable, particularly for long-tailed lines of business) Loss ratio selection for the latest underwriting years also considered both direct and indirect impact of COVID-19 on the relevant lines of business implicitly

Expense rate

A 1% loading for claims handling expenses is supported by analysis of the current level of the branch's Claims department expenses applied to the reserves and duration of unpaid liabilities

Discount rate

The discount rates were based on market yields on New Zealand Government securities as at balance date and varied according to the expected year of payment of the claims liabilities The weighted average discount rate on a gross basis was 1 22% (2020 0 54%)

Sensitivity analysis

The sensitivity of the branch's profit and equity to key valuation assumptions is tabulated below

2021		Underwriting profit before retrocessions $'000		Net Profit $'000	Equity $'000
Recognised amount per Financial Statements		5,043	*	10,249	57,910
Variable	**Movement in variable**				
Run-off	+ 10 0%	336		7,816	55,477
Loss Ratios	- 10 0%	9,656		12,643	60,304
Expense	+ 0 5%	4,448		9,849	57,510
Rate	- 0 5%	5,637		10,648	58,309
Discount	+ 1 0%	8,542		11,931	59,592
Rate	- 1 0%	1,278		8,426	56,087
2020					
Recognised amount per Financial Statements		24,887	*	13,373	47,661
Variable	**Movement in variable**				
Run-off	+ 10 0%	20,341		10,774	45,062
Loss Ratios	- 10 0%	29,417		15,963	50,251
Expense	+ 0 5%	24,412		13,054	47,342
Rate	- 0 5%	25,362		13,692	47,980
Discount	+ 1 0%	27,743		15,055	49,343
Rate	- 1 0%	21,805		11,557	45,845

* Net underwriting profit/(loss) less Outwards reinsurance expense and Reinsurance and other recoveries from the Statement of profit or loss and other comprehensive income

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

3 ACTUARIAL ASSUMPTIONS AND METHODS (continued)

Covid-19

A detailed analysis of the branch's potential exposures to COVID-19 was conducted and no direct exposure was identified Consequently, there is no explicit outstanding claims central estimate in addition to run-off loss ratio selection considerations The company will continue to monitor claims and other related developments to ensure the reserving assumptions remain appropriate

Risk margin

There are many sources of uncertainty as to the eventual values of outstanding claims, including but not restricted to quality of data used in the valuation, appropriateness of the valuation model and assumptions, impact of past legislative reform, future legislative changes, and future economic and environmental factors A risk margin increases the company's reserves to a level that is intended to have a 75% probability of adequacy The risk margin analysis was updated last year to be more based on qualitative assessment of the uncertainty relating to the company's underlying exposures and closer aligned with industry benchmarking Risk margins were maintained this year other than small adjustments to certain lines of business to reflect changed COVID-19 uncertainty or specific treaty circumstances The assumptions regarding uncertainty for each line of business were applied to the central estimates, and the results were aggregated, allowing for diversification between different lines of business The risk margins on a gross basis applied to the company's major categories of business were

	2021	2020
Proportional, Property & Marine	13 4%	11 3%
Proportional, Casualty	15 6%	15 6%
Non-proportional, Property & Marine	16 1%	16 1%
Non-proportional, Casualty	21 1%	21 1%

4 RISK MANAGEMENT POLICIES AND PROCEDURES

Insurance contracts – Risk management policies and procedures

The financial condition and operation of the branch are affected by a number of key risks including insurance risk, credit risk, market risk, liquidity risk, compliance risk and operational risk Notes on the branch's policies and procedures in respect of managing these risks are set out in this note

Objectives in managing risks arising from insurance contracts and policies for mitigating those risks

Risk management that is completed at the company level is also applicable at the branch

The company has an objective to control insurance risk thus minimising substantial unexpected losses that would expose the branch to a loss of capital

The Board and senior management of the company have developed, implemented and maintain a sound and prudent Internal Capital Adequacy Assessment Process (ICAAP), Risk Management Strategy (RMS) and a Risk Appetite Statement (RAS)

The ICAAP and RMS identify the company's policies and procedures, processes and controls that comprise its risk management and control systems These systems address all material risks, financial and non-financial, likely to be faced by the company Annually, the Board

- Reviews and approves the company's RAS,
- Reviews and approves the company's RMS, ICAAP and REMS, and assesses their effectiveness, and
- Certifies that adequate strategies are in place to monitor those risks, and that the company has systems in place to ensure compliance with legislative and prudential requirements

Key aspects of the processes established in the RMS to mitigate risks include

- The maintenance and use of sophisticated management information systems, which provide up to date, reliable data on the risks to which the business is exposed at any point in time
- Actuarial models, using information from the management information systems, are used to calculate premiums and monitor claims patterns Past experience and statistical methods are used as part of the process
- Documented procedures are followed for underwriting and accepting reinsurance risks
- Reinsurance programmes are structured to adequately protect the solvency and capital position Each year, as part of setting the coming year's reinsurance cover, comprehensive modelling of event probability and amount of exposure is undertaken under a range of scenarios
- The branch's investment portfolio is managed with respect to key criteria such as the average duration and credit quality
- The mix of assets in which the branch invests is driven by the nature and term of insurance liabilities The management of assets and liabilities is closely monitored to attempt to match the maturity dates of assets with the expected pattern of claim payments
- The diversification of business over classes within the reinsurance portfolio, separate geographical segments and large numbers of uncorrelated individual risks also reduce variability in loss experience

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

4 RISK MANAGEMENT POLICIES AND PROCEDURES (continued)

Objectives in managing risks arising from insurance contracts and policies for mitigating those risks (continued)

Financial risks

Financial risks are controlled by the majority of investments being in government bonds in the same currency and similar duration as the underlying policy liabilities, the balance of investments being held in cash assets This significantly reduces any interest rate, currency, credit and liquidity risk that the branch may incur

(a) Interest rate risk

Fixed interest rate instruments expose the branch to fair value interest rate risk The branch's risk management approach is to minimise interest rate risk by actively managing investment portfolios The company invests in high quality, liquid interest-bearing bonds and cash and actively manages the duration of the fixed interest portfolio The claims provision is discounted to present value by reference to risk-free interest rates therefore exposed to potential underwriting result volatility as a result of interest rate movements

(b) Credit risk

Financial assets or liabilities arising from insurance and reinsurance contracts are stated in the Statement of Financial Position at the amount that best represents the maximum credit risk exposure at balance date There are no significant concentrations of credit risk

(c) Foreign currency risk

The branch undertakes transactions denominated in foreign currencies, consequently, exposures to exchange fluctuations arise Exchange rate exposures are managed by matching assets and liabilities as closely as possible by currency for the branch

(d) Terms and conditions of reinsurance business

The terms and conditions attaching to reinsurance contracts affect the level of insurance risk accepted by the branch All reinsurance contracts are subject to pre-determined capacity limits and underwriting guidelines and authorities There are no special terms and conditions in any non-standard contracts that have a material impact on the financial statements Reinsurance contracts written in Australia and New Zealand are subject to substantially the same terms and conditions

(e) Concentration of insurance risk

The branch's exposure to concentrations of insurance risk is mitigated by a portfolio diversified into two major classes of business (Treaty and Facultative) written out of New Zealand The portfolio is controlled and monitored through the company's Risk Appetite Statement, Risk Management Strategy and Framework This includes identifying and mitigating the concentrations of insurance risk by reviewing the type of insured event and also the geographical area of the risk

Non-financial risks

Non-financial risks are controlled through the use of

i) claims management procedures and authorities
ii) product development/review procedures and authorities
iii) treaty underwriting procedures and authorities
iv) underwriting and claim peer reviews of clients
v) charging adequate premium rates for the business
vi) quarterly monitoring of profitability overall and by client
vii) reinsurance agreement terms and conditions

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

5 PROFIT FROM ORDINARY ACTIVITIES

Profit from ordinary activities has been arrived at after including	2021 $'000	2020 $'000
(a) Revenues from operating activities		
General insurance revenue		
Gross written premiums	40,525	26,735
Movement in unearned premiums	(2,203)	(949)
Premium revenue	38,322	25,786
Outwards reinsurance expense	(24,621)	(11,075)
Net premium revenue	**13,701**	**14,711**
(b) Included in general and administration expenses are:		
- Expenses of management	(3,416)	(1,096)
- Foreign exchange gains	141	33
- Lease expenses	(50)	(62)
- Depreciation and amortisation	-	(19)
	(3,325)	**(1,144)**

(c) Net claims incurred	Current year $'000	Prior years $'000	Total $'000
2021			
Gross claims incurred and related expenses	(26,437)	(1,707)	(28,144)
Claims handling expenses	(269)	53	(216)
Reinsurance and other recoveries	23,524	7,278	30,802
Net claims incurred - undiscounted	**(3,182)**	**5,624**	**2,442**
Discount movement			
- gross claims incurred	717	1,394	2,111
- reinsurance and other recoveries	(440)	(310)	(750)
Net discount movement	**277**	**1,084**	**1,361**
Risk margin movement			
- gross claims incurred	(4,387)	1,124	(3,263)
- reinsurance and other recoveries	3,806	475	4,281
Net risk margin movement	**(581)**	**1,599**	**1,018**
Net claims incurred	**(3,486)**	**8,307**	**4,821**
2020			
Gross claims incurred and related expenses	(6,807)	10,489	3,682
Claims handling expenses	(73)	187	114
Reinsurance and other recoveries	4,426	(544)	3,882
Net claims incurred -undiscounted	**(2,454)**	**10,132**	**7,678**
Discount movement			
- gross claims incurred	(442)	(978)	(1,420)
- reinsurance and other recoveries	87	39	126
Net discount movement	**(355)**	**(939)**	**(1,294)**
Risk margin movement			
- gross claims incurred	1,057	(4,803)	(3,746)
- reinsurance and other recoveries	427	1,987	2,414
Net risk margin movement	**1,484**	**(2,816)**	**(1,332)**
Net claims incurred	**(1,325)**	**6,377**	**5,052**

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

5 PROFIT FROM ORDINARY ACTIVITIES (continued)

(d) Net investment loss	**2021 $'000**	**2020 $'000**
Interest	495	1,081
Changes in fair values	(1,405)	(2,284)
Expenses	(44)	(49)
	(954)	(1,252)

(e) Remuneration of auditors and directors

Audit fees and Directors' emoluments are borne as part of head office overheads and are not separately charged to the New Zealand Branch, but rather included in the overall recharge

The auditor of the branch is Deloitte Touche Tohmatsu, Australia

6 INCOME TAX

(a) Income tax expense	**2021 $'000**	**2020 $'000**
Tax expense comprises:		
Current tax expense that relates to current year	(3,013)	(5,770)
Current tax expenses relating to prior years' over provision	-	-
Deferred tax expense relating to temporary differences	(539)	161
Deferred tax expense relating to prior years' over provision	-	-
Income tax (expense)/benefit relating to gain from ordinary activities	(3,552)	(5,609)

The prima facie income tax expense on the pre-tax accounting profit reconciles to the income tax expense shown in the Statement of Profit or Loss and Other Comprehensive Income, as follows

	2021	2020
Profit/(loss) before income tax	13,801	18,982
Income tax (expense)/benefit calculated at 28% (2020 28%) of operating profit	(3,864)	(5,315)
Adjustment for Permanent differences		
- Non-deductible entertainment expense	(1)	(1)
- Realised and unrealised exchange loss with Home Office	313	(293)
Prior years' over provision	-	-
Total income tax benefit/(expense)	(3,552)	(5,609)

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

6 INCOME TAX (CONTINUED)

(b) Deferred tax

	2021 $'000	2020 $'000
At 31 December the deferred tax asset comprises:		
Temporary differences	613	1,150

The Directors have recognised a deferred tax asset on the basis of forecasts showing that there will be future taxable profits in the future for these to be utilised against

	Opening balance $'000	Transfers not charged to income $'000	Charged to income $'000	Closing balance $'000
2021 Temporary differences				
Unrealised foreign exchange differences	161	-	(534)	(373)
Accruals and other liabilities	327	-	67	394
Tax losses carried forward	-	-	-	-
Insurance provisions	658	-	(66)	592
Total temporary differences	1,146	-	(533)	613
2020 Temporary differences				
Unrealised foreign exchange differences	(307)	-	468	161
Accruals and other liabilities	396	-	(69)	327
Tax losses carried forward	10	-	(10)	-
Insurance provisions	890	-	(232)	658
Total temporary differences	989	-	157	1,146

No losses of General Reinsurance Australia Ltd - New Zealand Branch were transferred to General Reinsurance Life Australia Ltd – New Zealand Branch during the year (2020 $NIL)

7 CASH AND CASH EQUIVALENTS

	2021 $'000	2020 $'000
Cash on hand and at bank	11,574	17,229
Cash on deposit	52	68
Total cash and cash equivalents	11,626	17,297

8 RECEIVABLES

Premiums receivable	10,566	8,555
Less Provision for doubtful debts	(201)	(146)
Total receivables	10,365	8,409

All balances are expected to be realised within 12 months

9 REINSURANCE RECOVERABLE

Reinsurance recoverable on paid losses	-	1,059
Reinsurance recoverable on unpaid losses	45,180	13,054
Total reinsurance recoveries	45,180	14,113
Reconciliation of reinsurance recoverable on unpaid losses		
Balance as at 1 January	13,054	7,310
Foreign currency revaluation	(2,207)	(678)
Movement in incurred recoveries	31,326	5,491
Less reinsurance recoveries received	3,007	931
Balance as at 31 December	45,180	13,054

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

9 REINSURANCE RECOVERABLE (CONTINUED)

	2021 $'000	2020 $'000
Reinsurance recoverable at 31 December		
Expected to be realised within 12 months	10,629	14,113
Expected to be realised in more than 12 months	34,551	-
	45,180	**14,113**

10 OTHER ASSETS

	2021 $'000	2020 $'000
Deferred acquisition costs (see note 22)	22	-
Sundry assets	-	2
Due from related entities		
- General Reinsurance Corporation	696	-
- General Reinsurance Australia	30,426	4,397
Total other assets	**31,144**	**4,399**
Expected to be realised within 12 months	31,144	4,399
Expected to be realised in more than 12 months	-	-
	31,144	**4,399**

11 INVESTMENTS

	2021 $'000	2020 $'000
Insurance activities, at fair value.		
Fixed interest securities	**69,030**	**93,832**

12 RIGHT-OF-USE ASSETS

	2021 $'000	2020 $'000
Carrying value of:		
Properties	**175**	**218**
Net carrying amount		
Balance at 1 January	218	215
Effect of adoption of NZ IFRS 16 'Leases'	-	-
Adjustment to Opening Balance	-	46
Balance at 1 January (adjusted)	**218**	**261**
Depreciation expense	(43)	(43)
Balance at 31 December	**175**	**218**

13 OUTSTANDING CLAIMS AND UNEARNED PREMIUMS

	2021 $'000	2020 $'000
Outstanding claims		
Gross outstanding claims	83,145	63,995
Discount to present value	(3,176)	(1,065)
Risk margin	14,655	11,391
Liability for outstanding claims	**94,624**	**74,321**
Reconciliation of outstanding claims		
Balance at start of year	74,321	77,966
Foreign currency revaluations	(94)	183
Change in discount to present value	(2,111)	1,420
Change in risk margin	3,265	3,745
Claims paid	(6,069)	(5,197)
Movement in incurred claims	25,312	(3,796)
Balance at end of year	**94,624**	**74,321**

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

13 OUTSTANDING CLAIMS AND UNEARNED PREMIUMS (continued)

	2021 $'000	2020 $'000
Outstanding claim liabilities at 31 December		
Expected to be paid within 12 months	21,892	20,010
Expected to be paid in more than 12 months	72,732	54,311
	94,624	**74,321**
The following average discount rates were used in the measurement of outstanding claims	1 22%	0 54%

The weighted average term to settlement for the outstanding claims provisions which have been subject to discounting is approximately 3 21 years (2020 – 3 17 years)

Net undiscounted central estimate of ultimate claims

	2013 $M	2014 $M	2015 $M	2016 $M	2017 $M	2018 $M	2019 $M	2020 $M	2021 $M	**Total $M**
Estimate of net ultimate claims cost:										
At end of accident year	12	16	8	12	5	7	23	5	10

20 FINANCIAL INSTRUMENTS

(a) Credit Risk Exposure

Financial assets or liabilities arising from insurance and reinsurance contracts are stated in the Statement of Financial Position at the amount that best represents the maximum credit risk exposure at balance date There are no significant concentrations of credit risk

(b) Interest Rate Risk

The branch's exposure to interest rate risk is managed through adjustments to the investment portfolio The branch's exposure to interest rate risk and the effective weighted average interest rate for each class of financial assets and liabilities is set out below in section (j)

(c) Net fair value of financial assets and liabilities

The net fair value of cash and cash equivalents and non-interest bearing monetary financial assets and financial liabilities of the branch approximates to their carrying value The net fair value of other monetary financial assets and financial liabilities is based upon market prices

(d) Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed in note 1 of the financial statements

(e) Capital risk management

The company manages its capital to ensure that on a legal entity level it meets regulatory solvency requirements and it will continue operating as a going concern

The capital structure of the branch consists of Cash and cash equivalents (as disclosed in Note 7) and Equity, comprising Head Office Account and Retained Earnings (as disclosed in the Statement of Changes in Equity)

The company's capital is managed through its ICAAP The ICAAP is reviewed internally on an annual basis Independent reviews are performed every three years

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

20 FINANCIAL INSTRUMENTS (continued)

(f) Categories of financial instruments

	Note	2021 $'000	2020 $'000
Financial assets			
Cash and cash equivalents	7	11,626	17,297
Financial assets at fair value through profit or loss *(i)*			
Fixed interest securities	11	69,030	93,832
Loans and receivables			
Other assets	10	696	-
Financial liabilities			
Amortised cost			
Other payables	15	3,751	9,083

(i) Financial assets carried at fair value through profit or loss have been designated as such upon initial recognition None of the receivables are designated as 'fair value through profit or loss'

(g) Financial risk management objectives

It is ultimately the responsibility of the Board to ensure that there is an effective risk management control framework in place Consistent with regulatory requirements the board has explicitly allocated to the Managing Director, the function of overseeing the establishment and maintenance of risk-based systems and controls across the branch The Chief Risk Officer (CRO) reviews, monitors and reports on the RMS to the Managing Director and the Board Risk Committee

As part of the overall governance framework the Board and senior management of the company have developed, implemented and maintain the RMS and REMS The RMS and REMS identify the company's policies and procedures, processes and controls that comprise its risk management and control systems These systems address all material risks, financial and non-financial, likely to be faced by the company The Board declares to the Reserve Bank of New Zealand that adequate strategies have been put in place to monitor those risks, that the company has systems in place to ensure compliance with legislative and prudential requirements and that the Board has satisfied itself as to compliance with the RMS and REMS

(h) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the branch The branch has adopted the policy of only dealing with creditworthy cedants and bondholders as a means of mitigating the risk of financial loss from defaults The branch's overall strategy in respect of credit risk management remains unchanged from 2020

(i) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting its obligations under the reinsurance contracts it has entered into Ultimate responsibility for liquidity risk management rests with the Board of directors, which has implemented appropriate liquidity risk management framework for the management of the branch's short, medium and long-term funding and liquidity management requirements The branch manages liquidity risk by maintaining appropriate levels of financial assets that are readily realisable and by continuously monitoring forecast and actual cash flows in order to match the maturity profiles of assets and liabilities The company has developed and implemented a Risk Management Strategy The company's overall strategy in liquidity risk management remains unchanged from 2020

The following tables summarise the maturity profile of the branch's financial liabilities The tables have been drawn up on the basis of undiscounted cash flows of financial liabilities based on the earliest date on which the branch can be required to pay

The tables below include both interest and principal cash flows

	Weighted average interest rate	Less than 1 year	1-5 years	5+ years	Total
2021	**%**	**$'000**	**$'000**	**$'000**	**$'000**
Financial liabilities

	-	**29,093**	**54,311**	-	**83,404**

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

20 FINANCIAL INSTRUMENTS (continued)

(j) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices Market risk comprises three types of risk foreign exchange (currency risk), market interest rates (interest rate risk) and market prices (price risk) The company has put in place policies and procedures to mitigate its exposure to market risk There has been no change to the branch's exposure to the different elements of market risk or the manner in which it manages and measures these risks

Interest rate risk management

The branch's activities expose it to the financial risk of changes in interest rates Fixed interest rate instruments expose the branch to interest rate risk The company's Investment Manager closely monitors the branch's exposures to interest rate risk The branch's exposure to interest risk is managed through adjustment to the investment portfolio

The branch's exposures to interest rates on financial liabilities are detailed in the liquidity risk section of this note

	Weighted average interest rate	Less than 1 year	1-5 years	5+ years	Total
2021	**%**	**$'000**	**$'000**	**$'000**	**$'000**

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

20 FINANCIAL INSTRUMENTS (continued)

(j) Market risk (continued)

Foreign currency risk management and sensitivity analysis

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates

The branch's financial assets are primarily denominated in the same currencies as its reinsurance contract liabilities The branch's overall strategy in respect of foreign currency risk management remains unchanged from 2020

The exposure to Australian dollars on reinsurance liabilities net of the corresponding retrocession recoveries are as follows

	2021 $'000	2020 $'000
Exposure to Australian dollars at 31 December	76,744	3,385
Unrealised gain/(loss) from a 10% change in foreign exchange rates	7,674	339

Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date Fair value measurements assume the asset or liability is exchanged in an orderly manner, that the exchange is in the principal market for that asset or liability (or in the most advantageous market when no principal market exists), and the market participants are independent, knowledgeable, able and willing to transact an exchange Non-performance risk (credit risk) is considered in valuing liabilities The carrying value of the branch's cash and cash equivalents, receivables, other assets, all insurance related balances and accounts payable, accruals and other liabilities are deemed to be reasonable estimates of their fair value

Investments

The estimated fair values for fixed maturity securities in the Statement of Financial Position were generally based on quoted market prices

A framework exists for measuring fair values using a hierarchy for observable independent market inputs and unobservable market assumptions The hierarchy consists of three levels, ranging from the category deemed to be most reliable to a category where fair value is measured using significant unobservable inputs because of the lack of observable market prices for the instrument, or Levels 1 through 3, respectively A description of the inputs used in the valuation of assets and liabilities under the three levels follows

- Level 1 – Inputs represent unadjusted quoted prices for identical assets or liabilities exchanged in active markets
- Level 2 – Inputs include directly or indirectly observable inputs other than Level 1 inputs such as quoted prices for similar assets prices for similar assets or liabilities exchanged in active or inactive markets, quoted prices for identical assets or liabilities exchanged in inactive markets, other inputs that are considered in fair value determinations of the assets or liabilities, such as interest rates and yield curves that are observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates and inputs that are derived principally from or corroborated by observable market data by correlation or other means Fair values for the branch's investments in fixed maturity securities are primarily based on market prices and market data available for instruments with similar characteristics since active markets are not common for many instruments Pricing evaluations are based on yield curves for instruments with similar characteristics such as credit rating, estimated duration and yields for other instruments of the issuer or entities in the same industry sector

- Level 3 – Inputs include significant unobservable inputs used in the measurement of assets and liabilities Management is required to use its own assumptions regarding unobservable inputs because there is little, if any, market activity in the assets or liabilities or related observable inputs that can be corroborated at the measurement date Measurements of non-exchange traded derivative contracts and certain other investments carried at fair value are based primarily on valuation models, discounted cash flow models or other valuation techniques that are believed to be used by market participants Unobservable inputs require management to make certain projections and assumptions about the information that would be used by market participants in pricing assets or liabilities

Financial assets and liabilities

Financial assets and liabilities measured at fair value in the financial statements as at 31 December 2021 and 2020 are summarised in the following table by the type of inputs applicable to the level of the fair value measurement (in thousands)

2021	Level 1 $'000	Level 2 $'000	Level 3 $'000	Total $'000
Fixed maturity bonds				
Obligations of the New Zealand Government	69,030	-	-	69,030

There were no transfers between Level 1 and Level 2 during the period

2020				
Fixed maturity bonds				
Obligations of the New Zealand Government	93,832	-	-	93,832

NOTES TO THE FINANCIAL REPORT

FOR THE YEAR ENDED 31 DECEMBER 2021

21 AUSTRALIAN PRUDENTIAL REGULATION AUTHORITY ("APRA") CAPITAL ADEQUACY

These are amounts required to meet the prudential standards specified by the Insurance (Prudential Supervision) Act 2010 (the "Act") to provide protection to the policy owners against the impact of fluctuations and unexpected adverse experience of the business

On 22 May 2013 the company was issued with a full License under the Act The license includes an exemption under s59 of the Act allowing the company to calculate and report its solvency position in accordance with the regulatory requirements of its home jurisdiction

The company is required to maintain its APRA solvency margin and to notify the RBNZ if it carries on insurance business in New Zealand that is not reinsurance The company has complied with all externally imposed capital requirements throughout the year

	2021 AU$'000	2020 AU$'000
Capital base/Common Equity Tier 1 Capital		
Net assets	378,708	345,530
Premium liability surplus/(deficit)	4,526	(2,048)
Deferred tax assets	(6,611)	(10,207)
Reinsurance assets receivable not meeting governing law requirements	(211)	(388)
	376,412	**332,887**
Prescribed Capital Amount (PCA)

Insurance Concentration Risk Charge	64,778	57,440
Asset Risk Charge	18,145	21,874
Operational Risk Charge	6,732	7,201
Less Aggregation Benefit	(13,367)	(15,761)
	144,916	**140,169**
Capital in excess of PCA	**231,496**	**192,718**
PCA coverage ratio	**2.5975**	**2.3749**

General Reinsurance Australia Ltd has an "AA+" credit rating from Standard and Poor's as at 31 December 2021

The company has complied with all externally imposed capital requirements throughout the year

22 LIABILITY ADEQUACY TEST

The liability adequacy test (LAT) is used to assess the sufficiency of the unearned premium liability to cover all expected future cash flows relating to future claims against in-force insurance contracts If the unearned premium liability less related deferred acquisition costs exceeds the present value (PV) of expected future cash flows plus additional risk margin then the unearned premium liability is deemed to be adequate The LAT is carried out on each portfolio of contracts in line with APRA's reporting categories, which each cover broadly similar risks

Future claims assumptions, including risk margins, used in the LAT are on a basis consistent with the COVID-19 considerations and assumptions for the outstanding claims liability and subject to the same uncertainties

The following table details the value of the expected future income/expenditure items arising from in-force contracts

	2021 $'000	2020 $'000
PV of expected future cash flows for future claims		
Central estimate of PV of expected future cash flows	(18 309)	(16,588)
Risk margin	(4,978)	(4,591)
	(23,287)	**(21,179)**
Risk margin	**27%**	**28%**
At probability of adequacy	**75%**	**75%**

The branch is part of a company which operates as a for profit unlisted public company in Australia

24 EVENTS SUBSEQUENT TO BALANCE DATE

There were no events subsequent to balance date

Independent Auditor's Report to the Shareholders of General Reinsurance Australia Ltd. - New Zealand Branch

Opinion

We have audited the financial statements of General Reinsurance Australia Ltd. - New Zealand Branch (the "Branch") which comprise the statement of financial position as at 31 December 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies as set out on pages 10 to 15.

In our opinion, the accompanying financial statements present fairly, in all material respects, the Branch's financial position as at 31 December 2021 and its financial performance and its cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the Branch in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)(IESBA Code)*, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Other than in our capacity as auditor, we have no relationship with or interests in the Branch except that partners and employees of our firm deal with the Branch on normal terms within the ordinary course of trading activities of the business of the Branch.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – New Zealand Branch

The New Zealand branch is part of General Reinsurance Australia Ltd., which is incorporated in Australia. As described in Note 1, the assets of the branch are legally available for the satisfaction of debts of General Reinsurance Australia Ltd, not solely those appearing on the accompanying statement of financial position and its debts may result in claims against assets not appearing thereon. Our opinion is not qualified in respect of this matter.

Deloitte.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<table>
<tr><th>Key Audit Matter</th><th>How the scope of our audit responded to the Key Audit Matter</th></tr>
<tr><td>Valuation of outstanding claims

As at 31 December 2021 Valuation of outstanding claims totalled NZ$ 94,624 (in thousands).

Refer to notes 1(a), 3 and 13 to the financial statements, which also disclose the elements that make up the balance.

Provision for outstanding claims is made for the estimated cost of all unsettled claims. The provision includes an estimate, based on past experience, of the cost of unreported claims and their expected settlement costs. These estimates and assumptions which are evaluated by management include:

• discount rate;
• run-off loss ratios;
• risk margins; and
• expense rates.

This was a key audit matter due to the size of the balance (being 85.8% of total liabilities), and the specific audit and actuarial expertise required to evaluate the judgemental actuarial methodologies and assumptions.</td><td>Our audit procedures included, but were not limited to:

• testing the design and implementation of relevant controls put in place by the management over the claims reserving process;
• assessing the appropriateness of estimates and judgement, valuation methodologies, processes and models with respect to actuarial and relevant accounting standards;
• assessing key actuarial assumptions such as discount rate, run-off loss ratios, risk margins, and expense rates by comparing them to experience studies performed by management and with our expectations based on our own industry knowledge;
• testing valuation spreadsheet calculations on a sample basis;
• testing underlying data of valuation spreadsheets on a sample basis;
• assessing documentation of model integrity reconciliations; and
• assessing the appropriateness of the disclosures in the notes to the financial statements.</td></tr>
</table>

Other Information

The Directors on behalf of the Branch are responsible for the other information. The other information comprises the information included in the Directors' report for the year ended 31 December 2021, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Branch are responsible on behalf of the Branch for the preparation and fair presentation of the financial statements in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS), International Financial Reporting Standards (IFRS), and for such internal control as the Directors determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible on behalf of the Branch for assessing the ability of the Branch to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Branch or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (NZ), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Branch's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

- Conclude on the appropriateness of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Branch's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Branch to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The auditor also provides those charged with governance with a statement that the auditor has complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on the auditor's independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, the auditor determines those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. The auditor describes these matters in the auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, the auditor determines that a matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Max Murray.

APPOINTED ACTUARY'S STATEMENT

of General Reinsurance Australia Ltd. – New Zealand Branch ("the Branch")

Section 78 report as at 31 December 2021

It is the Branch's established policy to seek the advice of the Appointed Actuary in respect of actuarial information in their respective financial statements, and to always adopt that advice. For the 2021 financial statements of the Branch such advice was provided and adopted for:

a) The outstanding claims liability;

b) Discounting on the reinsurance recoverable;

c) Disclosures in relation to actuarial valuation assumptions and methods;

d) Analysis of net claims incurred;

e) Development of net undiscounted central estimate of ultimate claims; and

f) The liability adequacy test.

I have also reviewed the following items in the financial statements and find them to be appropriately stated:

a) The unearned premiums; and

b) The deferred acquisition cost.

The above therefore satisfies the requirements of Section 77 of the Insurance (Prudential Supervision) Act 2010.

16 March 2022

As at 31 December 2021, as required by the Reserve Bank of New Zealand, General Reinsurance Australia Ltd. ("the Company") maintained a solvency margin calculated in accordance with the Australian Prudential Regulation Authority's requirements.

In summary, I have been provided with all the information and explanations that I required for my review, and in my opinion:

- The actuarial information contained in the financial statements has been appropriately included in the statements; and
- The actuarial information used in the preparation of the financial statements has been used appropriately; and
- The Company, the licensed insurer, is maintaining the solvency margin that applies under a condition imposed under section 21 (2) (b).

The review was carried out by Nina Xiao, Fellow of the Institute of Actuaries of Australia and employee of General Reinsurance Australia Ltd, as the Appointed Actuary of General Reinsurance Australia Ltd. – New Zealand Branch for the purposes of Section 76 of the Insurance (Prudential Supervision) Act 2010 who provided advice for and reviewed the 2021 financial statements for the Branch.
