Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements

for the year ended 31 March 2016

1. General Information

(a) Reporting Entity

These financial statements are for the Craigs Investment Partners kiwiSTART Defined Scheme (the 'scheme').

The scheme was established under a Trust Deed dated 16 August 2007. The Trust Deed was amended and restated on 21 September 2012. The scheme continues under a new Trust Deed dated 21 September 2012. The scheme is a defined contribution scheme.

The scheme invests into a variety of unlisted unit trusts (all managed by QuayStreet Asset Management Limited (see Note 9(a))) in order to gain indirect exposure to cash, bonds, equity and property markets. The retirement benefits are determined by contributions to the scheme together with investment earnings on these contributions over the period of the membership.

The scheme is registered under the KiwiSaver Act 2006 under the registration number KSS/10054. The financial statements have been prepared in accordance with the Financial Markets Conduct Act 2013 and the Financial Reporting Act 1993. The scheme applies NZ IFRS, as applicable for tier 1 for-profit entities.

The most recent Prospectus for the scheme was registered with the Companies Office on 18 September 2015.

The investment and administration activities of the scheme are managed by Craigs Investment Partners Superannuation Management Limited (the 'manager').

The New Zealand Guardian Trust Company Limited (the statutory trustee) is licenced under the Securities Trustees and Statutory Supervisors Act 2011.

The registered office of the manager of the scheme is 158 Cameron Road, Tauranga, New Zealand. The scheme is domiciled in New Zealand.

(b) Statement of compliance

The financial statements have been prepared by the manager in accordance with the Trust Deed, the Financial Reporting Act 1993, The Financial Markets Conduct Act 2013, the Superannuation Schemes Act 1989, the KiwiSaver Act 2006 and New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS"), and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. The financial statements also comply with International Financial Reporting Standards ("IFRS").

The financial statements are prepared for the year ended 31 March 2016.

The financial statements were authorised for issue by the directors of Craigs Investment Partners Superannuation Management Limited, the Manager on 23 June 2016.

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

1. General Information (continued)

(c) Basis of preparation

The financial statements are presented in New Zealand dollars, which is the scheme's functional currency. All values are rounded to the nearest dollar.

Except where noted in specific accounting policies below, the financial statements are prepared on a fair value basis.

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis.

There are no significant estimates and judgements used in preparing these financial statements.

The accounting policies have been applied consistently across all the financial periods presented in these financial statements.

2. Summary of significant accounting policies

(a) Investments

Recognition and derecognition

Investment assets are recognised on the date that the scheme becomes party to the contractual agreement (trade date). Investment assets are derecognised when the contractual rights to the cash flows expire or the scheme has transferred substantially all risks and rewards of ownership.

Measurement

The scheme measures investment assets on a fair value basis, and carries them at their fair value, with changes recognised in the Statement of Changes in Net Assets. Investment assets are designated as "fair value through profit or loss" on initial recognition.

Investments in unlisted unit trusts are recorded at the dollar value per unit as reported by the managers of such funds redemption price.

(b) Other financial assets and liabilities

Other financial assets and liabilities, which may include cash and cash equivalents, receivables and payables, are initially recognised at fair value and subsequently carried at their amortised cost using the effective interest rate method. Their carrying value closely approximates their fair value.

For cash flow statement presentation purposes, cash and cash equivalents comprise Member Funds held by the Trustee. Cash equivalents are subject to an insignificant risk of changes in value, and are held short-term for the purpose of investment into unit trusts.

Other financial assets are classified as loans and receivables.

Other financial liabilities are classified as financial liabilities at amortised cost.

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

2. Summary of significant accounting policies (continued)

(c) Investment income

Income distributions from unit trusts are recognised in the Statement of Changes in Net Assets as distribution income on an entitlement basis. Net changes in fair value of investment assets are recognised in the Statement of Changes in Net Assets.

(d) Investment expenses

Expenses are recognised on an accrual basis.

(e) Net assets available for benefits

The net assets available for benefits is the scheme's present obligation to pay benefits to members and has been calculated as the difference between the fair value of the assets and the fair value of the liabilities as at balance date.

Issued units provide members with the right to require redemption for cash at the value proportionate to the members' share in the scheme's net assets. These units are puttable instruments and are classified as equity as they meet all of the following criteria: (i) members are entitled to a pro rata share of the scheme's net assets in the event of the scheme's liquidation, (ii) apart from the contractual obligation of the issuer to redeem the instrument for cash or another financial asset, the instrument does not include contractual obligations to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under potentially unfavourable conditions to the entity and (iii) the total expected cash flows attributable to the instrument over its life is based substantially on the profit or loss and changes in the recognised net assets or the change in fair value of the recognised and unrecognised net assets of the entity over the life of the instrument.

As members' contributions are received, they are held in trust by The New Zealand Guardian Trust Company Limited until the next trading day when they are transferred into the scheme (Refer Note 8).

(f) New standards and interpretations not yet adopted

The following new standard has been issued, but is not effective for the current period and has not been early adopted. This standard is not expected to have any significant impact on the financial statements for the scheme.

- NZ IFRS 9 Financial Instruments effective for period ended 31 March 2019. This standard introduces new requirements for the classification and measurement of financial assets based on the business model in which they are held and the characteristics of their contractual cash flows.

The entity does not plan to early adopt this standard and management have not yet determined the impact of these changes.

(g) New Standards and pronouncements relevant to the scheme

No new standards were adopted in the preparation of the financial statements for the year ended 31 March 2016.

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

2. Summary of significant accounting policies (continued)

(h) Taxation

The scheme qualifies as, and has elected to be, a Portfolio Investment Entity ("PIE") for tax purposes. Under the PIE regime, income is effectively taxed in the hands of the members and therefore the scheme has no tax expense or deferred tax assets or liabilities.

Under the PIE regime, the manager attributes the net taxable income of the scheme on a portfolio basis to members in accordance with their proportionate interest in a relevant portfolio. Income attributed to each member is taxed at the member's prescribed investor rate ("PIR"), which is capped at 30% (33% prior to 1 April 2008). The manager accounts for tax on behalf of natural persons and certain other members and adjusts the members' interests in the scheme to reflect that the scheme pays tax at varying rates on behalf of members.

(i) Goods and Services Tax ("GST")

The scheme is not registered for GST. The Statement of Changes in Net Assets and the Statement of Cash Flows have been prepared so that all components are stated inclusive of GST. All items in the Statement of Net Assets are stated inclusive of GST.

3. Net changes in fair value of investment assets

	2016	2015
Realised change in fair value	307,191	496,534
Unrealised change in fair value	3,991,790	8,169,030
Total net changes in fair value of investment assets	4,298,981	8,665,564

4. Investment assets

Total investment assets – unlisted NZ unit trusts (see note 9(a))	99,697,309	83,640,189
---	------------	------------

The following investments exceeded 5% of the net assets available for benefits by the funds at 31 March:

QuayStreet Unit Trusts - Balanced Fund	33,840,612	28,149,488
	33.9%	33.7%
QuayStreet Unit Trusts - Conservative Fund	10,042,853	8,690,836
	10.1%	10.4%
QuayStreet Unit Trusts - Growth Fund	41,626,623	35,511,727
	41.8%	42.5%
QuayStreet Unit Trusts – International Equity Fund	5,494,412	4,564,651
	5.5%	5.5%

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

4. Investment assets (continued)

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

31 March 2016	Level 1	Level 2	Level 3	Total
Financial assets designated at fair value through profit or loss: Unlisted NZ unit trusts	-	99,697,309	-	99,697,309
31 March 2015	Level 1	Level 2	Level 3	Total
Financial assets designated at fair value through profit or loss: Unlisted NZ unit trusts	-	83,640,189	-	83,640,189

5. Financial risk management

The scheme's investment portfolio consists of investments in unlisted unit trusts that it intends to hold for an indefinite period of time. Through the holding of these investments, the scheme is exposed indirectly to a variety of financial risks including: credit, foreign exchange, interest rate, market price and liquidity risks. The risk disclosures have been prepared on the basis of the scheme's direct investments and not on a look through basis for investments held indirectly through unit trusts. Consequently the disclosure of risk in the notes does not fully represent the true risk profile of the scheme.

The scheme is directly exposed to market price and liquidity risk. The risk management policies employed by the scheme are discussed in the notes below.

Financial instruments of the scheme comprise investments in financial assets for the purpose of generating a return on investment made by members. In addition, the scheme may have financial assets and liabilities in the form of members funds held by the trustee and accounts payable and accrued expenses, which arise directly from its daily operations.

The Trust Deed requires the manager to invest the scheme's assets in accordance with member investment directions.

(a) Liquidity risk

Liquidity risk is the risk that the scheme will encounter difficulty in meeting obligations associated with financial liabilities. The scheme is exposed to daily cash redemptions of members' funds, subject to the restrictions imposed by the KiwiSaver Act 2006. Accordingly, all material investments are readily convertible to cash in normal market conditions. Investments in unit trusts are redeemable on demand. The redemption amount is set at the net tangible asset value of each unit, which is set regularly.

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

5. Financial risk management (continued)

(a) Liquidity risk (continued)

Accounts payable and accrued expenses have no contractual maturity date, but are typically settled within 30 days or within the timeframe as set out in the Trust Deed.

In accordance with the scheme's investment policy, the manager monitors the scheme's liquidity positions through the regular review of cash flow information, which highlights current and known future levels of redemptions.

(b) Market price risk

Market price risk is the risk that the value of a scheme's investment portfolio will fluctuate as a result of changes in market prices.

The scheme holds investments in unlisted unit trusts managed by the related party entity QuayStreet Asset Management Limited. These unit trusts invest in financial instruments, taking positions in traded and over-the-counter instruments to take advantage of short-term market movements in the bond, equity and property markets.

The effect on the Statement of Changes in Net Assets and increase/(decrease) on the net asset value of the members funds with a 1% change in the prices of the underlying unit trusts will have a 1% increase/(decrease) on the fair value of those investments outlined in Note 4, with all other variables held constant.

6. Members' funds

The scheme's capital is represented by members' funds. The scheme's objectives when managing capital are to provide returns for members through both capital growth and income. The scheme does this by investing in accordance with its investment policy. Investment decisions are guided by the mandate included in the investment statement and prospectus.

The scheme strives to invest the members' funds in investments that meet the scheme's objectives while maintaining sufficient liquidity to meet members' redemptions.

The scheme does not have any externally imposed capital requirements. Members' funds may be redeemed on dates as the manager shall from time to time determine, subject to the strict restrictions imposed by the KiwiSaver Act 2006.

Expected cash outflow cannot be reliably estimated given that the scheme does not have sufficient historical redemption rates to predict the expected outflow profile.

7. Reconciliation of net profit to net cash flows from operating activities

	2016	2015
Net profit/(loss) before membership activities	4,112,809	8,528,444
<i>Non-cash items</i>		
Unrealised change in fair value	(3,991,790)	(8,169,030)
<i>Movement in operating balances:</i>		
Accounts payable and accruals	57,507	(76,366)
Investment assets	(12,039,010)	(10,125,693)
Net cash flows from operating activities	(11,860,484)	(9,842,645)

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

8. Cash and cash equivalents

These balances represent member contributions which are being held by the trustee in a separate trust account until the next trading day. At balance date the funds have not yet been invested into a unit trust.

9. Related party transactions

(a) Nature of Relationships

Craigs Investment Partners Superannuation Management Limited is the manager of the scheme.

Craigs Investment Partners Limited, parent company of the manager, effects trades on behalf of the scheme.

The scheme invests into the QuayStreet unit trusts (referred to as the "underlying investment entities"). The manager of the unit trusts is QuayStreet Asset Management Limited. QuayStreet Asset Management Limited is an associated company of the manager of the scheme. The trustee of the scheme is also trustee of the underlying investment entities. The trustee of the scheme and associated companies of the manager of the scheme receive fees from the underlying investment entities. However, the fees which both the manager (including associated entities) and trustee receive from the scheme are reduced by the fees received from the underlying investment entities. There is no cumulative effect of fees charged by the scheme and the underlying investment entities.

(b) Transactions with the manager

All related party transactions are conducted on standard commercial terms and conditions.

The manager pays tax on behalf of members and holds funds to cover these payments. As at 31 March 2016, \$253,385 was held in trust and this amount is included in other assets in the Statement of Net Assets (2015: \$833,393).

(c) Management fees

Under the terms of the Trust Deed, the manager is entitled to receive management fees, calculated by reference to the daily gross asset value of the scheme and is inclusive of the trustee fee. The scheme invests solely in unit trusts managed by QuayStreet Asset Management Limited. The management fee is not charged in the scheme as this is paid at the unit trust level, and is reflected in the value of units held (i.e. an indirect cost).

Craigs Investment Partners Limited, the parent company of the manager, received fees of \$1,049,261 (2015: \$832,646) via the QuayStreet Unit Trusts from members of this scheme. Fees are deducted by the cancellation of investment units in the underlying unit trusts. Included in this fee was a \$56,799 (2015: \$45,149) trustee fee.

(d) Administration fees

Under the terms of the Trust Deed, the manager is entitled to receive administration fees of up to \$60 per annum, per member. Administration fees are disclosed in the Statement of Changes in Net Assets as \$132,251 (2015: \$128,439) and are shown net of any rebates. An amount of \$66,417 (2015: \$64,661) is outstanding at 31 March 2016.

(e) Reimbursement of expenses

Under the terms of the Trust Deed, the manager and the trustee are entitled to be reimbursed for expenses such as audit fees, legal fees and postage expenses. For the year ended 31 March 2016 these were \$84,242 (2015: \$31,211). These expenses have been charged to the scheme and are reflected in the accounts payable and accruals of the scheme.

Craigs Investment Partners kiwiSTART Defined Scheme

Notes to the Financial Statements (continued)

for the year ended 31 March 2016

9. Related party transactions (continued)

(e) Reimbursement of expenses (continued)

Where the actual expenses paid by the manager are higher than those charged to the scheme, the manager is able to carry amounts forward to be recovered in future periods. As at 31 March 2016, there was no carry-forward amount owing to the manager (2015: \$Nil).

10. Subsequent Events

Subsequent to the end of the Scheme's financial period, the QuayStreet Units Trusts in which the Scheme invests are now governed by a consolidated and amended Master Trust Deed dated 1 June 2016. The QuayStreet Unit Trusts were renamed the QuayStreet Funds. A Product Disclosure Statement lodged on the Disclose Register was issued 20 June 2016 by the QuayStreet Funds. A revised Investment Statement for the Scheme dated 20 June 2016 was issued to reflect the above changes to the QuayStreet Funds.

No significant events have occurred since the end of the reporting period which would impact on the Statement of Net Assets as at 31 March 2016 or on the results and cash flows of the scheme for the year ended on that date.

Independent auditor's report

To the members of Craigs Investment Partners KiwiSTART Defined Scheme

Report on the financial statements

We have audited the accompanying financial statements of Craigs Investment Partners KiwiSTART Defined Scheme ("the scheme") on pages 2 to 12. The financial statements comprise the statement of net assets as at 31 March 2016, the statement of changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

This report is made solely to the members as a body. Our audit work has been undertaken so that we might state to the scheme's members those matters we are required to state to them in the auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the scheme's members as a body, for our audit work, this report or any of the opinions we have formed.

Manager's responsibility for the financial statements

The manager is responsible on behalf of the scheme for the preparation of financial statements in accordance with generally accepted accounting practice in New Zealand and International Financial Reporting Standards that give a true and fair view of the matters to which they relate, and for such internal control as the manager determines is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing (New Zealand). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the scheme's preparation of the financial statements that give a true and fair view of the matters to which they relate in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the scheme's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, as well as evaluating the presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Our firm has also provided other services to the scheme in relation to trustee reporting, prospectus reporting and summary financial statements to be included in the annual report. Subject to certain restrictions, partners and employees of our firm may also deal with the scheme on normal terms within the ordinary course of trading activities of the business of the

scheme. These matters have not impaired our independence as auditor of the scheme. The firm has no other relationship with, or interest in, the scheme.

Opinion

In our opinion the financial statements on pages 2 to 12:

- comply with generally accepted accounting practice in New Zealand;
- comply with International Financial Reporting Standards;
- give a true and fair view of the financial position of the scheme as at 31 March 2016 and of its financial performance and cash flows for the year then ended.

Report on other legal and regulatory requirements

In accordance with the requirements of sections 16(1)(d) and 16(1)(e) of the Financial Reporting Act 1993, we report that:

- we have obtained all the information and explanations that we have required; and
- in our opinion, proper accounting records have been kept by Craigs Investment Partners KiwiSTART Defined Scheme as far as appears from our examination of those records.

23 June 2016
Tauranga
