1. GENERAL INFORMATION

These financial statements are for the reporting entity **Amanah KiwiSaver Plan** (the “Scheme”), and represent the operating result for the year ended 31 March 2019 (the “balance date”).

The Scheme is a defined contribution KiwiSaver Scheme with the principal purpose to provide benefits to Members in accordance with the KiwiSaver Act 2006. It was registered on 15 January 2014, registration number 10076.

The Scheme is domiciled in New Zealand and was established under a Trust Deed dated 24 October 2013, and revised under a Trust Deed dated 4 November 2016 between AmanahNZ KiwiSaver Limited (the “Manager”) and Trustee Executors Limited (the “Trustee”).

The Manager is incorporated (company number: 4674859) and domiciled in New Zealand. The ultimate holding company of the Manager is Amanah Trust Management (NZ) Limited. The registered office of the Manager is located at 5 Hauraki Road, Takapuna, Auckland, 0622.

The Scheme commenced operations on 15 January 2014 and Members were accepted into the Scheme from 24 March 2014.

The Scheme is an FMC Reporting Entity under the Financial Markets Conduct Act 2013.

The Scheme may be comprised of various underlying funds (the “Funds”). Currently the Scheme is comprised of one underlying fund, the Amanah Growth Fund. As at balance date the only investments that the Amanah Growth Fund held were cash and units in AmanahNZ (“AMNZ”) which is managed by Amanah Trust Management (NZ) Limited.

Notwithstanding the division of the Scheme into one or more underlying Funds, the Scheme comprises a single fund with the value of Members’ interests in the Scheme determined by reference to the value of the units they hold in the Fund.

2. Summary of Significant Accounting Policies:

The following accounting policies that materially affect the financial statements have been consistently applied to all periods presented in these financial statements.

(a) Basis of preparation and statement of compliance

These financial statements have been prepared in accordance with the Trust Deed governing the Scheme, the KiwiSaver Act 2006, the Financial Markets Conduct Act 2013 and the New Zealand Generally Accepted Accounting Practice (“NZ GAAP”). These financial statements comply with New Zealand equivalents to International Financial Reporting Standards (“NZ IFRS”), International Financial Reporting Standards (“IFRS”), and other applicable reporting standards that are applicable for profit orientated entities.

The financial statements of the Scheme comply with the Financial Markets Conduct Act 2013 for the year ended 31 March 2019.

These financial statements have been prepared on a historical cost basis as modified by revaluation of certain Financial Assets at fair value through profit & loss. The accrual basis of accounting has been applied as has the going concern assumption.

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

The Statement of Net Assets Available for Benefits is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current.

The following standard became effective for financial year ending 31 March 2019:

The Scheme adopted NZ IFRS 9 - Financial Instruments (which replaced NZ IAS 39 – Financial Instruments) from 1 April 2018. The Scheme has applied the standard retrospectively, but has elected not to restate comparative information.

NZ IFRS 9 includes requirements for the classification and measurement of financial assets, the accounting requirements for financial liabilities, impairment testing requirements and hedge accounting requirements.

The changes applicable to the Scheme by this standard are:

- Classifying financial assets and liabilities at fair value through profit and loss, rather than designated fair value through profit and loss;
- Classifying financial assets and liabilities at amortised cost, rather than as loans and receivables;

On initially recognising a financial asset, the Scheme must now assess, on a forward looking basis, the expected credit loss associated with a financial asset carried at amortised cost. The credit risk on such assets is assessed regularly to ascertain if there has been any change in the credit risk.

The adoption of NZ IFRS 9 did not have any significant impact on the financial statements and no material adjustments were noted on transition.

There are no standards issued but not yet effective that will have a material impact on the Scheme.

(b) Investment entities

These financial statements are the separate financial statements for the Scheme. The Scheme meets the definition of an investment entity and thus is not required to consolidate the assets and liabilities of its underlying investments. The Scheme's investment assets are accounted for at fair value through the Statement of Changes in Net Assets available for Benefits.

(c) Income

Income is recognised to the extent that it is probable that the economic benefits will flow to the Scheme and the income can be readily measured.

Net gains or losses on Financial Assets at fair value through profit & loss includes realised gains and losses on disposal of financial assets and unrealised gains and losses arising from changes in the fair value of financial assets.

(d) Financial Instruments

i. Classification

The Scheme's financial instruments are categorised as follows:

Financial Assets at Fair Value through Profit & Loss

Financial assets are recoded at fair value through the Statement of Changes in Net Assets available for Benefits upon initial recognition. These include financial assets that do not meet the definition of the category "held for trading". They are not held for trading and may be sold in the short term.

Loans and Receivables

These include assets with fixed and determinable payments that are not quoted in an active market.

ii. Recognition and derecognition

The Scheme recognises financial instruments on the date they become party to the contractual agreement (trade date) and recognises changes in fair value from this date. Financial assets are derecognised when the right to receive cash flows from the asset has expired or the Scheme has transferred substantially all risks and rewards of ownership.

iii. Measurement

Financial Assets at Fair Value through Profit or Loss

Financial Assets at fair value through Profit or Loss are measured initially at fair value, being the consideration paid excluding transaction costs which are expensed. After initial recognition, Financial Assets at fair value through Profit or Loss are revalued to fair value with changes in their fair value recognised in Statement of Changes in Net Assets available for Benefits.

Loans and Receivables

Loans and receivables are measured initially at fair value plus transaction costs and subsequently at amortised cost. Such assets are reviewed at each balance date to determine whether there is objective evidence of impairment to their value, and if necessary, value adjustments are made.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and deposits held at call with banks and are measured at fair value.

(f) Payables

Payables may include liabilities and accrued expenses owing by the Scheme which are unpaid as at balance date. Payables are initially recognised at fair value and subsequently measured at amortised cost.

(g) Income tax and other taxes

i. Portfolio Investment Entity Tax

The Scheme elected to become a Portfolio Investment Entity ("PIE") as defined under the Income Tax Act 2007. Under the PIE regime, income is effectively taxed in the hands of the Scheme's Members and therefore the Scheme has no tax expense. Accordingly, no current or deferred income tax expense is recognised in the Statement of Changes in Net Assets Available for Benefits. For the period ended 31 March 2019, a net amount of PIE tax either paid to or due to be paid to the Inland Revenue on behalf of Members was Nil (2018 - \$Nil)

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

ii. Goods and Services Tax (“GST”)

The Scheme is not registered for GST. All items in the Financial Statements are stated inclusive of GST (if any).

(h) Scheme applications account

All contributions received and all benefit withdrawals paid by the Funds are cleared through the Scheme applications bank account. Contributions received via the Inland Revenue, directly from Members, directly from employers, or transfers in from other provider schemes are initially received into the Scheme application bank account, which acts as a clearing account only. When all necessary information has been supplied to identify existing and new Member’s contributions, then the contributions are paid across to the appropriate Funds for investing.

Contributions received into the Scheme application bank account and not yet invested in the Funds as at balance date are recognised as a Trade and Other Payables liability in the Statement of Net Assets Available for Benefits.

(i) Members’ funds

Each unit issued confers an equal interest in that Fund of the Scheme to which the unit relates. A unit does not confer any rights or interests in the individual investments of the Fund or Scheme to the Member. The unit price of the Fund is determined as the net asset value (“NAV”) of the Fund divided by the number of units on issue to Members. Members have various rights under the KiwiSaver Act 2006. The right, obligations and restrictions attached to each unit, within a Fund, are identical in all aspects.

(j) Amounts available for Members’ benefits

The amount available for Members’ benefits is the Scheme’s present obligation to pay benefits to Members and has been calculated as the difference between the carrying value of the assets and the carrying value of the liabilities. All available funds are allocated to Member accounts. The Scheme does not currently have separate employer accounts and does not have any reserve funds.

(k) Statement of Cash Flows

The following are definitions of terms in the Statement of Cash Flows:

“Operating activities” are those relating to the principal revenue producing activities of the entity and other activities that are not financing activities. These include cash flows relating to the acquisition, holding and disposal of investments.

“Financing activities” are those activities that result in changes in the size and composition of Members’ funds.

(l) Foreign currency transactions

These financial statements are presented in NZD, which is the Scheme’s functional and presentation currency. Transactions in foreign currencies are transacted at the foreign exchange rate prevailing at the date of the transaction. Assets and liabilities denominated in a foreign currency at the end of the reporting period are translated at the foreign exchange rate prevailing at that date. Foreign exchange differences arising on translation are recognised separately through the Statement of Changes in Net Assets available for Benefits, except those arising on financial assets and which are included in the “net changes in the fair value of financial assets” line in the Statement of Changes in Net Assets Available for Benefits.

(m) Fair value

The methods used to measure fair values are discussed below.

Fair value hierarchy

The carrying amounts of the Scheme's assets and liabilities at balance date are their fair values. Fair value measurements are categorised into a three level hierarchy that reflects the significance of the inputs used in making the measurements.

Level one – fair value in an active market

The fair value of financial assets and liabilities traded in active markets for the same instruments based on their quoted market prices at balance date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices and financial liabilities at the current ask/offer prices. Generally, a level one category financial asset or liability will have the most independent, reliable basis for measurement.

Level two – fair value in an inactive or unquoted market using valuation techniques and observable market data

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques for which all significant inputs are based on observable market data.

Level three - fair value in an inactive or unquoted market using valuation techniques without observable market data.

The fair value of financial assets and liabilities that are not traded in an active market is determined by using valuation techniques for which any significant input is not based on observable market data.

Details of how the Scheme's assets and liabilities have been categorised is provided in Note 7.

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

3) Net changes in fair value of financial assets and liabilities

Designated at fair value through the Statement of Changes in Net Assets available for Benefits	2019	2018
	\$	\$
- net changes in fair value of investments	813,529	340,600
- foreign currency gain (loss)	794,535	(443,186)
	1,608,064	(102,586)

4) Expenses

Expenses may comprise performance fees, management fees, administration fees, trustee fees, custody and accounting fees, auditor's remuneration for audit fees, auditor's remuneration for trustee reporting, legal fees, membership communication expenses, regulatory fees and other expenses. These expenses are recognised in Operating Activities in the Statement of Changes in Net Assets Available for Benefits. The manager charges fees according to the formula in Note 9 and from these fees paid the various expenses of the Scheme (refer Note 9).

Members' fees, (which include part of the registry fees) are charged monthly per Member via unit redemption and are recognised in Membership Activities in the Statement of Changes in Net Assets Available for Benefits.

Transaction fees are incurred and expensed directly by the Scheme.

5) Contributions and withdrawals

Contributions are received from Members either directly or via the Inland Revenue (the "IR"). Contributions in the form of kick start payments and member tax credits are received from the Crown via the IR. Members can also arrange to transfer funds in from other sources, such as from previous KiwiSaver providers or registered superannuation schemes and pension funds.

Contributions received for units in the Scheme are recorded net of any entry fees (if applicable) prior to the issue of units. Withdrawals from the Scheme are recorded gross of any exit fees payable (if applicable) after the cancellation of the units. No entry or exit fees were charged during the reporting period. Units confer an equal interest in the Scheme and are of equal value.

All contributions and withdrawals flow through the Scheme applications bank account which acts as a clearing account only.

The independent outsource service provider, Appello Services Limited, maintains the Members' accounts and register of the Scheme and receive a monthly administration fee from each Member by way of unit redemption. This is accounted for as a withdrawal shown in the Membership Activities section of the Statement of Changes in Net Assets Available for Benefits and does not impact the Investment Activities.

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

Contributions and withdrawals (continued)

Contributions received during the year ended 31 March:	2019 \$	2018 \$
- Contributions - voluntary	108,093	103,900
- Contributions - employee	1,435,431	1,321,750

Movements in Members' funds for the year	3,316,088	2,816,307
Increase / (Decrease) in accounts payable	(5,370)	23,093
Deduct increase in accounts receivable	(7,023)	(6,485)
Increase in cost of investment Assets	(1,402,065)	(2,872,867)
Net movement in Members contributions	(1,688,975)	(2,988,842)
Increase in cash to be unitised	-	-
Adjust for non-cash items		
Change in fair value of financial assets	(1,608,064)	102,586
Net cash from operations	(1,395,409)	(2,926,208)

6) Cash and cash equivalents

As at 31 March 2019, the Scheme held \$443,850 as funds available for investment. As at the prior balance date, the Scheme application bank account contained an amount of \$150,284 that had been received but not invested.

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

7) Fund Investments at fair value through profit or loss

Financial assets held at fair value through profit or loss:	2019	2018
	\$	\$
- Units in AmanahNZ	13,775,537	10,765,408
Other Fund Assets		
- Cash and cash equivalents	443,850	150,284
Total Fund Investments	14,219,387	10,915,692
The carrying value of investments is reconciled as follows		
Opening Value of investments	10,765,408	8,029,019
Purchases	1,402,065	2,838,975
Net Changes in Fair Value of investments	813,529	340,600
Foreign Currency conversion Gain / (Loss)	794,535	(443,186)
Closing Value of investments	13,775,537	10,765,408

Units in AmanahNZ are valued using level 2 inputs on the fair value hierarchy.

AmanahNZ (“AMNZ”) is a Unit Trust that invests in substantial corporations that have a proven track record in satisfying global demand for their products and services. AMNZ’s portfolio is diversified across up to 50 stocks to limit exposure to any market sector with the aim of investing in all 10 of the key Standard & Poor’s industry sectors. All of AMNZ’s investments are Shari’ah compliant corporations domiciled internationally but listed on NYSE, AMEX or main board NASDAQ.

Fund investments are measured at fair value and are classified under “net changes in fair value of financial assets” in the Statement of Changes in Net Assets available for Benefits”. The underlying value of Amanah Kiwisaver Plan’s investment in AMNZ is determined with reference to the fair value of the underlying securities held by AMNZ. These securities are level 1 and are accordingly measured at fair value based on the closing market price at the end of the reporting period.

Fund investments are denominated in USD and are converted to the presentation currency of NZD at the prevailing exchange rate at balance date. The applicable NZD/USD rate for 31 March 2019 was 0.6797 (2018 – 0.7299).

8) Trade and other payables

Trade and other payables include liabilities and accrued expenses owed by the Scheme which are unpaid at balance date.

Trade and other payables	2019	2018
	\$	\$
- Scheme application monies not yet processed	-	-
- PIE Tax Payable on behalf of members	-	14,867
- Administration fees payable (Note 9)	41,006	31,509
	41,006	46,376

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

9) Related Party Balances

A party is related to the Scheme if:

- a) Directly or indirectly through one or more of its intermediaries, it controls, is controlled by, or is under common control with the Scheme;
- b) It is a parent, subsidiary or fellow subsidiary of a party defined in (a) above;
- c) It has an interest in or a relationship with the Scheme that gives it significant influence over the Scheme;
- d) The Scheme has an interest in or relationship with the party that gives it significant influence over the party; or
- e) They are a member of the Scheme's key management personnel.

Brian Henry, Faruk Balli and Claude Oberto are directors of the Scheme Manager (AmanahNZ KiwiSaver Limited) and directors and shareholders in the Fund Manager of AmanahNZ (Amanah Trust Management (NZ) Limited). Carmel Barnao is the wife of Brian Henry. Brian Henry also provides legal services to the Scheme in the normal course of business (the value of legal services charged for during the reporting period was \$nil (2018 - \$nil)).

The total value of units held in the Scheme by related parties at balance date were:

Investments in the Scheme by related parties:	2019	2018
	\$	\$
- Brian Henry	3,230	2,847
- Faruk Balli	42,598	29,337
- Claude Oberto	99,371	83,291
- Carmel Barnao	18,992	13,216
	164,191	129,321

Other than for the payment of Member fees, no units were redeemed or purchased by related parties.

The sole investment of the Plan is in AmanahNZ, a unit trust managed by Amanah Trust Management (NZ) Limited. Both AmanahNZ and Amanah Trust Management (NZ) Limited have common directors and shareholdings to AmanahNZ Kiwisaver Limited.

Amanah Trust Management (NZ) Limited rebates all fees and expenses charged to AmanahNZ units held by Amanah KiwiSaver Plan then calculates and deducts administration fees (on behalf of Amanah KiwiSaver Plan) in accordance with a charges and expenses formula. These fees comprise 1.39% of FUM per annum as a management fee, 15% per cent return above the benchmark performance fee (management has waived this fee until 31 March 2019), registry fee NZ \$ 2.70 per investor per month and 0.08% of FUM, trustee fee 0.06% FUM, audit fees 0.05% FUM and up to 0.2% of FUM for other expenses. Amanah Trust Management (NZ) Limited uses administration fees to pay the registry, trustee, audit and other fees.

Transactions with related parties:	2019	2018
	\$	\$
Management and administration fees - Manager	180,161	147,254
Management fees (rebates) from AmanahNZ Unit Trust	(279,021)	(112,200)
Net transactions	(98,860)	35,054
Balances owing from (to) related parties:		
AmanahNZ Unit Trust rebates	32,140	25,117
Admin fees - Manager	(41,006)	(31,509)

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

Related Party Balances (Cont)

All transactions with related parties were on the same terms as transactions with non-related parties. No related party balances were written off or forgiven during the period.

10) Net Assets Available for Benefits

Upon receiving a valid redemption notice and provided the member satisfies the requirements of the Scheme, the Scheme will redeem units in accordance with the Trust Deed. Proceeds are paid to members by the Manager within 35 days of receiving a redemption request.

There were \$nil in member contributions (2018 - \$nil) received but not yet allocated as at 31 March 2019.

Movement in Units on Issue	2019	2018
	Units	Units
- Number of Units on issue at the beginning of the year	9,376,835	6,826,125
- Number of Units issued	2,396,476	3,136,726
- Number of Units redeemed	(1,109,771)	(586,016)
- Number of Units on issue at the end of the year	10,663,540	9,376,835
Movement in Assets Available for Benefits	2019	2018
	\$	\$
- Balance at the beginning of the year	10,894,433	8,078,126
- Changes in accrued benefits	3,316,088	2,816,307
- Balance at the end of the year	14,210,521	10,894,433
Represented by Net Assets Available for Benefits	14,210,521	10,894,433

11) Financial risk management policies and objectives

Market Risk

Market risk is the risk that the value of the Scheme's future cash flows and financial position will fluctuate as a result of changes in the fair value of the financial assets resulting from fluctuations in market interest rates (interest rate risk) and foreign exchange rates (currency risk) and to market prices (price risk), whether such a change in price is caused by factors specific to an individual financial instrument or its issuer or to factors affecting the market as a whole.

The Scheme is exposed directly to price risk through unit price fluctuations of the unitised managed funds it may invest in. The scheme is also directly exposed to foreign currency risk due to the major investment being in US dollars. The quantifiable risk associated with a 10% variation in the unit price would amount to \$1,421,052 (2018 - \$1,076,541)

Interest Rate risk

Interest rate risk is the risk that future fluctuations in market interest rates will impact on the value of the Scheme's future cash flows and financial position. The Scheme does not have any external term debt. There is no bank overdraft facility. Also given the Shari'ah law compliant nature of the Scheme, cash or cash equivalents are not placed into interest bearing accounts. Accordingly the Scheme has no direct exposure to interest rate risk. However through the Scheme's investment in unitised managed funds, the Scheme is indirectly exposed to interest rate risk, which because it is not a direct risk, may be treated as a component of the price risk.

Financial risk management policies and objectives (continued)

Foreign Currency Risk

Foreign currency risk is the risk that the value of the Scheme's future cash flows and financial position will fluctuate as a result of changes in foreign currency rates.

The Scheme's functional and presentation currency is New Zealand dollars ("NZD"). The Scheme does not invest directly in foreign currencies. However through the Scheme's NZD investment in the unitised Amanah Growth Fund, which in turns invests United States Dollars ("USD") in AmanahNZ, which has USD as its functional and presentation currency, the Scheme is directly and indirectly exposed to foreign currency risk. Given the terms of the Trust Deed and Shari'ah law compliant nature of the Scheme, the Scheme does not enter into any foreign exchange derivatives or forward cover for any potential foreign currency risk. There are no other methods available to reduce foreign currency risk. The risk of a 10% variation in the US\$/NZ\$ exchange rate would amount to \$1,421,052 (2018 - \$1,076,541)

Credit Risk

Credit risk is the risk that a counterparty will fail to perform contractual obligations, either in whole or in part under a contract. Credit risk is managed by monitoring the investments held by AMNZ on a monthly basis and also reviewing AMNZ investment strategy. The Manager has assessed the likely impact of non performance risk on the investment assets and liabilities subject to credit risk and determined that no fair value adjustment is needed.

The carrying amount of these assets best represents their maximum credit risk exposure at balance date. Cash and cash equivalents are held with registered banks with high financial strength.

Price Risk

Price risk is the risk that the value of the Scheme's future cash flows and financial position will fluctuate as a result of changes in the unit prices of the unitised managed funds invested in.

The Scheme is invested in a managed investment fund. The investment fund manager invests in a variety of securities, in a variety of industry classifications. This diversification reduces the impact of a particular security underperforming.

As at 31 March 2019 the fair value of the Scheme's investments by investment type are disclosed in Note 7.

Liquidity Risk

Liquidity risk is the risk that the Scheme may not be able to generate sufficient cash resources to settle its future obligations in full as they fall due, or can only do so on terms that are materially disadvantageous to the Scheme.

Members are able to transfer their balances to another KiwiSaver scheme at any time. As such the liability for promised retirement benefits is deemed to be repayable on demand.

The Amanah Growth Fund is invested in AmanahNZ which invests in USD equities. The value of units in the Amanah Growth Fund will change daily.

AMANAH KIWISAVER PLAN
Notes to the Financial Statements
For the year ended 31 March 2019

The Scheme however does not have any external borrowings, nor any significant exposure to withdrawal payments / liquidity risk as AmanahNZ holds readily tradable quoted equities with sufficient liquidity to repay investors when required.

Financial risk management policies and objectives (continued)

Capital Risk

The Scheme's effective capital is the Net Assets available for benefits.

The Statement of Changes in Net Assets Available for Benefits shows the total amount payable to Members. The changes in the net assets available for benefits are brought about by the Scheme's net income earned and the changes in the Schemes' membership activities during the reporting period.

The Scheme redeems units in investments when a Member requires and is eligible to withdraw from the Scheme. As discussed under "Liquidity risk" above, when operating under normal investment market conditions and normal withdrawal levels, there are no foreseen difficulties in meeting Members' requirements for withdrawals. When a Member requires and is eligible to redeem their Member's units in the Scheme, the amount that they can withdraw is calculated as the number of units held multiplied by the unit price on the date of withdrawal.

The Scheme only invests in financial assets when there are adequate Member contributions available.

The Scheme does not take out loans to invest in financial assets or incur liabilities other than normal trade payables for payment of expenses.

12) Contingent Assets and Liabilities and Commitments

There are no contingent assets, liabilities or commitments as at 31 March 2019 (2018 - \$nil).

13) Guaranteed Benefits

No guarantees have been made in respect of any part of the liability for accrued benefits (2018 - \$nil).

14) Events after balance date

There have been no significant events since balance date that require disclosure in the financial statements (2018 - \$nil).

Amanah KiwiSaver Plan

Independent auditor's report to the Members

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Amanah KiwiSaver Plan, which comprise the statement of net assets available for benefits as at 31 March 2019, and the statement of changes in net assets available for benefits and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Amanah KiwiSaver Plan as at 31 March 2019, and of its financial performance and its cash flows for the year then ended in accordance with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of Amanah KiwiSaver Plan in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other than in our capacity as auditor we have no relationship with, or interests in, Amanah KiwiSaver Plan.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

William Buck Audit (NZ) Limited

Investments – Valuation & Existence	
Area of focus	How our audit addressed it
<p>The Fund Investments represent Amanah KiwiSaver Plan’s most significant asset, and accordingly the valuation and existence of the Fund Investments is the key aspect in the preparation of the financial statements. The Fund Investments comprise units in AmanahNZ, a unit trust, which in turn invests in up to 50 stocks listed on the main boards of the NYSE, and cash or cash equivalents (as described in Note 7 to the financial statements). AmanahNZ holds all of the Fund Investments through one broker and one bank.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> - Agreeing Amanah KiwiSaver Plan’s units held in AmanahNZ to the records of AmanahNZ, and agreeing AmanahNZ’s investment holdings and values to confirmations received from the broker, and checking these stock holdings and values to stock exchange closing prices and the trading records of AmanahNZ; - Obtaining information on AmanahNZ’s broker’s registration, financial performance and position, and compliance record; - Obtaining a thorough understanding of the systems and process in place at the entity and performing walkthrough testing of a series of investment purchase and sale transactions during the period.

Manager’s Responsibilities

The directors of Amanah KiwiSaver Plan’s management company are responsible on behalf of Amanah KiwiSaver Plan for the preparation of financial statements that give a true and fair view in accordance with New Zealand equivalents to International Financial Reporting Standards, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing Amanah KiwiSaver Plan’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate Amanah KiwiSaver Plan or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

<https://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/>

This description forms part of our independent auditor's report.

The engagement director on the audit resulting in this independent auditor's report is Michael Wood.

Restriction on Distribution and Use

This report is made solely to Amanah KiwiSaver Plan's members, as a body. Our audit work has been undertaken so that we might state to Amanah KiwiSaver Plan's members those matters which we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Amanah KiwiSaver Plan and its members, as a body, for our audit work, for this report or for the opinions we have formed.
