Notes to the Financial Statements

for the year ended 31 March 2021

1. REPORTING ENTITIES

The Lifestages KiwiSaver Scheme (the "Scheme") is the reporting entity. The Scheme is regulated by the Financial Markets Authority ("FMA") and therefore is governed by the Financial Markets Conduct Act 2013 ("FMC Act 2013"). The Scheme transitioned into the FMC Act 2013 regime on 16 November 2016.

These Financial Statements show the collective financial performance, financial position and cash flows of the Portfolio and Funds that make up the Lifestages KiwiSaver Scheme. The Portfolio and Funds whose information is reported and presented collectively within the Financial Statements are as follows:

- > Lifestages Capital Stable Portfolio
- > Lifestages Income Fund
- > Lifestages High Growth Fund

Collectively this portfolio and funds are referred to throughout these Financial Statements as the "Scheme", or individually the "Funds" or "Fund".

The Manager and Issuer of the Scheme is Funds Administration New Zealand Limited (the Manager), a subsidiary of Southland Building Society (SBS). The Supervisor is Trustees Executors Limited (the Supervisor).

The Scheme is a defined contribution superannuation scheme under the KiwiSaver Act 2006 and a profit oriented entity. The Scheme is domiciled and registered in New Zealand and its registered office is 51 Don Street, Invercargill.

These Financial Statements were authorised for issue by the Directors on 21 July 2021.

2. STATUTORY BASE

These Financial Statements have been prepared in accordance with the consolidated Trust Deed, dated 13 April 2018, and the FMC Act 2013 and KiwiSaver Act 2006.

3. BASIS OF PREPARATION

The Financial Statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ("NZ GAAP"). They comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") as appropriate for profit-oriented entities. The Financial Statements also comply with International Financial Reporting Standards ("IFRS").

The Financial Statements have been prepared on the historical cost basis, as modified by the revaluation of financial assets at fair value through profit or loss. The methods used to measure fair values are disclosed further below. The accrual basis of accounting has been applied, as has the going concern assumption.

There are no standards, amendments or interpretations that have been issued but are not yet effective that are expected to impact the Scheme's Financial Statements.

4. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these Financial Statements.

a) Functional and Presentation Currency

The Financial Statements are presented in New Zealand Dollars, which is the Scheme's functional currency. All financial information presented in New Zealand Dollars has been rounded to the nearest dollar.

Notes to the Financial Statements

for the year ended 31 March 2021

b) Use of Estimates and Judgements

The preparation of these Financial Statements in conformity with NZ IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. These accounting policies have been consistently applied.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The Manager has concluded that judgements made in the application of New Zealand Accounting Standards did not have a significant effect on the Financial Statements.

No other estimates with a significant risk of material adjustments in the next year are noted.

c) Foreign Currency

Transactions in foreign currencies are translated at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to New Zealand Dollars at the foreign currency closing exchange rate ruling at the balance sheet date. Foreign currency exchange differences relating to investments at fair value through profit or loss are included in gains or losses on investments.

d) Income

i) Dividends are recorded as income at the date the shares become ex dividend and income accrued is based upon the declared rate of return for the investments.

ii) Interest income is accounted for on an accruals basis using the effective interest method.

iii) Any unrealised gains or losses arising from the revaluation of investments or conversion to New Zealand dollars at balance date and realised gains and losses on the sale of investments during the year are recognised in profit or loss.

iv) Other income is recognised when the Scheme's right to receive payment is established.

e) Expenses

All expenses, including management fees and Supervisor fees, are recognised in profit or loss on an accruals basis.

f) Taxation

As at 1 October 2007 the Scheme converted to a Portfolio Investment Entity (PIE) under the Taxation (Savings Investment and Miscellaneous Provisions) Act 2006. The Scheme's taxable income under the PIE entity structure from 1 October 2007 is attributed to the members.

g) Goods and Services Tax (GST)

The Scheme is not registered for GST. All items in the Statement of Changes in Net Assets and the Statement of Financial Position are stated inclusive of GST.

h) Members' Accrued Benefits

The KiwiSaver Scheme issues multiple classes of units that are redeemable at the Member's option and do not have identical features and are therefore classified as financial liabilities. Units issued by the Scheme provide the Members with the right to require redemption for cash at the value proportionate to Members' share in the Scheme's net asset value, provided they meet the requirements of the KiwiSaver Act 2006.

Notes to the Financial Statements

for the year ended 31 March 2021

i) Financial Instruments Measurement

Classification

i) Recognition and initial measurement

The Scheme initially recognises financial assets at fair value through profit or loss (FVTPL) on the trade date, which is the date on which the Scheme becomes a party of the contractual provisions of the equity. Other financial assets are recognised on the date on which they are originated.

ii) Classification and subsequent measurement

On initial recognition, the Scheme classifies financial assets as measured at amortised cost or FVTPL.

Financial Assets are not reclassified subsequent to their initial recognition unless the Manager changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI).

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL.

Subsequent to initial recognition, "financial assets at amortised cost" are measured at amortised cost using the effective interest method. Interest income and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Subsequent to initial recognition, "financial assets at FVTPL" are measured at fair value. Net gains and losses, including any dividend income, are recognised in profit or loss.

j) Cash

Cash comprises call deposits with banks and building societies. Cash is held for the purpose of meeting short term cash commitments rather than investments or other purposes.

k) Accounts Payable and Interest Receivables

Accounts payable and interest receivables include accrued expenses and accrued income, are carried at their amortised cost using the effective interest rate method. Their carrying value closely approximates their fair value.

l) Related parties

A party is related to the Scheme if:

- directly or indirectly through one or more of its intermediaries, it controls, is controlled by, or is under common control with, the Scheme; or
- it is a parent, subsidiary or fellow subsidiary of a party; or
- it has an interest in or relationship with the Scheme that gives it significant influence over the Scheme; or
- the Scheme has an interest in or relationship with the party that gives it significant influence over the party; or
- they are a member of the Manager's key management personnel.

m) Changes in Accounting Policies

The accounting policies adopted have been applied to all years presented.

Notes to the Financial Statements

for the year ended 31 March 2021

5. FINANCIAL INSTRUMENTS

The Scheme's investing activities expose them to various types of risk that are associated with the financial instruments and markets in which it invests. The most important types of financial risk to which the Scheme is exposed are credit risk, market price risk, liquidity risk, foreign exchange risk and interest rate risk. These risks are managed under the Scheme's Statement of Investment Policy and Objectives ("SIPO"), and are monitored by the Manager.

Asset allocation is determined by the Scheme's Manager who manages the assets to achieve the investment objectives. Divergence from target asset allocations and the composition of the portfolio is monitored by the Scheme's Manager.

The nature and extent of the financial instruments outstanding at the balance sheet date and the risk management policies employed by the Scheme are discussed below.

a) Credit Risk

The Scheme is exposed to credit-related losses in the event that a counterparty fails to perform contractual obligations, either in whole or in part, under a contract. The financial instruments which potentially subject the Scheme to credit risk consist principally of cash, short term deposits, receivables and payables in terms of investment transactions, and unit trusts. Concentrations of credit risk are minimised by the parameters set out in the SIPO adopted by the Manager and approved by the Supervisor.

The Scheme's investments have a material exposure to the Southland Building Society, ANZ National Bank Limited, Kiwibank Limited and Nelson Building Society. These are considered to be without significant risk.

The maximum exposure for the Scheme to credit risk is represented by 'Total Assets' set out in the Statement of Financial Position.

b) Market Price Risk

Market price risk is the risk that the value of the Scheme's investment portfolio will fluctuate as a result of changes in market prices. Each Portfolio aims to manage its risk by ensuring that all activities are transacted in accordance with their individual mandates, overall investment strategy and within approved limits. Market price risk analysis is conducted regularly on a total portfolio basis.

The Scheme is subject to market price risk through its International Equity, Australasian Equity, Infrastructure, Property and New Zealand and International Bond investments, which are detailed in Note 11. The Manager has reviewed the adequacy of the price sensitivity analysis in the COVID-19 environment. For International Equity, Australasian Equity, Infrastructure and Property investments, variables of 10% and 20% were selected for market price risk as these are reasonably expected movements based on historic trends and current market conditions. For New Zealand and International Bond investments variables of 3% and 5% were selected for market price risk as these are reasonably expected movements based on current market conditions.

The impact of movements in these variables on changes in net assets is noted in the table below.

MARKET PRICE RISK	2021		2020		
	Movement:	10%	20%	10%	20%
		\$	\$	\$	\$
International and Australasian Equities, Infrastructure & Property investments:		23,580,767	47,161,534	16,166,528	32,333,057
	Movement:	3%	5%	3%	5%
		\$	\$	\$	\$
New Zealand & International Bonds:		3,928,591	6,547,652	3,013,067	5,021,778

Notes to the Financial Statements

for the year ended 31 March 2021

c) Liquidity and Cash Flow Risk

Liquidity Risk is the risk that the Scheme will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy commitments associated with financial instruments. Cash Flow Risk is the risk that the future cash flows derived from holding financial instruments will fluctuate. The risk management guidelines adopted are designed to minimise liquidity and cash flow risk through:

- > ensuring that there is no significant exposure to illiquid or thinly traded financial instruments; and
- > applying limits to ensure there is no concentration of liquidity risk to a particular counterparty or market.

Investments in unit trusts have no maturity dates and can be redeemed at any time. However, these assets are regarded as long-term investments in line with the Scheme's objectives. COVID-19 has created volatility in the markets and as a result there was an increase in switching and withdrawal activity within the Scheme by Members in the prior year. The Manager believes the Scheme has the appropriate level of liquidity to meet member requests and will continue to monitor the Scheme's underlying investments to ensure there is no illiquidity.

Payables have no contractual maturities but are typically settled within 30 days. Receivables outstanding at balance date are due to be settled within one year.

d) Foreign Exchange Risk

The investment activities of the Scheme expose it to currency risk, which is the possibility of losing money owing to changes in foreign currency exchange rates. The currency risk is managed in accordance with the Scheme's SIPO.

The Scheme is also exposed to currency risk indirectly by the investment in International Equities and International Managed Funds.

Foreign currency exposure is accounted for by marking to market in a manner consistent with the valuation of the underlying securities. The specific exposure and the effect of a reasonable possible movement in the foreign currency rate against the New Zealand dollar is outlined as follows:

FOREIGN EXCHANGE RISK	Lifestages KiwiSaver Scheme	
<i>As at 31 March 2021</i>	AUD	NZD
International Equities and Managed Funds	97,934,156	106,508,066
<i>As at 31 March 2020</i>	AUD	NZD
International Equities and Managed Funds	73,630,605	76,017,561

The table below summarises the impact on the net income of the Scheme, had the exchange rates between the New Zealand dollar and the foreign currency increased or decreased by 5%, with all other variables held constant. The analysis is based on the Manager's best estimate of a possible shift in exchange rates with regard to historical volatility.

NZD vs AUD NET INCOME EFFECT	2021	2020
	\$	\$
5% Appreciation International Equities and Managed Funds	(5,071,832)	(3,619,880)
5% Depreciation International Equities and Managed Funds	5,605,687	4,000,919

Notes to the Financial Statements

for the year ended 31 March 2021

e) Interest Rate Risk

Interest Rate Risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Interest rate risks associated with fixed interest, short term deposits and cash are regularly monitored as part of the reporting process. The interest rate risk disclosures have been prepared on the basis of the Scheme's direct investments and not on a look-through basis for investments held indirectly through unitised investments investing into interest bearing securities. Therefore, the disclosure of interest rate risk in the following note may not represent the true interest rate risk profile of the Scheme where the Scheme has investments in unit trusts which also have exposure to the interest rate markets.

A variable 100 basis points was selected for interest rate risk as this is a reasonably possible movement based on historic trends. A change of interest rates of 100 basis points would result in the change to net income as noted below:

INTEREST RATE RISK	2021	2020
Movement:	100bp	100bp
	\$	\$
The Scheme	966,752	1,062,983

f) Fair value

The Scheme classifies financial assets measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- > Level 1 quoted prices (unadjusted in active markets) for identical assets
- > Level 2 inputs other than quoted prices included within Level 1 that are observable for the assets, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- > Level 3 inputs for the assets that are not based on observable market data (unobservable inputs).

The following tables analyses within the fair value hierarchy the Scheme's financial assets measured at fair value subsequent to initial recognition, grouped into levels 1 to 2 based on the degree to which the fair value is observable. There are no level 3 financial assets.

\$ AS AT 31 MARCH	2021	2020
Level 1 Assets at fair value through profit or loss		
Listed Equities	48,020,830	-
Level 2 Assets at fair value through profit or loss		
Unlisted Funds and Trusts	318,739,887	239,015,218

The fair value of listed equities is determined using quoted market prices in an active market. This measurement falls within level 1 of the fair value hierarchy.

The fair value of unlisted funds and trusts is determined using the redemption price, based on valuation of its underlying investments, as supplied by the Manager on a daily basis. This measurement basis falls within level 2 of the fair value hierarchy as all significant inputs used to calculate the fair value are based on observable market data.

During the year there were no transfers of investments between levels in the fair value hierarchy.

g) Capital Management

The Net Assets Attributable to Members represent what the Scheme manages as capital (as redeemable units with no par value), notwithstanding Net Assets Attributable to Members is classified as a liability.

The amount of Net Assets Attributable to Members can change significantly on a daily basis as the Scheme is subject to daily contributions and withdrawals which are at the discretion of Members. The expected cash outflow on redemption of units may differ significantly from previous periods. The Scheme's policy in managing its obligation to meet redemption requests is to hold sufficient liquidity to cover reasonably anticipated redemptions. The Scheme's objectives when managing capital is to invest Members' funds in accordance with the Scheme's SIPO.

Notes to the Financial Statements

for the year ended 31 March 2021

6. RELATED PARTIES

a) Manager and Supervisor

Management Fees and operating costs in accordance with the Trust Deed have been paid by the Scheme to the Manager. Funds Administration New Zealand Limited, as the Manager of the Scheme, is entitled to be paid out of the Scheme a fee equal to 0.75% p.a. of the Gross Asset Value of the Lifestages Capital Stable Portfolio, 0.55% p.a. of the Gross Asset Value of the Lifestages Income Fund and 0.80% p.a. of the Gross Asset Value of the Lifestages High Growth Fund calculated daily and paid monthly.

Trustees Executors Limited, the Supervisor of the Scheme, also undertakes Custodial services for the Scheme. Trustees Executors Limited is entitled to fees from each of the Capital Stable Portfolio, the Lifestages Income Fund and the Lifestages High Growth Fund ("the Fund") as follows:

- > Supervisor Fees
 - >> 0.06% per annum on the fund's Gross Asset Value less than \$100 million
 - >> 0.05% per annum on the fund's Gross Asset Value over \$100 million
- > Custody Fees
 - >> 0.03% per annum on the fund's Gross Asset Value

In addition, an administration fee of \$2 per member, per month, was charged directly to each Member's account. This administration fee is paid to Trustees Executors Limited for the day-to-day administration of member accounts and maintaining the member registry for the Scheme.

Lifestages KiwiSaver Scheme		
	2021	2020
	\$	\$

Fees paid and payable to related parties for the year ended 31 March were as follows:

Funds Administration New Zealand Limited		
Management fee expense	3,069,774	2,761,003
Management fee payable	299,455	234,538
Trustees Executors Limited:		
Supervisor fee expense	225,491	200,789
Supervisor fee payable	21,640	17,037
Custody fee expense	129,783	115,135
Custody fee payable	11,803	9,293
Administration Fees	403,646	415,122

The Directors of the Manager, and their immediate family members held a 0.22% (2020 0.22%) interest in the Scheme.

Notes to the Financial Statements

for the year ended 31 March 2021

b) Investments by the Scheme in related parties

During the year various investments were bought or sold by the Scheme where the counterparty was another Fund also managed by the Manager. All such transactions were carried out in the ordinary course of the Scheme's activities and were transacted at the unit price applicable on the transaction date. No brokerage fees were charged.

Lifestages KiwiSaver Scheme		
	2021	2020
	\$	\$
Purchase of Lifestages Investment Funds products to the Scheme	8,000,000	-
Sales of Lifestages Investment Funds products to the Scheme	10,700,000	5,400,000

The Scheme holds units in the following Funds Administration New Zealand Limited investment products:

Lifestages KiwiSaver Scheme		
	2021	2020
Lifestages World Equity Portfolio		
Units	6,354,454	7,313,539
Market Value	\$ 20,279,719	\$ 16,836,578
Lifestages Australasian Equity Portfolio		
Units	4,332,923	4,915,487
Market Value	\$ 13,365,746	\$ 11,071,834
Lifestages World Bond Portfolio		
Units	15,841,640	14,211,138

International Managed Funds	229,581,029	166,902,261
Total Financial Assets	447,760,717	351,600,836

The Scheme holds a 55.5% (2020: 50.7%) interest in the Lifestages World Equity Portfolio and 52.4% (2020: 41.9%) in the Lifestages World Bond Portfolio and 54.6% (2020: 50.6%) interest in the Lifestages Australasian Equity Portfolio.

Determining whether the Scheme controls or has a significant influence over these investments primarily focuses on the Scheme's power over the investment decisions that affect relevant returns. In accordance with the Trust Deed, it is the Manager's responsibility to direct the ongoing day to day investment decisions. More than 75% of the interest in value of the investment is required in order to affect and change the investment decisions and investment policy used by the Manager and approved by the Supervisor. The Scheme holdings are below the prescribed threshold, hence the Scheme has concluded that it does not have the power over the relevant activities nor to participate in the financial and operating policy decisions. Therefore the Scheme has not consolidated or equity accounted for these investments.

14. COMMITMENTS AND CONTINGENT LIABILITIES

Other than as disclosed in the Financial Statements or Notes, the Funds have no contingent liabilities or future commitments as at 31 March 2021 (31 March 2020: Nil).

15. AUDITORS' REMUNERATION

The audit fees stated in the Statement of Changes in Net Assets were paid, or are payable, to the auditor of the Funds.

16. SUBSEQUENT EVENTS

On 25 June 2021, the Board of the Manager resolved to wind up the Capital Stable Portfolio with effect 15 July 2021. The Manager has nominated a Substitute Portfolio for reinvestment of the proceeds of the wind up of 25% High Growth Fund and 75% of the Income Fund.

Independent Auditor's Report

To the members of Lifestages KiwiSaver Scheme

Report on the audit of the financial statements

Opinion

In our opinion, the accompanying financial statements of Lifestages KiwiSaver Scheme (the 'scheme') on pages 3 to 19:

- present fairly in all material respects the scheme's financial position as at 31 March 2021 and its financial performance and cash flows for the year ended on that date; and
- comply with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

We have audited the accompanying financial statements which comprise:

- the statement of financial position as at 31 March 2021;
- the statements of changes in net assets, and cash flows for the year then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the scheme in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

Other than in our capacity as auditor we have no relationship with, or interests in, the scheme.

Materiality

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole. The materiality for the financial statements as a whole was set at 1% of net assets of the scheme. We chose the benchmark because, in our view, this is a key measure of the scheme's performance and the main objective of the scheme is to obtain capital growth taking into account both capital and income returns.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the members as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the financial statements as a whole and we do not express discrete opinions on separate elements of the financial statements

The key audit matter

How the matter was addressed in our audit

Existence and valuation of investments

Investments are the scheme's main assets, and existence and valuation at fair value of those investments is the most important aspect of preparing the financial statements.

We do not consider the scheme's investments to be at high risk of significant misstatement, or be subject to a significant level of judgement, because they comprise cash deposits and fund-to-fund investments held by one custodian.

However, due to their materiality in the context of the financial statements as a whole, they are considered to be the area which had the greatest effect on our overall audit strategy and allocation of resources

Our audit procedures included:

- documenting and understanding the processes in place to record investment transactions and to value the investments. This included evaluating the control environment in place at the third-party service providers by obtaining and reading the service organisation reports issued by an independent auditor;
- agreeing investment holdings to the confirmation received from the custodian;
- agreeing the valuation of fund-to-fund investments to independent third-party pricing sources; and
- checking the accuracy of fair value hierarchy disclosure as disclosed in the financial statements.

We did not identify any material differences in relation to the existence and valuation of investments.

Use of this independent auditor's report

This independent auditor's report is made solely to the members as a body. Our audit work has been undertaken so that we might state to the members those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

Responsibilities of the Manager for the financial statements

The Manager, on behalf of the scheme, is responsible for:

- the preparation and fair presentation of the financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards;

- implementing necessary internal control to enable the preparation of a set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

<http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2/>

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is David Gates.
