- Aon KiwiSaver - Russell LifePoints Target Date 2025 Fund
- Aon KiwiSaver - Russell LifePoints Target Date 2035 Fund
- Aon KiwiSaver - Russell LifePoints Target Date 2045 Fund
- Aon KiwiSaver - Russell LifePoints Target Date 2055 Fund
- Aon KiwiSaver - Russell LifePoints Balanced Fund
- Aon KiwiSaver - Russell LifePoints Conservative Fund
- Aon KiwiSaver - Russell LifePoints Growth Fund
- Aon KiwiSaver - Russell LifePoints Moderate Fund
- Aon KiwiSaver - Nikko Balanced Fund
- Aon KiwiSaver - Nikko Cash Fund

Collectively the "Aon KiwiSaver Scheme" (the "Funds and Scheme").

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements of Aon KiwiSaver Scheme (the "Funds and Scheme") which comprise:

- the statement of net assets as at 31 March 2021;
- the statements of changes in net assets and cash flows for the year then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements of the Funds and Scheme on pages 5 to 34:

- present fairly in all material respects the Funds' and Scheme's financial position as at 31 March 2021 and its financial performance and cash flows for the year ended on that date; and
- comply with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ("ISAs (NZ)"). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Funds and Scheme in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including

International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the auditor’s responsibilities for the audit of the financial statements section of our report.

Our firm has also provided other services to the Funds and Scheme in relation to the audit of the register. Subject to certain restrictions, partners and employees of our firm may also deal with the Funds and Scheme on normal terms within the ordinary course of trading activities of the business of the Funds and Scheme. These matters have not impaired our independence as auditor of the Funds and Scheme. The firm has no other relationship with, or interest in, the Funds and Scheme.

Materiality

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements of each Fund in the Scheme as a whole. The materiality for the financial statements as a whole for each Fund was set at 1% of the total assets of that Fund. We chose the benchmark because, in our view, this is a key measure of the Funds’ performance as users focus on asset growth.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the Members as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the financial statements as a whole and we do not express discrete opinions on separate elements of the financial statements.

The key audit matter

How the matter was addressed in our audit

Existence and valuation of investments

The Funds’ and Scheme’s portfolio of investments is the most significant asset making over 99% of total assets. These comprise fund-to-fund investments.

The investment portfolio is our most significant area of audit focus due to its materiality in the context of the financial statements as a whole.

Our audit procedures included:

- evaluating the control environment in place at the custodian and fund managers by obtaining and reading the reports issued by independent auditors on the design and operation of those controls throughout the period;
- agreeing investment holdings to the confirmation received from the custodian;
- obtaining confirmation of investment funds’ unit prices from investment managers; and
- checking the accuracy of fair value levels as disclosed in the financial statements.

We did not identify any material differences from our procedures.

Other information

The Manager, on behalf of the Funds and Scheme, is responsible for the other information included in the Funds' and Scheme's Annual Report. The Annual Report includes a link to where the audited financial statements can be found on the Companies Office. Our opinion on the financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Use of this independent auditor's report

This independent auditor's report is made solely to the Members as a body. Our audit work has been undertaken so that we might state to the Members those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Members as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

Responsibilities of the Manager for the financial statements

The Manager, on behalf of the Funds and Scheme, is responsible for:

- the preparation and fair presentation of the financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards;
- implementing necessary internal control to enable the preparation of a set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

<http://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-2/>

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Graeme Edwards.

AON KIWSAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

1. General information

Scheme description

Aon KiwiSaver Scheme (the "Scheme") is a defined contribution scheme originally established by a trust deed dated 28th March 2007 by Superannuation Management Nominees Limited and Aon New Zealand. The Manager of the Scheme is Aon Saver Limited (the "Manager"). The Manager's parent company is Aon Holdings New Zealand. The supervisor of the Scheme is Public Trust (the "supervisor") appointed on 28 September 2012 by a Deed of Retirement and Appointment of Trustee. The custodian of the Scheme is Public Trust. On 29 January 2021, Aon Saver Limited and Public Trust entered into a trust deed which replaced the previous trust deed. The Scheme is domiciled in New Zealand and the address of the registered office is Level 21 Aon Centre, 29 Customs Street West, Auckland.

The Scheme is a reporting entity under the Financial Markets Conduct Act 2013 (the "FMCA"). The Scheme is an Issuer for the purposes of the FMCA. The Scheme is registered under the KiwiSaver Act 2006 with registration number KSS/10021. The Scheme is a managed investment scheme called the "Aon KiwiSaver Scheme" with scheme number SCH10860.

Funding arrangement

The Scheme is a profit oriented entity. Under the trust deed contributions are made by members of the Scheme, their employers and the Crown. Members can choose to contribute either 3%, 4%, 6%, 8% or 10% of gross salary or wage. Members may from time to time make additional voluntary contributions to the Scheme. Employers are required to contribute 3% of members' gross salary or wage to the Scheme. Employer contributions are reduced by employer superannuation contribution tax ("ESCT"). The Crown also makes a contribution of 50% of member contributions during the year up to a maximum of \$521.43.

Termination terms

The trust deed sets out the basis on which the Scheme can be terminated.

Retirement benefits

Member benefits are locked into the Scheme until reaching the qualifying age for New Zealand superannuation. However, if the member first joined KiwiSaver (or a complying superannuation fund) prior to 1 July 2019, they also need to have been a member for at least five years before making a withdrawal. Retirement benefits are determined by contributions to the Scheme together with investment earnings on these contributions over the period of membership reduced by any deductions or withdrawals that have been made.

Since 1 April 2020, members who first joined KiwiSaver (or a complying superannuation fund) prior to 1 July 2019 can elect to make a withdrawal in less than five years if they have reached the qualifying age for New Zealand superannuation, but will no longer be entitled to further government contributions or compulsory employer contributions.

Amendment to the trust deed

On 29 January 2021 the trust deed was amended to reflect the legislative changes affecting the Scheme under the Trusts Act 2019 and to provide for the consolidation of investment funds.

AON KIWISAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

2. Basis of preparation

Statement of Compliance

The financial statements of the Scheme have been prepared in accordance with the trust deed governing the Scheme, the KiwiSaver Act 2006, the FMCA, and New Zealand Generally Accepted Accounting Practice ("NZ GAAP"). They comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. The financial statements comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP). For the purposes of complying with NZ GAAP the Scheme is a Tier 1 for-profit entity.

The Scheme comprises 14 investment funds, namely, ANZ Balanced Fund, ANZ Cash Fund, Millford Active Growth Wholesale Fund, Nikko Balanced Fund, Nikko Cash Fund, Russell LifePoints 2015 Fund (closed to new members), Russell LifePoints 2025 Fund, Russell LifePoints 2035 Fund, Russell LifePoints 2045 Fund, Russell LifePoints 2055 Fund, Russell LifePoints Balanced Fund, Russell LifePoints Conservative Fund, Russell LifePoints Growth Fund and Russell LifePoints Moderate Fund. The financial statements have been prepared at the investment fund level as the liabilities of the individual investment funds are limited to the assets of each investment fund. Therefore, assets of one investment fund could not be used to meet the liabilities of another fund.

Measurement base

The measurement base adopted is that of historical cost modified by the revaluation of investments which are measured at fair value through profit and loss at balance date.

Functional and presentation currency

These financial statements are presented in New Zealand Dollars ("NZD") because that is the currency of the primary economic environment in which the Scheme operates. Where indicated, financial information presented in NZD has been rounded to the nearest thousand.

Classification of assets and liabilities

The assets and liabilities are disclosed in the Statement of Net Assets in an order that reflects their relative liquidity.

AON KIWISAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

3. Summary of Significant Accounting Policies

The following are the significant accounting policies which have been adopted in the preparation of the financial statements:

Investment Income

Interest income and distribution income from unlisted investments is recognised in the Statement of Changes in Net Assets using the effective interest method to the extent that it is probable that the economic benefits will flow to the Scheme and the income can be readily measured.

Gains and losses on investments are calculated as the difference between fair value through profit or loss at sale (using trade date) or at year end, and the fair value through profit or loss previously reported. This includes both realised and unrealised gains and losses.

Income and expenses

All income and expenses are accounted for on an accrual basis.

Taxation

The Scheme is a portfolio investment entity ("PIE"). Under the PIE regime detailed in the Income Tax Act 2007, income is effectively taxed in the hands of the members and therefore income tax expense is not recognised by the Scheme. The tax liability arising on income is allocated to members and satisfied by the cancellation of units held in the Scheme. As a consequence, deferred tax is also not recognised.

Members of the Scheme have the option to choose prescribed investor rates ("PIR") of 10.50%, 17.50% or 28%.

The taxable income, deductible expenses and tax credits are attributed to members in accordance with their proportionate interests in their investment option, and recognised as part of Membership Activities in the Statement of Changes in Net Assets.

Net taxation receivable or payable on behalf of the members under the PIE regime is recognised in the Statement of Changes in Net Assets.

Financial Instruments:

(i) Classification

The Scheme classifies its investments as financial assets at fair value through profit or loss. These financial assets are designated by the Scheme at fair value through profit or loss at inception.

Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Scheme's documented investment strategy. The Scheme's policy is for the Manager to evaluate the information about these financial assets on a fair value basis together with other related financial information. The Manager has determined that all financial assets and financial liabilities of the Scheme are designated at fair value through profit and loss with the exception of cash at bank, unsettled trades and receivables which are classified as assets at amortised cost and payables which are classified as liabilities at amortised cost. The other liabilities represent the amounts payable to the supervisor, Manager, members, service providers and other accruals.

(ii) Recognition and derecognition

The Scheme recognises financial assets and financial liabilities on the date it becomes a party to the contractual agreement (trade date) and recognises changes in fair value of the financial assets or financial liabilities from this date. Investments are derecognised when the right to receive cash flows from the investments have expired or the Scheme has transferred substantially all risks and rewards of ownership. All realised gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised in the Statement of Changes in Net Assets.

AON KIWISAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

3. Summary of Significant Accounting Policies (Continued)

Financial Instruments (Continued)

(III) Measurement

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately. Subsequent to initial recognition, all instruments at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Changes in Net Assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer a liability takes place either:

- > In the principal market of the asset or liability.
- > In the absence of a principal market, in the most advantageous market for the asset or liability.
- > The principal or most advantageous market must be accessible by the Scheme.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability assuming market participants act in their economic best interest.

Receivables

Receivables do not carry any interest and are short-term in nature and are stated at amortised cost.

Payables

Payables include liabilities and accrued expenses owing by the Scheme which are unpaid as at balance date. These amounts are unsecured and are usually paid within 30 days of recognition. These financial liabilities are stated at amortised cost.

Goods and Services Tax ("GST")

The Scheme is not registered for GST and consequently all components of the financial statements are stated inclusive of GST where appropriate.

Contributions and benefits

Contributions are recognised in the Statement of Changes in Net Assets when they are received. Benefits are recognised in Statement of Changes in Net Assets when they become payable or are paid.

AON KIWISAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

3. Summary of Significant Accounting Policies (Continued)

Transfers in and transfers out

Transfers in are recognised in the Statement of Changes in Net Assets when they are received. Transfers out are recognised in the Statement of Changes in Net Assets when they become payable or are paid.

Capital risk management

The Scheme's objectives when managing capital risk are to safeguard its ability to continue as a going concern in order to provide returns to its members and maximise the Scheme members' value. The Scheme is not subject to any externally imposed capital requirements.

The Scheme's primary purpose is to ensure that its net assets are sufficient to meet all present and future obligations of the Scheme, as defined by the liability for promised benefits.

The Scheme achieves this through obtaining contributions from members and employers and investing these into financial assets.

Critical judgement and accounting estimates

The Manager has applied its judgement in selecting the accounting policy to designate financial assets and financial liabilities through profit or loss at inception. This policy has a significant impact on the amounts disclosed in the financial statements. It is possible to determine the fair values of all financial assets as unit prices are readily available. Therefore there are no material assumptions or major sources of estimation uncertainty that have a significant risk of making material adjustments to the carrying amounts of assets and liabilities at year end. However as with all investments, their value is subject to variation due to market fluctuations. For the purposes of the fair value hierarchy of financial assets at fair value through profit or loss, the Manager has to apply its judgement as to what constitutes observable prices. For further details please refer to Note 6 (Total Investments at Fair Value).

AON KIWSAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

5. Financial risk management

The Scheme utilises a number of financial instruments in the course of its normal investing activities. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed in the Note 3.

The Manager has approved a statement of investment policy and objectives ("SIPO") which establishes investment fund objectives and target asset allocations. Performance against the investment performance objectives is reviewed quarterly by the Manager. Asset allocations are reviewed regularly by the Manager and reallocations back to benchmark are undertaken as required.

Counterparty risk and risks relating to the performance of the parties involved in the Scheme

Counterparty risk is the risk that a party to a contract with the Scheme defaults, fails to complete a transaction, or otherwise becomes unable to meet its financial obligations.

In addition, there are a number of parties involved in the operation of the Scheme being the Manager, the supervisor and the fund managers. Decisions made by either one of the parties are based on a range of variables which by their nature are prospective. Therefore, there is a risk that such decisions will not always have good results for members.

The risk is managed by requiring the supervision of various parties. The Manager monitors the investment performance of fund managers and reports in detail on a quarterly basis. The supervisor supervises the Manager's performance of the functions of the Manager set out in the KiwiSaver Act and under the trust deed.

Liquidity risk

Liquidity risk is the risk that the Scheme will not be able to meet its financial obligations as they fall due. The Scheme's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Scheme's reputation.

The Scheme's trust deed provides for the payment of benefits and it is therefore exposed to the liquidity risk of meeting members' withdrawals at any time.

The Scheme's investments are considered to be readily realisable. There are no restrictions on the redemption of units and they may be redeemed for cash at any time, subject to the approval of the fund manager. Other financial liabilities of the Scheme comprised of accounts payable and accrued expenses and other current liabilities have no contractual maturity date but are typically settled within 30 days or within the timeframe as set out in the trust deed.

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Financial instruments which potentially expose the Scheme to credit risk consist of cash, receivables, and investments in unlisted products. The maximum credit exposure to credit risk is the carrying value of these financial instruments.

The Manager manages and monitors credit risk by agreeing on target asset allocations for each investment fund and by diversifying, as per the SIPO, the Scheme's investment funds over a range of investment products. The Manager performs due diligence over all fund managers before appointment and uses the services of an investment consultant to alert it to any potential or actual risks associated with the fund managers.

AON KIWISAVER SCHEME

Notes to the Financial Statements for the Year Ended 31 March 2021

5. Financial risk management (Continued)

Climate risk

Climate change, an urgent and critical global challenge, poses systemic risks to financial markets due to the physical impact of climate change alongside risks associated with the transition to a more sustainable global economy. The Manager, and its investment consultant, believes climate risk along with other environmental, social and governance (ESG) factors impact risk management and long-term value creation. Therefore, Aon integrates material ESG risk factors into our investment research and decision-making.

The Manager, in conjunction with the investment consultant, currently manages climate risk by employing a ratings system that assesses how well fund managers integrate responsible investment and ESG considerations into their investment decision-making processes, of which climate change is one aspect. The Manager, with the assistance of the investment consultant, is assessing evidence that fund managers demonstrate awareness of potentially financially material ESG risks in their investment strategies and are incorporating appropriate processes to identify, evaluate and potentially mitigate these risks across portfolios. Fund managers' ESG reporting, including carbon metrics and the development of climate-related disclosure frameworks, is being monitored and the underlying fund managers are being engaged with to encourage constructive developments in ESG practices.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

Due to the unlisted nature of the investments it is not practical to determine the sensitivity of the unit price to changes in foreign exchange rates or interest rates. The funds are managed by ANZ New Zealand Investments Limited, Milford Funds Limited, Nikko Asset Management New Zealand Limited and Russell Investment Group Limited. Risk management activities are undertaken by the Scheme's fund managers to operate within the guidelines provided by the Manager.

The Manager uses the services of an investment consultant to alert it to any actual or potential risks associated with the fund manager or their products.

Currency risk: Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Scheme is indirectly exposed to currency risk in that future currency movements will affect the valuation of investments in unlisted products which invest in foreign currency denominated investments. Risk management activities are undertaken by the Scheme's fund managers to operate within the guidelines provided by the Manager.

The Manager, in conjunction with the investment consultant, monitors currency risk by receiving reports regularly from all fund managers which are reviewed and assessed against relevant asset allocation profiles and performance targets.

Interest rate risk: Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Scheme is indirectly exposed to interest rate risk in that future interest rate movements will indirectly affect the valuation of investments in unlisted products which invest in cash and fixed interest investments. The Scheme has direct exposure to interest rate risk on its cash holdings, but this is not material due to the levels of cash held at balance date.

The Scheme's interest rate risk is monitored on a regular basis by the fund managers in accordance with policies and procedures in place including monitoring of exposure to interest rates and assessment of actual interest rates against the relevant benchmarks. The Manager monitors interest rate risk on a regular basis by monitoring the asset allocation and performance against relevant asset allocation profiles and performance targets.

Notes to the Financial Statements for the Year Ended 31 March 2021

5. Financial risk management (Continued)

Market risk (Continued)

Other price risk: Other price risk is the risk that the value of the Scheme's investments will increase or decrease due to a change in the unit prices of the underlying investments. The Scheme is exposed to other price risk through its investment in unitised products. The Scheme is indirectly exposed to underlying equities. The fund managers track these underlying equities on a daily basis through appropriate monitoring of the market conditions and analysis against benchmark returns.

The Manager in consultation with the investment consultant, monitors the performance of the funds regularly against performance objectives set out in the SIPO. A rigorous quarterly performance analysis is carried out in accordance with the Manager's SIPO. In monitoring the performance of the funds, the Manager notes that investment markets have recovered since March 2020. However, the long term impact of the Covid-19 virus remains unclear.

Sensitivity analysis - Other price risk

The following table shows the impact on the Scheme's Net Assets under two scenarios - a 15% decrease in the unit prices of the Scheme's investment funds and a 15% increase in the unit prices of the Scheme's investment funds.

	Total of the Scheme	ANZ Balanced	ANZ Cash	Milford Fund	Nikko Balanced	Nikko Cash	Russell LifePoints® 2015	Russell LifePoints® 2025
	2021 \$000	2021 \$000	2021 \$000	2021 \$000	2021 \$000	2021 \$000	2021 \$000	2021 \$000
A 15% decrease in the unit price of the Scheme's investment funds	(110,634)	(5,621)	(846)	(28,650)	(1,834)	(372)	(734)	(3,644)
A 15% increase in the unit price of the Scheme's investment funds	110,634	5,621	846	28,650	1,834	372	734	3,644

Notes to the Financial Statements for the Year Ended 31 March 2021

6. Total Investments at Fair Value

The carrying amount of financial assets and financial liabilities recorded in the financial statements represents their respective fair values, determined in accordance with the Scheme's accounting policies as described in Note 3.

The Scheme classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Valuation techniques using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Valuation techniques using inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The Scheme has investments in financial instruments of which fair values are classified as Level 2 as they are unlisted based on prices provided by the fund manager. The Scheme does not have investments in financial instruments classified as either Level 1 or Level 3. There have been no transfers between levels during the year (2020: Nil).

The unit price is based upon a Net Asset Valuation using observable inputs of quoted security prices in active share markets and/or interest rates or yield curves which are observable at specific time intervals. The Net Asset Valuation of the Fund may also include securities or derivatives which have inputs such as foreign exchange spot and forward rates and interest rate curves derived from quoted bond prices. The Net Asset Valuation may also have adjustments to reflect fees associated with the Fund.

For unit prices, significant inputs into the calculation are market observable and are included within Level 2.

7. Commitments and contingent liabilities

There were no commitments or contingent liabilities outstanding as at 31 March 2021 (2020: Nil).

8. Vested benefits

Vested benefits are benefits payable to members or beneficiaries, under the conditions of the trust deed, on the basis of all members ceasing to be members of the Scheme at balance date. Vested benefits as at 31 March 2021 equalled the net assets available for benefits (2020: Same).
